Waste Description: Mercury

Waste Code: D010
Waste Description: Selenium

Waste Code: D011
Waste Description: Silver

Waste Code: D016
Waste Description: 2,4-D (2,4-Dichlorophenoxyacetic Acid)

TARGET STORE T2632 (Continued) **1014465391**

Waste Code: D018
Waste Description: Benzene

Waste Code: D024
Waste Description: M-Cresol

Waste Code: D026
Waste Description: Cresol

Waste Code: D027
Waste Description: 1,4-Dichlorobenzene

Waste Code: D028
Waste Description: 1,2-Dichloroethane

Waste Code: D035
Waste Description: Methyl Ethyl Ketone

Waste Code: D039
Waste Description: Tetrachloroethylene

Waste Code: P001
Waste Description: 2h-1-Benzopyran-2-One, 4-Hydroxy-3-(3-Oxo-1-Phenylbutyl)-, & Salts, When Present At Concentrations Greater Than 0.3% (Or) Warfarin, & Salts, When Present At Concentrations Greater Than 0.3%

Waste Code: P042
Waste Description: 1,2-Benzenediol, 4-[1-Hydroxy-2-(Methylamino)Ethyl]-, (R)- (Or) Epinephrine

Waste Code: P046
Waste Description: Alpha,Alpha-Dimethylphenethylamine (Or) Benzeneethanamine, Alpha, Alpha-Dimethyl-

Waste Code: P075
Waste Description: Nicotine, & Salts (Or) Pyridine, 3-(1-Methyl-2-Pyrrolidinyl)-,(S)-, & Salts

Waste Code: P081
Waste Description: 1,2,3-Propanetriol, Trinitrate (R) (Or) Nitroglycerine (R)

Waste Code: U002
Waste Description: 2-Propanone (I) (Or) Acetone (I)

Waste Code: U034
Waste Description: Acetaldehyde, Trichloro- (Or) Chloral

Waste Code: U035
Waste Description: Benzenebutanoic Acid, 4-[Bis(2-Chloroethyl)Amino]- (Or) Chlorambucil

Waste Code: U044
Waste Description: Chloroform (Or) Methane, Trichloro-

Waste Code: U058
Waste Description: 2h-1,3,2-Oxazaphosphorin-2-Amine, N,N-Bis(2-Chloroethyl)Tetrahydro-, 2-Oxide (Or) Cyclophosphamide

TARGET STORE T2632 (Continued) **1014465391**

Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 05-10-2022
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: Inspection by A.Domanski, consent by Richard Montjaro and Melissa Jung. Inspection of exempt location to ensure sump-pump not used for constant storage of crude oil. Per Richard, oil will sometimes flow into sump but is pumped out same day so not considered constant storage, business remains exempt from billing, unsure if LA County will want this account deactivated.

REPORT TO bayron.arriaza@hines.com

Eval Division:	Los Angeles City Fire Department
Eval Program:	HMRRP
Eval Source:	CERS,
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	05-15-2014
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	Not reported
Eval Division:	Los Angeles City Fire Department
Eval Program:	UST
Eval Source:	CERS,
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	05-20-2019
Violations Found:	No
Eval Type:	Routine done by local agency
Eval Notes:	Inspector Husband LAFD, on site this date to conduct routine inspection of underground storage tank. Consent to enter, inspect and take photographs was given on this date by James Monitoring system certification (was) conducted at this time. Monitoring certification was performed by (Aaron Perrigo - Of Confidence UST Service). Tester provided the following certifications: ICC: 8485827 Exp: 9/14/2020 Veeder-Root: B47853 Exp: 8/2/2020 VMI: Other: The UST monitoring panel showed all functions normal. The monitoring set up and alarm history were provided for review. The sumps and UDCs were opened for inspection and the sensors were observed positioned to detect a leak at the earliest opportunity. The spill buckets were also visually inspected. The Monitoring Plan was compared to the equipment onsite. The operation of the UST system was compared to the conditions of the operating permit. Property Owner: BRE HH PROPERTY OWNER, LLC Tank Owner/ BRE HH [Truncated]

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Facility Project Subtype:	Not reported
RWQCB Region:	LOS ANGELES RWQCB (REGION 4)
Site History:	The Site has been used as a silver and gold plating facility from the early 1970s to approximately 1980. Plating operations impacted the subsurface with volatile organic coumpounds (VOCs) . The primary sources of VOC-impact included a VOC-based degreaser and an industrial wastewater clarifier located near the northwest corner of the building. Site investigations have been conducted at the site since 1986 and involved soil gas surveys, soil borings and installation and sampling of groundwater monitoring wells. The site assessments have indicated that the soil and groundwater are impacted with VOCs such as trichloroethene (TCE), perchloroethylene (PCE) and Freon. Various soil and groundwater remedial actions have also been implemented. A Soil Vapor Extraction (SVE) system operating from March 24, 2004 through November 9, 2005 has removed an estimated VOC mass of 1,189 pounds from the soil. A clarifier was excavated and removed from the site together with approximately 100 cubic yards of soil. An enhanced bioremediation involving injection of HRC was also implemented to remediate the groundwater. Approximately 1,560 pounds

BURTON PLATING INC (Continued) **1000417271**

of HRC was injected into 28 borings between 25 and 35 feet below ground surface (bgs) between August 2006 and September 2006. A vacuum-enhanced groundwater extraction was performed between April 2005 through June 2008 and approximately 35,758 gallons of groundwater extracted. However, only an estimated 3.98 pounds of VOCs were removed by the groundwater extraction. A full-scale groundwater extraction and treatment system was installed and began operation in September 2013. Site assessment and remediation are still underway under Regional Board's oversight.

Environmental Interest/Information System:
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker,

BURTON PLATING INC (Continued) **1000417271**

California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Completed Info:

Completed Area Name:	PROJECT WIDE
Completed Sub Area Name:	Not reported
Completed Document Type:	Preliminary Endangerment Assessment Report
Completed Date:	12/18/1992
Comments:	THE DEPARTMENT HAS COMPLETED THE REVIEW OF THE PEA REPORT. THE DEPARTMENT CONCURS WITH THE RECOMMENDATION THAT FURTHER ACTION IS NEEDED AT THE SITE. THE RECOMMENDED FURTHER ACTION IS A HUMAN HEALTH RISK ASSESSMENT BE PERFORMED TO DETERMINE THE HEALTH RISKS FROM CONTAMINANTS IN SITE SOIL AND POSSIBLE VOLATILIZATION FROM GROUNDWATER. IF THE RISK ASSESSMENT INDICATE A SIGNIFICANT RISK TO HUMAN HEALTH FROM ANY OF THE SITE CONTAMINANTS, SOIL AND GROUNDWATER REMEDIATION WILL BE PERFORMED. THE DEPARTMENT CONSIDERS THE PEA AS COMPLETE. THE DEPARTMENT MAILED A DRAFT ENFORCEABLE AGREEMENT TO THE RESPONSIBLE PARTY FOR THE FURTHER REMEDIAL ACTION. A DEED RESTRICTION WAS NEVER FINALIZED. NFA FOR COMMERCIAL/INDUSTRIAL USE ONLY.

