SOURCEWELL VENDOR PRICE AND PRODUCT CHANGE REQUEST FORM

Section 1. Instructions for Vendor

Requests for product or service changes, additions, or deletions will be considered at any time throughout the awarded contract term. All requests must be made in writing by completing sections 2, 3, and 4 of this Sourcewell Price and Product Change Request Form and signed by an authorized Vendor representative in section 5. All changes are subject to review by the Sourcewell Procurement Department and to approval by Sourcewell’s Chief Procurement Officer. Submit request through email to your assigned Sourcewell Contract Administrator.]

Sourcewell will determine whether the request is 1) within the scope of the original RFP, and 2) in the best interests of Sourcewell and Sourcewell Members. Approved Price and Product Change Request Forms will be signed and emailed to the Vendor contact.

The Vendor must complete this change request form and individually list or attach all items or services subject to change, must provide sufficiently detailed explanation and documentation for the change, and must include a complete restatement of pricing documentation in an appropriate format (preferably Microsoft® Excel®). The pricing document must identify all products and services being offered and must conform to the following Sourcewell product/price change naming convention: (Vendor Name) (Sourcewell Contract #) (effective pricing date); for example, “Acme Widget Company #012416-AWC eff. 01-01-2017.”

NOTE: New pricing restatements must include all products and services offered regardless of whether their prices have changed and must include a new “effective date” on the pricing documents. This requirement reduces confusion by providing a single, current pricing sheet for each Vendor and creates a historical record of pricing.

ADDITIONS. New products and related services may be added to a contract if such additions are within the scope of the original RFP.

DELETIONS. New products and related services may be deleted from a contract if, for example, they are no longer available or have been modified to a point where they are outside the scope of the RFP.

PRICE CHANGES: Vendors may request price changes if they provide sufficient rationale for the change. For example, a Vendor that manufactures products that require substantial petroleum-related material might request a 3% price increase because of a 20% increase in petroleum costs.

Price decreases: Sourcewell expects Vendors to propose their very best prices and anticipates that price reductions might occur because of improved technologies or marketplace efficiencies.

Price increases: Acceptable price increases typically result from specific Vendor cost increases. The Vendor must include reasonable justification for the price increase and must not, for example, offer merely generalized statements about an increase in a cost-of-living index. Appropriate documentation should be attached to this form, including such items as letters from suppliers announcing price increases.

Refer to the RFP for complete “Pricing” details.

Section 2. Vendor Name and Type of Change Request

AWARDED VENDOR NAME: Tarkett USA Inc.

SOURCEWELL CONTRACT NUMBER: 121715-TFU

CHECK ALL CHANGES THAT APPLY:

- Adding Products/Services
- Deleting Products/Services
- Price Increase
- Price Decrease

SOURCEWELL VENDOR PRICE AND PRODUCT CHANGE REQUEST FORM

Section 3. Detailed Explanation of Need for Changes

List the products and/or services that are changing or being added or deleted from the previous contract price list, along with the percentage change for each item or category. (Attach a separate, detailed document if changing more than 10 items.)

See attached listings for Modular, Powerbond, Broadloom, LVT, Resilient, and Labor Pricing

Provide a general statement and documentation explaining the reasons for these price and/or product changes.

EXAMPLES: 1) "All pricing for paper products and services are increased 5% because of increased raw material and transportation costs (see attached documentation of fuel and raw materials increase)." 2) "The 6400 series floor polisher is being added to the product list as a new model, replacing the 5400 series. The 6400 series 3% increase reflects technological changes that improve the polisher's efficiency and useful life. The 5400 series is now included in the "Hot List" at a 20% discount from the previous pricing until the remaining inventory is liquidated."

1. Tarkett USA Inc. reviews it's product lines throughout the year and drops products that have low to no demand to make room for new products.
2. Tarkett USA Inc. adds new products as needed to meet current design trends and market demands.
3. Product name changes indicate that older and outdated colors have been replaced with new up-to-date color offerings.
4. Labor pricing increase on average 5.18%

If adding products, state how these are within the scope of the original RFP.

Sourcewell has buying access to Tarkett USA Inc's entire product selections, which include Modular, Powerbond, Broadloom (Tufted & Woven) LVT, and Resilient products. New product additions are similar in construction and pricing as existing products and pricing on contract.

If changing prices or adding products or services, state how the pricing is consistent with existing Sourcewell contract pricing.

SOURCEWELL VENDOR PRICE AND PRODUCT CHANGE REQUEST FORM

Products being added to the Sourcewell contract follow the same pricing structure as previously accepted price lists.

Section 4. Complete Restatement of Pricing Submitted

A COMPLETE restatement of the pricing, including all new and existing products and services is attached and has been emailed to the assigned Sourcewell Contract Administrator.
