<u>RECOMMENDATION:</u> Staff recommends the City Council approve an Encroachment Permit Agreement with Andersen Environmental for use of the public right-of-way along Ocean Avenue (adjacent to 5000 Overland Avenue) for public parking. <u>BACKGROUND/DISCUSSION:</u> Ocean Avenue effectively comes to an end at Overland Avenue. However, there is a small section of City-owned dedicated street right-of-way just beyond that point (north of Overland Avenue and adjacent to 5000 Overland Avenue). For many years, this section of right-of-way has been used as a parking lot for the private property located at 5000 Overland Avenue rather than for right-of-way purposes. The 5000 Overland Avenue property is currently in escrow and the purchaser, Andersen Environmental, desires to have continued use of this section of right-of-way for parking. Staff does not anticipate needing to use this small area for right-of-way purposes at anytime in the foreseeable future and believes that the continued use of this property as a parking lot will best serve the public interest. Staff recommends entering into an Encroachment Permit Agreement with Andersen Environmental to allow for this property to continue to be used as a parking lot. The Agreement specifies that this parking lot shall be open for public use and preserves the City's right to charge the property owner for the use of the lot. To protect the City's interests, this Agreement contains provisions requiring that the property

owner repair any damage to City property, carry adequate liability insurance, and indemnify and defend the City if it is sued for damages. Furthermore, the Agreement contains provisions allowing the City to terminate the Agreement with notice if the property is needed for a government purpose.

It should be noted that Andersen Environmental has also expressed an interest in a vacation of this section of right-of-way as a long-term solution to this issue and staff may be returning to City Council to initiate this process in the future.

FISCAL ANALYSIS:

Staff does not anticipate any fiscal impact from the approval of this Encroachment Permit Agreement. The Agreement allows for the continued use of the property as a parking lot. It does not specify a fee to be charged for this lot, as it will be accessible to the public; however, it preserves the City's right to charge for its use in the future.