Completed Area Name:	PROJECT WIDE
Completed Sub Area Name:	Not reported
Completed Document Type:	Site Screening
Completed Date:	07/14/1992
Comments:	THE DEPT RECEIVED A PEA FOR THE SITE. NO DOCUMENTED RELEASE OF HAZ SUBSTANCES AT THE SITE WERE IDENTIFIED. PAST PRACTICES IN HANDLING HAZARDOUS SUBSTANCES AND/OR WASTE AT THE SITE HAVE RESULTED IN RELEASES OF CONTAMINANTS AT THE SITE. A TOTAL OF 28 CONTAMINANTS WERE IDENTIFIED IN SOIL AND GROUNDWATER AT THE SITE. THE PEA WAS SUBMITTED TO DETERMINE WHETHER REMOVAL OF HAZ SUBSTANCES OR REMEDIAL ACTION WOULD BE REQUIRED AT THE SITE IN ORDER TO PROTECT PUBLIC HEALTH AND THE ENVIRONMENT. THE SITE CONSISTS OF APPROXIMATELY 4.5 ACRES. THE SITE IS CONTAMINATED WITH PETROLEUM HYDROCARBONS, VOLATILE ORGANICS AND HEAVY METALS. THE GROUNDWATER IS AT A DEPTH OF 35 FEET. DIFFERENT AREAS OF THE SITE PREVIOUSLY USED FOR RETAIL LIQUOR SHOP, WELDING CO., MANUFACTURING (TOOL & DIE), CRANE SERVICE, WENDING SERVICE WAREHOUSE, MANUFACTURE OF WOOD PRODUCTS, MACHINE SHOP, DIE CASTING INDUSTRY, GRINDING COMPANY, FOOD PROCESS- ING, GREETING CARD COMPANY, WIRE PRODUCTS MFG, LUMBER STORAGE, CABINET MFG, AUTOMOBILE BODY WRECKING, PAINT BOOTH, PACKAGING CO, CLAY PRODUCTS MFG, MACHINE SHOPS AND METAL LABORATORY, PLASTIC MFG AND STORAGE, TOOL STORAGE, MANUFACT_ URE OF INSECTICIDES, WOOD FABRICATION, BOAT CONSTRUCTION, PLUMBING SUPPLY STORAGE, DENTAL OFFICE, TRAVEL AGENCY, BANKS AND A GASOLINE SERVICE STATION. A PEA IS REQUIRED BECAUSE OF THE EVIDENCE OF CONTAMINATION AT THE SITE.

Completed Area Name:	PROJECT WIDE
Completed Sub Area Name:	Not reported
Completed Document Type:	Risk Assessment Report
Completed Date:	04/21/1994
Comments:	Risk Assessment with supplemental characterization data was submitted & approved by Department. Risk assessment indicate site is protective of industrial\\commercial scenarios. RP has expressed interest in submitting a RAP with a supplemental risk assessment with data supporting unlimited use of site including residential occupancy, pursuant to Polanco legislation. RP intends to pursue liability immunity pursuant to the Polanco legislation.

Completed Info:

Completed Area Name:	PROJECT WIDE
Completed Sub Area Name:	Not reported
Completed Document Type:	Preliminary Endangerment Assessment Report
Completed Date:	12/18/1992
Comments:	THE DEPARTMENT HAS COMPLETED THE REVIEW OF THE PEA REPORT. THE DEPARTMENT CONCURS WITH THE RECOMMENDATION THAT FURTHER ACTION IS NEEDED AT THE SITE. THE RECOMMENDED FURTHER ACTION IS A HUMAN HEALTH RISK ASSESSMENT BE PERFORMED TO DETERMINE THE HEALTH RISKS FROM CONTAMINANTS IN SITE SOIL AND POSSIBLE VOLATILIZATION FROM GROUNDWATER. IF THE RISK ASSESSMENT INDICATE A SIGNIFICANT RISK TO HUMAN HEALTH FROM ANY OF THE SITE CONTAMINANTS, SOIL AND GROUNDWATER REMEDIATION WILL BE PERFORMED. THE DEPARTMENT CONSIDERS THE PEA AS COMPLETE. THE DEPARTMENT MAILED A DRAFT ENFORCEABLE AGREEMENT TO THE RESPONSIBLE PARTY FOR THE FURTHER REMEDIAL ACTION. A DEED RESTRICTION WAS NEVER FINALIZED. NFA FOR COMMERCIAL/INDUSTRIAL USE ONLY.

KITE SITE (Continued) **S100351177**

Completed Date: 07/14/1992
Comments: THE DEPT RECEIVED A PEA FOR THE SITE. NO DOCUMENTED RELEASE OF HAZ SUBSTANCES AT THE SITE WERE IDENTIFIED. PAST PRACTICES IN HANDLING HAZARDOUS SUBSTANCES AND/OR WASTE AT THE SITE HAVE RESULTED IN RELEASES OF CONTAMINANTS AT THE SITE. A TOTAL OF 28 CONTAMINANTS WERE IDENTIFIED IN SOIL AND GROUNDWATER AT THE SITE. THE PEA WAS SUBMITTED TO DETERMINE WHETHER REMOVAL OF HAZ SUBSTANCES OR REMEDIAL ACTION WOULD BE REQUIRED AT THE SITE IN ORDER TO PROTECT PUBLIC HEALTH AND THE ENVIRONMENT. THE SITE CONSISTS OF APPROXIMATELY 4.5 ACRES. THE SITE IS CONTAMINATED WITH PETROLEUM HYDROCARBONS, VOLATILE ORGANICS AND HEAVY METALS. THE GROUNDWATER IS AT A DEPTH OF 35 FEET. DIFFERENT AREAS OF THE SITE PREVIOUSLY USED FOR RETAIL LIQUOR SHOP, WELDING CO., MANUFACTURING (TOOL & DIE), CRANE SERVICE, WENDING SERVICE WAREHOUSE, MANUFACTURE OF WOOD PRODUCTS, MACHINE SHOP, DIE CASTING INDUSTRY, GRINDING COMPANY, FOOD PROCESS- ING, GREETING CARD COMPANY, WIRE PRODUCTS MFG, LUMBER STORAGE, CABINET MFG, AUTOMOBILE BODY WRECKING, PAINT BOOTH, PACKAGING CO, CLAY PRODUCTS MFG, MACHINE SHOPS AND METAL LABORATORY, PLASTIC MFG AND STORAGE, TOOL STORAGE, MANUFACT_ URE OF INSECTICIDES, WOOD FABRICATION, BOAT CONSTRUCTION, PLUMBING SUPPLY STORAGE, DENTAL OFFICE, TRAVEL AGENCY, BANKS AND A GASOLINE SERVICE STATION. A PEA IS REQUIRED BECAUSE OF THE EVIDENCE OF CONTAMINATION AT THE SITE.

CA Enviroscreen 4 Score:	60-65%
Military DOD Site:	No
Facility Project Subtype:	Not reported
RWQCB Region:	LOS ANGELES RWQCB (REGION 4)
Site History:	The site is occupied by two one-story and one two-story buildings which house different businesses. Honey Baked Ham Company, Winchell s Donut, a flower shop and a hair salon are the businesses occupying the buildings. The former Sunshine Cleaners had operated in a unit in the one-story building from approximately 1968 to 1998 . Site investigations conducted in 1998 for property transaction indicated that the soil and groundwater beneath the site were impacted by volatile organic compounds (VOCs), particularly perchloroethylene (PCE). Additional site investigations have been conducted to further assess the VOC impact and delineate the extent of the soil and groundwater contamination. In February, 2011, an interim remedial action was carried out in the source area for source reduction. The

SUNSHINE CLEANERS (FORMER) (Continued) **S132176101**

remedial action involved excavation and removal of impacted soil in the source area. An estimated volume of 480 cubic yards of impacted soil was excavated and removed from the area. Groundwater monitoring has been conducted at the site since 2003. Site investigations are still underway.

CA BOND EXP. PLAN:

Reponsible Party:	RWQCB REFERRAL SITE
Project Revenue Source Company:	Not reported
Project Revenue Source Addr:	Not reported
Project Revenue Source City,St,Zip:	Not reported
Project Revenue Source Desc:	The responsible party is providing for the remediation of the site under RWQCB lead. The RP will pay all costs associated with the cleanup. There are no current plans for expenditure of Bond funds for the site.
Site Description:	This 454-acre facility has been used from 1953 to the present by Hughes Tool Company, Hughes Aircraft, and Hughes Helicopters to manufacture and test machine and aircraft parts and to research and develop electronics. Located at the facility is an etching laboratory, a plating shop, a salvage yard, several above and below-ground tanks for fuel oil and aviation fuel, waste neutralization pits, solvent and acid sumps, liquid waste clarifier pits, and an unlined fire-training pit.
Hazardous Waste Desc:	Samples from ground water monitoring wells installed by the contractor indicate high levels of trichloroethane (TCE), toluene, ethylbenzene, benzene, vinyl chloride, trans-1,2,-dichloroethylene (DCE), dichloroethane (DCA), xylene isomers, and hydrocarbons (C5 to C8).
Threat To Public Health & Env:	The Ballona/Bellflower Aquifers, which are mixed below the site, are encountered from 15 to 40 feet and are the primary water source for the monitoring wells. The contaminated aquifer is in hydraulic communication with the Silverado Aquifer (50 to 100 feet below the site) and with the unlined storm drain to the south of the site which discharges into Ballona Creek. There is potential for contamination of both surface water and the Silverado Aquifer which is a major drinking water source. Groundwater contamination is suspected but has not been verified to date.
Site Activity Status:	Phases I and II of the preliminary investigation of hydrologic conditions have been completed. Additional studies have also been completed on contaminated soil due to tank leakage at the site. Based on this information, the responsible party is planning follow-up work to determine the vertical and horizontal extent of contamination.

Feature Description:	THE HOWARD HUGHES AIRCRAFT MFG. CORP. SITE WAS MORE COMMONLY KNOWN HUGHES AIRCRAFT COMPANY. THIS FACILITY WAS KNOWN AS THE CULVER CITY PLANT AS THERE WERE OTHER HUGHES PLANTS IN THE LOS ANGELES AREA. HOWARD HUGHES, THROUGH THE HUGHES TOOL COMPANY, ACQUIRED THE 387.05-ACRE SITE IN LATE 1940 OR EARLY 1941, ON WHICH THE CULVER CITY PLANT WAS CONSTRUCTED. THE PLANT WAS USED FOR THE DEVELOPMENT AND MANUFACTURE OF AIRCRAFT, AIRCRAFT COMPONENTS, AND ELECTRONICS. IN LATE 1942, THE DEFENSE PLANT CORPORATION (PLANCOR) ACQUIRED 15.57 ACRES OF THE SITE THROUGH SPECIAL DEED AND ENTERED INTO A CONTRACT IN NOVEMBER 1942 WITH KAISER-HUGHES TO MANUFACTURE LARGE WOODEN CARGO PLANES. TH 15.57-ACRE AREA WAS KNOWN AS PLANCOR NO. 1424, ALSO KAISER-HUGHES TOOL COMPANY. (SHIPBUILDER HENRY KAISER FORMER A CORPORATION WITH THE HUGHES TOOL COMPANY TO CONSTRUCT THREE CARGO PLANES (ALSO REFERRED AS FLYING BOATS) UNDER CONTRACT TO PLANCOR; ONLY ONE WAS BUILT WHICH BECAME KNOWN AS THE SPRUCE GOOSE). PLANCOR 2198 (HUGHES TOOL COMPANY WAS ALSO CREATED TO PROVIDE FOR ALTERATIONS OF BUILDINGS AND ENGINEERING SERVICES IN CONNECTION WITH PLANCOR 1424. PLANCOR 2198 INVOLVED NO GOVERNMENTAL ACQUISITION OF LAND. THESE TWO PLANCOR AGREEMENTS WERE TERMINATED IN THE MID-1940S, AND HUGHES AIRCRAFT COMPANY REACQUIRED BY QUITCLAIM DEED THE 15.57 ACRES AND IMPROVEMENTS IN 1949. PLANCOR WAS NOT ASSOCIATED WITH THE DEPARTMENT OF DEFENSE (DOD). ANOTHER GOVERNMENTAL NON-DOD USE OF THE FACILITY OCCURRED DURING THE KOREAN WAR (1950-1953) WHEN THE NORTH AMERICAN AEROSPACE DEFENSE (NORAD) COMMAND MAINTAINED AN OFFICE ON THE THIRD FLOOR OF BUILDING 15 TO CONDUCT ELECTRONIC SURVEILLANCE. NORAD IS A U.S./CANADIAN DEFENSE ORGANIZATION. IT IS NOT PART OF THE AIR FORCE OR ANY OTHER BRANCH OF DOD.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing
Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

Data Release Frequency: Semi-Annually

UST FINDER: UST Finder Database
EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 05/05/2024
Date Data Arrived at EDR: 05/07/2024

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

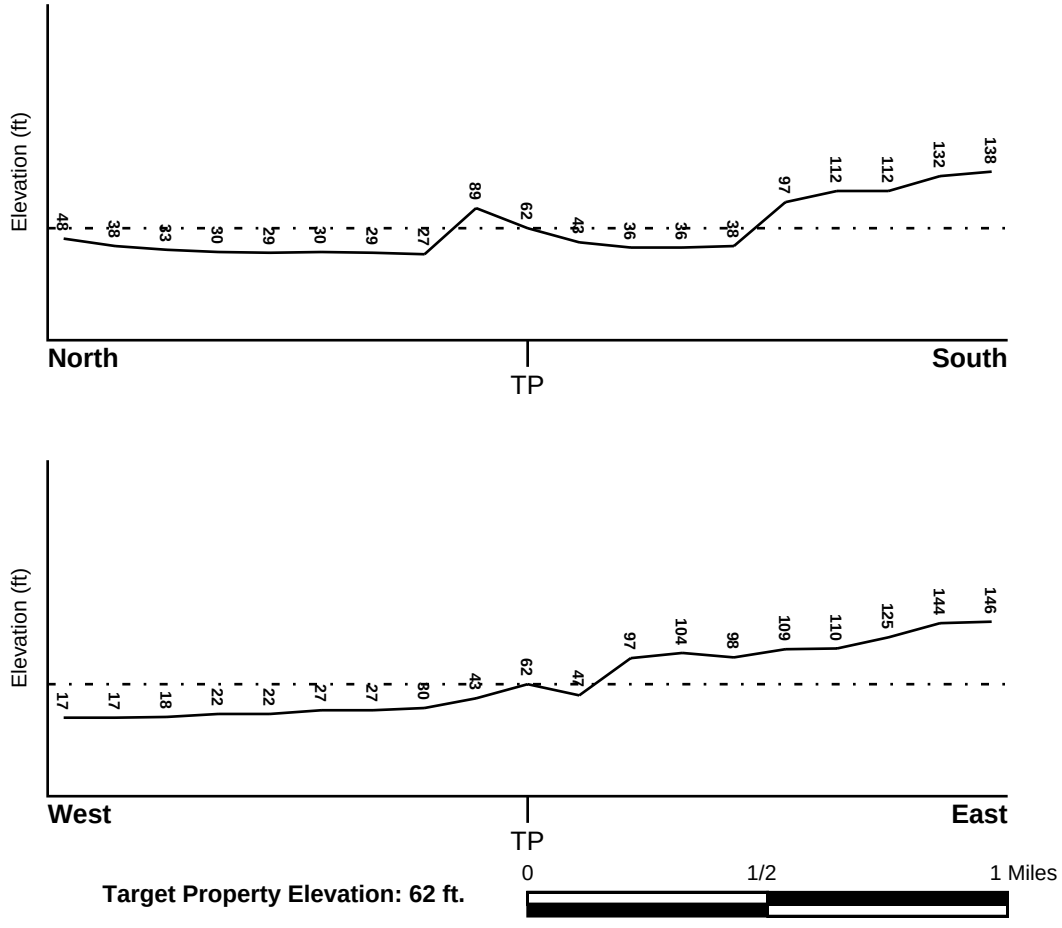
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Target Property Elevation: 62 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06037C1760F	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
06037C1780F	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
VENICE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1/2 - 1 Mile West
Site Name:	HUGHES HELICOPTERS INC
Site EPA ID Number:	CAD040360745
Groundwater Flow Direction:	GENERALLY E IN THE BALLONA AND SILVERADO AQUIFERS.
Measured Depth to Water:	35 to 50 feet in the Ballona aquifer. The inferred depth to groundwater in the Silverado aquifer is from 60 to 90 feet.
Hydraulic Connection:	The Charrock fault on the eastern side of the site restricts the free flow of ground water to the east in the Ballona and Silverado aquifers.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information based on site-specific subsurface investigations is documented in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

* ©1996 Site--specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Surficial Soil Types:
sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Shallow Soil Types:
fine sandy loam
gravelly - loam
sandy clay
sandy clay loam
clay
silty clay
sand

Deeper Soil Types:
gravelly - sandy loam
sandy loam
very gravelly - sandy loam
stratified
very fine sandy loam
weathered bedrock
sand
gravelly - fine sandy loam
silty clay loam
clay loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. **NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, LLC OR ITS SUBSIDIARIES, AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT, INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND (INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA), ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT.** Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

Bakersfield, CA 93305
Contact: Vanessa Radsick

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Advanced Env. Concepts were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # AB5E-4948-8B8E

Project NA

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: AB5E-4948-8B8E

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

Advanced Env. Concepts (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

Culver City, California 90230

Attention Messrs. Tom Connolly
and John Whitson,
Dept. of Building and Safety
Culver City, California

Subject: Bank of America, Culver City

Gentlemen:

The Carrier equipment furnished for referenced job consists of one 40 h.p. open driven compressor unit Model 5H40, and one air cooled condenser Model 09DD044.

This equipment is designed to comply with both national and local building codes. Where a particular local code takes exception to a specific feature of these--or any other Carrier products--it is, and always has been, the policy of Carrier to field modify as is required for local compliance.

Should specific code violations be cited on referenced job, you can be assured that, upon notification, Carrier will rectify.

Very truly yours,

W. J. Kahl

W. J. Kahl
Sales Engineer

TO WHOM IT MAY CONCERN:

Subject: Airfan Gas-fired Multizone Air Handler
Type KE-3

Since 1964, when Airfan Engineering Company started with the production of subject model, many hundreds of these units were installed. A partial list of installations in the Greater Los Angeles Area is attached.

The unit is built in accordance with the Federal and State Codes; the Gas-fired Furnace is AGA certified. The unique design configuration is patented - Patent No. 3,227,150.

1) 53 L.F. OF 5' HIGH REGAL STYLE ORNAMENTAL IRON FENCE WITH 1½" SQ. POSTS, FENCE TO BE PAINTED BLACK – 1-3'x5' HIGH SINGLE SWING GATE w/ HINGES & LATCH

This proposal when accepted by both seller and buyer becomes a contract subject to printed conditions on the reverse side hereof.

Quotations are subject to approval of management and void after 30 days - A-1 Steel Fence Company.

By Timothy P. McKeon
Date 5-20-80

Accepted: _____
By _____
Date _____

Total Price..... $ 715.00

Net on Completion, unless otherwise agreed.

CONDITIONS: –

1. Quotations are subject to approval of management of A-1 Steel Fence Company.

2. Quotations are based on the amount of lineal feet and items set forth on the reverse side hereof including details shown in diagram of job.

3. In the event the buyer orders a cancellation of the contract prior to the time A-1 Steel Fence Company commences the work, then the buyer agrees to pay the sum of 10 per cent of the contract price to defray costs incurred in preparation by A-1 Steel Fence Company.

4. All accounts are payable at the office of A 1 Steel Fence Company. Delinquent accounts shall bear interest at the rate of 1 per cent per month and if the account is assigned to an attorney or collection agency for collection, then and in that event, the buyer agrees to pay reasonable attorney fees, court costs and other collection costs.

5. A-1 Steel Fence Co. is not responsible for property line and will install fence as designated by customer, unless Legal Survey is furnished by buyer or by the Company at additional cost. Before installation is begun, purchaser is to establish property line stakes, fence line stakes, and grade stakes. The fence is to follow the existing ground line unless otherwise specified. The seller assumes that there are no underlying rocks, foundations or other unusual conditions. If filling, trenching and post footing of greater depth or diameter or any other unusual conditions are encountered and if labor other than our installation is required, purchaser agrees to pay for extra expense of same.

6. If fence installer has to make extra trips to erect fence as a result of interference or changes made by purchaser or his agents, a charge is hereby authorized for such extra trips, materials and/or labor. For any changes or alterations not covered by this contract an extra charge will be made. Dirt from holes and other debris of construction are not to be removed by A-1 Steel Fence Company

7. Any change in sketch as to extra footage, height or gate, or any additional material or labor will be charged to owner of property. – All the materials set forth in this contract shall remain sole and exclusive property of A-1 Steel Fence Co. and the buyer shall not receive any title to said material until the entire amount of this contract has been paid in full.

8. A-1 Steel Fence Company shall not be responsible for any delay or inability to perform hereunder due to conditions or causes beyond the control of A-1 Steel Fence Company.

Contractors are required by law to be licensed and regulated by the Contractors' State License Board. Questions concerning the responsibilities of a contractor may be referred to the registrar of the board which address is: Contractors State License Board, 1020 "N" Street, Sacramento, Calif. 95814.

APPROVED

This set of plans and specifications MUST be on job site during construction. It is unlawful to alter or change same, or to deviate therefrom, without approval from the Department of Building and Safety.

The stamping of this plan and specification SHALL NOT be held to permit or to be an approval of the violation of any City Ordinance or State Law.

This approval does not cover ELECTRICAL, PLUMBING, HEATING or REFRIGERATION work. Separate approvals must be obtained from the respective Department.

DEPARTMENT OF BUILDING AND SAFETY

CITY OF DOWNEY

(Section 7019—Contractors License Law)

Under this law, any person who has contracted with a contractor, to improve your property and is not paid for his labor, services or material, has a right to enforce his claim against your property.

Such claims may be satisfied by filing, before commencing work on or within 10 days after completion of the improvement, an original contract or a statement of the terms of a modification thereof, in the office of the county recorder in which the property is situated. In addition, the contractor's payment bond must be recorded in such office. Said bond shall be in an amount not less than fifty percent (50%) of the contract price and shall, in addition to any conditions for the performance of the contract, be conditioned for the payment in full of the claims of all persons furnishing labor, services, equipment or materials for the work described in said contract.

TEMPORARY CERTIFICATE OF OCCUPANCY

We, CENTINELA HOSPITAL, for economic reasons, request a temporary certificate of occupancy for 6201 BRISTOL PARKWAY

We understand that the building and/or project is not complete and, therefore, assume all responsibility for ourselves, our guests, and/or tenant occupants and our property, agreeing to hold the City of Culver City, its officers and employees harmless from any loss or damage resulting directly or indirectly from early occupancy authorized by the granting of this temporary certificate of occupancy.

OWNER'S SIGNATURE: Brian P. Gard (CONTRACTOR)

DATE 11-14, 1986.

Pursuant to Section 306 Uniform Building Code and the agreement above, a temporary Certificate of Occupancy is hereby issued, subject to revocation if the structure is not completed within a reasonable period of time.

NOTICE OF 90 DAY PERIOD FOR PROTEST OF FEES

Section 66020 of the Government Code enacted as Assembly Bill 3081, set forth as Chapter 549, Statutes of the State of CA, 1996 effective Jan. 1, 1997, requires that this school district provide a written notice to the project applicant at the time of payment of school fees, mitigation payments or other exactions. This notice is to advise you that any protest in regard to such amounts or the validity thereof in accordance with Section 66020 of the Government Code and other applicable law, commences with such payment or performance of any other requirement as described in Section 66020 of the Government Code. Additionally, this notice advises that the protest thereof must occur within 90 calendar days thereafter.

The undersigned certifies under penalty of perjury that:

1. The above information is correct and true to the best of my knowledge and that I will file amended certification of payment and pay the additional fee if I request an increase in the square footage after the building permit has been issued or if the initial determination of the square footage is found to be incorrect.
2. I am the developer/owner of the above described project(s) or am authorized to sign on their behalf.

Signature of Developer/Owner/Designee — 760-665-2898 Telephone No. — 7-22-2013 Date

II. **BUILDING DEPARTMENT (Complete)**

I state that to the best of my knowledge and understanding of applicable laws, in regard to the application for a building permit submitted herewith, that the square footage of the proposed project is:

____ Square Footage
Residential Habitable Area

4275 Square Footage
Commercial or Industrial Covered or Enclosed Space

4275 × .47 = $2,009.25

INTER-DEPARTMENTAL CORRESPONDENCE

Date 11/18/86
10:45 A.M.

To: jbc

From: lso

Subject: CERTIFICATE OF OCCUPANCY

The Planning secretaries (ee and lso) have been receiving a number of telephone calls effective this past week regarding certificates of occupancy.

Callers have been specifically asking for you; many times they do not want to speak to another planner.

I checked with Bldg. Division this morning after receiving a telephone call from Best Products (Pete Davis, Richmond, Virginia, 804/261-6301) regarding Certificate of Occupancy for 6221 Bristol Parkway.

Attached is a copy of the first page of the certificate of occupancy letter sent to Best Products. Building does not keep a copy of the second page; however, attached is an example of the second page also sent. Also attached are copies I got from Building regarding the Certificate of Occupancy not being signed off from Planning.

While getting this information, I ran into Richard Miyahira. I informed him that you would be calling him regarding Certificates of Occupancy.

According to Tomi, Building has only started sending out these letters last week.

/lso

Re: Safeway Market Rear Wall Logo

Dear Mr. Friedman:

This is to advise you that following the close of the public hearing on June 5, 1974, the Culver City Architectural Review Board approved the application, plans, and materials submitted in connection therewith dated May 21, 1974, regarding the above-referenced matter. A copy of the official action taken by the Board is attached for your records.

In the event no written appeal to the City Council is filed with the City Clerk in the manner prescribed in Municipal Code Section 2-86.17 prior to 5:00 P.M. on Monday, June 17, 1974, the decision of the Architectural Review Board shall become effective.

In connection with the above, please be advised that this office is not authorized to give a plan check clearance for issuance of any building permit applied for in connection with this matter until passage of the appeal period as specified hereinabove, and/or the effective date of the City Council's decision on this matter in the event of an appeal.

Sincerely,

William Phelps, Director
Division of Planning and Community Development

RESOLUTION NO. ARB-10

A RESOLUTION OF THE ARCHITECTURAL REVIEW BOARD OF THE CITY OF CULVER CITY, CALIFORNIA APPROVING THE PLANS, DESIGNS, AND EXTERNAL FEATURES FOR THE IMPROVEMENTS PROPOSED AS INDICATED ON THE APPLICATION, PLANS, AND MATERIALS SUBMITTED IN CONNECTION THEREWITH DATED MAY 21, 1974, CASE FILE NO. ARB-74-9 FOR THE SAFEWAY MARKET REAR WALL LOGO ON PROPERTY LOCATED AT 6221 BRISTOL PKWY WITHIN THE FOX HILLS PLAZA SHOPPING CENTER IN THE "SHOPPING CENTER" ARCHITECTURAL DESIGN DISTRICT SUBJECT TO ONE CERTAIN CONDITION AS SET FORTH HEREINBELOW.

(File No. ARB-74-9, Safeway Market Rear Wall Logo)

WHEREAS, Culver City Municipal Code Section 2-86.9 requires Architectural Review Board or City Council approval of the plans, designs, and external features of all buildings, structures, signs, or other improvements proposed to be erected, constructed, added, altered, or remodelled in any R-3, R-4, C-1, C-2, C-3, C-3E, M-1, L-M, M-2, S-1, T-1, CC, H, or P-D Zone prior to commencement of such activities and/or prior to issuance of any building permit applied for in connection with such proposed activities; and

WHEREAS, in accordance with the procedures established in said section, at its meeting of June 5, 1974, the Architectural Review Board of the City of Culver City, California, conducted a duly noticed public hearing on the subject matter, during the course of which all persons desiring to be heard were given the opportunity and were so heard; and

WHEREAS, following the close of the public hearing, the Architectural Review Board engaged in a thorough discussion of the subject matter as it relates to the architectural design standards and criteria set forth in Section 2-86.7 of the Municipal Code, also taking into consideration all oral testimony and written and graphic information presented; and

WHEREAS, following the conclusion of said discussion, it appeared to the Architectural Review Board by a unanimous vote (all members being present) that the application, plans, and materials submitted in connection

therewith should be approved subject to one certain condition as set forth hereinbelow.

NOW, THEREFORE, THE ARCHITECTURAL REVIEW BOARD OF THE CITY OF CULVER CITY, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

SECTION 1. That pursuant to the foregoing recitations, the said Architectural Review Board of the City of Culver City, California, makes the following finding:

1. The application, plans, and materials submitted in connection therewith reflect substantial compliance with the architectural design standards and criteria set forth in Section 2-86.7 of the Municipal Code in consideration of which the Architectural Review Board has reviewed this matter.

SECTION 2. That based on the hereinabove recitations and findings, the Architectural Review Board of the City of Culver City, California, hereby approves the plans, designs, and external features for the improvements proposed as indicated on the application, plans, and materials submitted in connection therewith dated May 21, 1974, Case file No. ARB-74-9, for The Safeway Market Rear Wall Logo on property located at 6221 Bristol Pkwy in the Fox Hills Plaza Shopping Center in the "Shopping Center" Architectural Design District subject to the provision that if said graphic is to be illuminated, it be done in like fashion to the existing Front Wall Logo Graphic on this same structure.

APPROVED and ADOPTED this 5th day of June, 1974.

JERROLD CARIS, CHAIRMAN
ARCHITECTURAL REVIEW BOARD
CITY OF CULVER CITY, CALIFORNIA

These Minutes Are Not Official

Until Approved by the Redevelopment Agency

CULVER CITY REDEVELOPMENT AGENCY

MINUTES

December 16, 1985

The regular meeting of the Culver City Redevelopment Agency was called to order at 7:35 P.M. — Call to Order

Mrs. Jody Hall-Esser, Community Development Director, gave the Invocation. — Invocation

Mrs. Cathy Zermeno, Civil Service Commissioner, led the audience in the Pledge of Allegiance. — Pledge of Allegiance

Members Present: — Roll Call
Paul A. Jacobs, Chairman
Paul A. Netzel, Vice Chairman
Richard M. Alexander
Richard R. Brundo
A. Ronald Perkins

-0-

Moved by Mr. Brundo, seconded by Mr. Alexander and unanimously passed to approve the minutes of the December 2, 1985 and December 9, 1985 meetings as submitted. — Approval of Minutes

-0-

Moved by Mr. Alexander, seconded by Mr. Brundo and unanimously passed to receive and file the Treasurer's Report of Cash Disbursements. — Receive & File Report of Cash Disbursements

-0-

Moved by Mr. Netzel, seconded by Mr. Brundo and passed with a 4-1 vote (Mr. Jacobs casting the No vote) that the Agency approve the installation of a wall mounted sign, not to exceed 3' x 26' or 78 s.f. in area, on the north side of the Marshalls Department Store building in the Fox Hills Plaza, per plans file dated November 11, 1985. — Approval of an Additional Sign for Marshalls Department Store

Culver City, CA 902300

To Whom It May Concern:

A roof location has been chosen for this location as there is no other reasonable location on the property that exists to allow the required signal reception of the antenna.

Since this site is located in a strip mall, the only ground location that would be available would either take away required parking, block access to loading docks, or otherwise have less than a clear view to the full satellite arc. This full view is necessary due to the possible future migration of the satellite antenna to other geosynchronous satellites.

Sincerely,

Mark M. Day

RE: 6221-6299 Bristol Parkway
Fox Hills Plaza Shopping Center

As Owner of the above-referenced property, I hereby give my permission to Art Riel of EBCO to pull permits on my behalf. This permission is being given primarily to allow Mr. Riel to pull the necessary permit(s) that will allow him to replace glue-lam beams in the courtyard section of my shopping center. Inspectors Ray Martinez and Michael Courtney have pointed out several sections in need or replacement and Mr. Riel in all probability will be the contractor to perform this work. Thank you for your cooperation.

Sincerely,

Matthew C. Strauss

Application For Sign Permit
(Permanent Signs)

Please complete all applicable sections of this application for approval. Note: sign requirements are in Zoning Code Section 17.330, accessible on the City's website on www.culvercity.org or can be obtained from the Planning counter located on the second floor of City Hall.

Sign Permit Procedure:
1. Fill out application for Sign Permit;
2. Include requested attachments as listed on the bottom of page 2;
3. Pay the applicable Sign Permit fee;
4. When the Sign Permit is approved by the Planning Division you will be called for pick-up; and
5. You will then submit two sets (stamped approved by Planning) to the Building Safety Division for their review and Building Permit issuance (keep in mind Building Safety Division will NOT accept applications without Planning Division's approval first). An application for Building Permit is attached for your convenience.

APPLICANT:
Name: NITE-LITE SIGNS
Address: 21001 SUPERIOR ST.
City and Zip Code: CHATSWORTH, CA. 91311
Phone: 818-341-~~4041~~ 0987 Fax: 818-341-4644

CONTACT PERSON (if different from above):
Name: WARREN O. DUE
Address: ~~SAME AS ABOVE~~
City and Zip Code:
Phone: 818-625-2697 cell Fax:

PROJECT INFORMATION:
Project Address: 6221 BRISTOL PKWY.
How many stories is the subject building? _____ How tall is the subject building? *(In feet)* _____

PROJECT DESCRIPTION: INSTALL ONE 13' x 12' DOUBLE SIDED FREESTANDING POLE SIGN. SIGN IS 20' TO TOP OF SIGN TO GRADE. SIGN TO REPLACE SIGN BLOWN DOWN IN WINDS.

TYPE OF SIGNS (please check all that apply):

__ Canopy	__ Electronic Message	__ Street Address
__ Changeable Copy	X Freestanding	__ Wall
__ Corporate Flag	__ Parapet Wall	__ Window
__ Directional	__ Public Information	__ Other

This application/procedures are for permanent signs only. It does not include Temporary Signs.

PROPOSED SIGNAGE:

No.	Sign Type	Sign Area (Square feet)	Location
1.	FREESTANDING POLE	156	ENTRANCE OFF GREEN VALLEY CIRCLE
2.			
3.			
4.			

Is the sign located on a multi-tenant building? (YES) NO

Is there an existing Multiple Business Sign Program for the subject building? (YES) NO

Is there an existing approved Master Sign Program for the subject building? (YES) NO

Is there existing signage located on the building or property? (YES) NO

If yes, list the information below on the existing sign(s), including any signs to be removed:

EXISTING SIGNAGE:

No.	Sign Type	Sign Area (Square feet)	Location	To Remain?	To be Removed?
1.					
2.	N/A				
3.					
4.					

SUPPLEMENTAL REQUIREMENTS

Three scaled sets of:

1. Color copies of **Elevations**, showing sign materials, the building and exact location of sign(s) (proposed and existing); dimensions, including distance from the top of the sign to the roof-line of the building and bottom of the sign to the top of the window or canopy; distance from vertical & horizontal edges; materials, illumination, color, and finishes; building frontage (in feet); and background area (in square feet), and architectural features. If a flag, freestanding, or monument sign, show maximum height, sign thickness, and sign dimensions.

2. If applicable, **Drawn Sections**.

3. **Site Plan**, which includes property lines, adjacent streets, and exact location of the sign(s).

4. **Photo Simulation** of the proposed signage, if available.

5. Additional information/materials may be required based on type of sign(s)/ circumstances.

OFFICE USE *Date Applied:* 10/21 *Permit Plus Case No.* 0007116 *Reviewed By:* NJT *Approval Date:* 11/29

This application/procedures are for permanent signs only. It does not include Temporary Signs.

Fox Hills Plaza Pole Sign

- (1) Double faced internally illuminated pole sign.
- Sign is illuminated with high output lamps powered by a high output ballast(s)
- Logos applied per customer art
- Pole diameter per engineers specification
- Sign will be constructed from aluminum
- Sign is UL approved
- Color TBD

The stamping of this plan and specification SHALL NOT be held to permit or to be an approval of the violation of any City Ordinance or State Law

This approval does not cover ELECTRICAL, PLUMBING, HEATING or AIR CONDITIONING work. Separate approval must be obtained.

SPECIFICATIONS

1. Sign to be constructed of incombustible materials and approved plexiglas.
2. Structural steel shall conform to ASTM A36.
3. Steel pipe shall conform to ASTM A53, Grade B.
4. Welding shall conform to local codes, performed by certified operators. In the City of Los Angeles, L.A. City certified welders only. Continuous inspection required for all field welding.
5. All connections shall be ½" diameter machine bolts, except as noted on plan.
6. Steel less than ¼" thick shall be galvanized.
7. Underwriter's label required on sign and weight of sign clearly labeled.
8. Contractor shall verify all dimensions and conditions on site.
9. Concrete mix shall yield a 28 day compressive strength of 2,500 psi.
10. Soil is assumed, sandy clay, compacted. Posthole footing design assumes an allowable lateral bearing pressure (passive) of 100 psf.

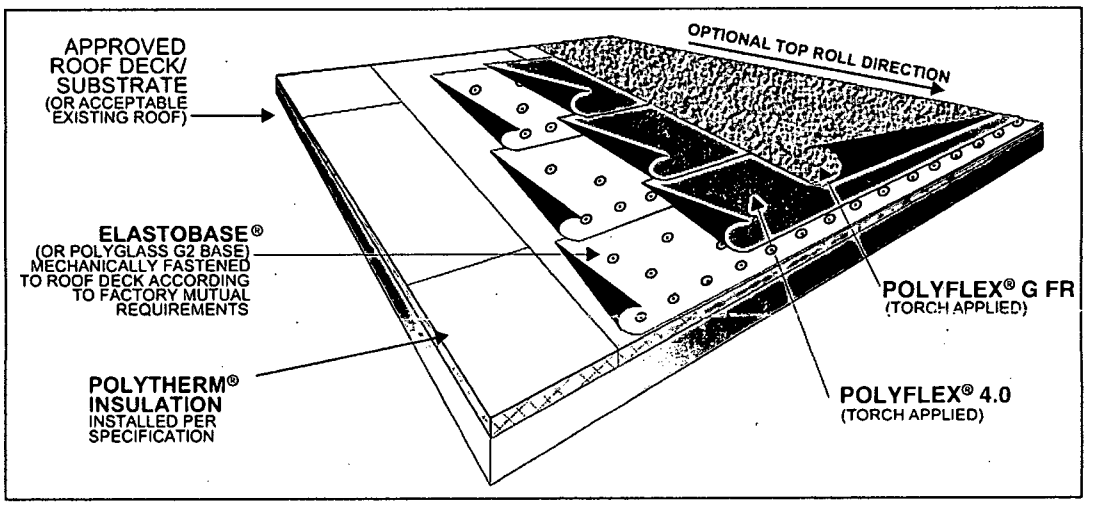
WATERPROOFING MATERIALS AND INSULATING SYSTEMS

POLYGLASS® MAPEI GROUP

Adds value!

300 SERIES SPECIFICATIONS
POLYFLEX® G FR, POLYFLEX® 4, ELASTOBASE®, MECHANICALLY ATTACHED INSULATED - NEW OR REROOFING



ART 1 - DESCRIPTION

Provide all labor, materials, equipment, supervision and incidentals as needed to install a complete POLYGLASS® reinforced modified bituminous roofing system over a new or approved, prepared existing roof substrate. All details of installation shall conform to "POLYGLASS® Specifications, Details and General Recommendations."

QUALITY ASSURANCE

Products used in the work of this Section shall be manufactured by POLYGLASS® or approved for use in conjunction with the products manufactured by POLYGLASS®.

The Roofing Contractor and his personnel shall be currently approved by POLYGLASS® as qualified to install the materials of this section.

Do not apply roofing during inclement weather. Do not apply roofing membrane to damp, frozen dirty, or dusty surfaces.

PART 2 - MATERIALS

BASE SHEET - POLYGLASS® SBS (Styrene-butadiene-styrene) modified bituminous base sheet, reinforced with glass fiber mat, 2 mm thick sanded surface (sand backed), and weighing approximately 80 lbs per 200 square foot roll.
Trade name: ELASTOBASE®

PLY SHEET - POLYGLASS® modified bituminous membrane reinforced with a polyester mat. Top surface of membrane has factory applied granules (available in a variety of colors), except at selvage edges. This material is packaged in a roll providing approximately 100 square feet of finished roof coverage and weighs approximately 105 lbs.
Trade name: POLYFLEX®

ROOFING MEMBRANE - POLYGLASS® modified bituminous membrane reinforced with a polyester mat. Top surface of membrane has factory applied granules (available in a variety of colors), except at selvage edges. This material is packaged in a roll providing approximately 100 square feet of finished roof coverage and weighs approximately 110 lbs.
Trade name: POLYFLEX® G FR

GRANULE FREE END LAP - Rolls are to be supplied with granule free end lap measuring 6" in width.
Tradename: FASTLAP®

INSULATION - POLYTHERM® insulation or as specified and accepted by POLYGLASS® one or more layers. Follow the instructions of the insulation manufacturer regarding storage and installation requirements.

FASTENERS - POLYGRIP - Unless otherwise accepted by POLYGLASS®, fasteners shall be Factory Mutual Approved fasteners and membrane plates. POLYGRIP screws and plates, as supplied by POLYGLASS®.

PRODUCT HANDLING

All materials, except those that are shop fabricated shall be delivered to the job site with their original labels intact. Bulk materials shall be identified by the manufacturer as to specification issued.

All materials shall be stored in accordance with the instructions of the manufacturer prior to their application or installation. No wet or damaged materials will be used in the application. Materials stored on the job site shall be a minimum 4" off the ground or the roof.

Application of all roofing shall be accomplished in such a way that each area will be complete at the end of each days work. All roof edges and incomplete flashing shall be protected against water entry, particularly between work periods.

When ambient temperature is below 40O degree F, care must be exercised in handling and storing POLYGLASS® membrane. Only rolls for immediate application shall be exposed to the elements.

All masonry, concrete and sheet metal surfaces incorporated into the roof system shall be primed with asphalt primer meeting ASTM D 41 specification and allowed to dry prior to installing bituminous roofing materials.

Wood curbs or nailers, where required, shall be pressure treated with approved pressure treatment meeting AWAP Standard P-5.

PART 3 - APPLICATION

PREPARATION

The roof surface which is to receive the POLYGLASS® roofing system shall be smooth, clean, free from loose gravel, dirt and debris, dry and structurally sound.

FOR REROOFING APPLICATIONS

Remove existing roof flashings from curbs and parapet walls down to the surface of the roof. Remove existing flashings at roof drains and roof penetrations.

Remove all wet, deteriorated, blistered or delaminated roofing membrane or insulation and fill in any low spots occurring as a result of removal work to create a smooth even surface for application of new roof membranes.

Existing roof surfaces shall be primed as necessary with asphalt primer meeting ASTM D 41 specification and allowed to dry prior to installing the POLYGLASS® roofing system.

INSTALLATION

Decks: prime where required, in accordance with requirements and recommendations of the primer & deck manufacturer (if applicable).

WHERE A VAPOR RETARDER IS REQUIRED BY THE SPECIFIER:

Follow the instructions with regard to the particular materials specified and install in accordance with the recommendations of the manufacturer and the requirements of the architect.

MEMBRANE

Directly over the prepared deck/surface install one (1) layer of ELASTOBASE®, glass fiber base sheet, with minimum 3" side laps and 6" end laps, without wrinkles or fishmouths.

The base sheet shall be fastened with sufficient FM Approved fasteners, appropriate for the specific deck type. Length to be as recommended for FM required penetration of layers and deck.

Directly over the ELASTOBASE® torch apply one ply of POLYFLEX® 4.0 mm ply sheet. Over the ply-sheet install a cap sheet of POLYFLEX® G FR [the two sheets shall be installed perpendicular to each other wherever practical]. Sheets shall be set with min. 3" side laps and min 6" end laps. Areas of laps where no selvage edge is provided (cut edges, roll ends) shall first have granules heated and embeded. The rolled membrane sheets shall be set and unrolled approximately six feet to align sheets. A propane torch flame shall then be applied to the exposed, outer surface of the roll (the membrane underside) until the surface reaches the proper application temperature (generally 350 to 400 degrees Fahrenheit). The roll is then gradually unrolled to create a continuous heat weld between the membrane and substrate. The remainder of the roll is re-rolled and installed in the same manner. There should be approximately 1/4" to 3/8" bleed out of the melted membrane backing adhesive at the overlaps. The laps shall be top rolled using a six inch wide roller applying pressure over the laps immediately after heat weld is completed.

All overlaps shall be checked and sealed. All laps of the underlying sheet shall be checked prior to installing the cap sheet. At all locations where the lap is not sealed, a trowel shall be used to open the lap, heat is to be applied with the torch into the lap to melt the adhesive (on the back of the top roll) and seal the lap. Any area where a satisfactory re-weld cannot be achieved shall have a piece welded over it, extending min 6" in all directions beyond the unwelded seam.

The rolls of membrane shall be installed perpendicular to the slope of the roof, starting at the lowest point of application, wherever possible. Laps of sheets should be installed so as to shed water with the slope of the roof wherever practical.

At any intersection between different roof slopes, narrow valleys or gutters (less than 3' wide) or similar details, install an additional ply of POLYFLEX® under the cap sheet, extending minimum 3" onto each surface.

FLASHINGS

The flashing shall be installed using POLYGLASS® flashing sheets and min. 6" wide POLYGLASS® stripping sheets. The stripping sheet shall be installed with a minimum of three inches in both the horizontal and vertical surfaces. The flashing sheets shall be installed with a minimum of six inches on the horizontal surface and extend a minimum of eight inches above the finished roof surface.

The flashing sheets shall be installed by the same heat weld method used for the roof membranes. The top edge of the flashing sheet shall be secured using a termination bar (only when the wall surface above is waterproofed), or nailed 4" on center and covered with an approved counter flashing.

Items related to reroofing operations such as sheet metal gravel stops, roof vents, and similar items shall be incorporated into the new roof system in accordance with the recommendations described in the current issue of the POLYGLASS® "SPECIFICATION S AND DETAILS" manual.

IMPORTANT NOTE: Never use torch or apply torched materials to areas of combustible materials. Any combustible materials must first be overlaid with a protective barrier or alternatively remove such materials from the location. Use common sense in the application of torches.
ALWAYS keep a suitable, prepared, fire extinguisher available at each area where torching occurs.

STATE OF CALIFORNIA
ALTERATIONS - HVAC
CEC-CF1R-ALT-03-E (Revised 03/15)

CALIFORNIA ENERGY COMMISSION

CERTIFICATE OF COMPLIANCE	CF1R-ALT-03-E
Alterations - HVAC CZ 1, 3 to 7 and 16 (formerly CF-1R-ALT-HVAC)	(Page 1 of 1)

Site Address: 6221 Bristol Pkwy				Enforcement Agency:	Date Prepared: 4/12/16	Permit#:
Equipment Type		Equipment Efficiency		New: Ducting, *Plenums, Lineset* Required R-value	Conditioned Floor Area (sq ft)	Thermostat
☑ Packaged System ☐ Split System ☐ Furnace	☐ Evaporator Coil ☐ Condensing Unit ☐ Lineset	_____AFUE _____SEER 12.2 EER	_____COP _____HSPF	☐ R-6 *(CZ 1,3-7)* Ducts ☐ R-8[1] *(CZ 16)* Ducts ☐ R-6 *(all CZ's)* Plenums ☐ R-5 or R7.5 Lineset[3]	Served by system 3000 sq ft	☐ Setback *(If not already present, must be installed)*

HERS VERIFICATION SUMMARY Installer determines work to be completed and matches to one of the options below. At permit application this form is allowed to be filled out by hand. For final inspection all forms are to be registered (no hand filled forms allowed) and a copy left on site.

☐ 1. HVAC Changeout/Repair Can include new ducting	Required Compliance Documents to be left on site for Final:
All Equipment, Condenser Unit, Evaporator Coil, Air Handler/Furnace	CF1R-ALT-02-E CF2R: MECH-01, MECH-20-HERS CF3R: MECH-20-HERS

Installer Requirement: Duct leakage (≤ 15% or, ≤ 10% to outside, or seal all accessible leaks)
Exempted from duct leakage testing if:
☐ 1. Duct system registered with HERS provider as previously sealed, or ☐ 2. There is less than 40 linear feet of duct in unconditioned space, or ☐ 3. Existing duct systems are constructed, insulated or sealed with asbestos (list manufacture date of building _____)

☐ 2. New HVAC System	Required Compliance Documents to be left on site for Final:
All new equipment and All New Ducts[2]	CF1R-ALT-02-E CF2R-MECH-01, MECH-20-HERS, MECH-22-HERS, MECH-(23 or 24)-HERS CF3R-MECH-20-HERS, MECH-22-HERS, MECH-(23 or 24)-HERS[2]

Installer Requirement: Duct leakage ≤ 6%, Fan Efficacy (.58W/CFM), Air Flow ≥ 350 CFM/ton (or Standards Table 150.0-C / D alternative)

☐ 3. All New Ducts with Replacement	Required Compliance Documents to be left on site for Final:
Includes replacing or installing All New Ducts[2] and one or more of the following: Condenser Unit, Evaporator Coil, Furnace	CF1R-ALT-02-E CF2R-MECH-01, MECH-20-HERS, MECH-(23 or 24)-HERS CF3R-MECH-20-HERS, MECH-(23 or 24)-HERS

Installer Requirement: Duct leakage ≤ 6%, Air Flow ≥ 350 CFM/ton (or Standards Table 150.0-C / D alternative)
☐ Exempted from duct leakage testing I existing duct systems are constructed, insulated or sealed with asbestos.

☐ 4. New Ducting over 40 feet	Required Compliance Documents to be left on site for Final:
Adding or replacing ducts in unconditioned space but less than All New Ducts[2]	CF1R-ALT-02-E CF2R: MECH-20-HERS CF3R: MECH-20-HERS

Installer Required to: Duct leakage (≤ 15% or, ≤ 10% to outside, or seal all accessible leaks)
☐ Exempted from duct leakage testing I existing duct systems are constructed, insulated or sealed with asbestos.

[1] All **new** ducting R-8 required when more than 40 ft installed and R-6 when less than 40 ft installed. This includes in walls, between floors etc.
[2] A New Duct system is when the duct system is constructed of at least 75 percent new duct material, and up to 25 percent may consist of reused parts from the dwelling unit's existing duct system (e.g., registers, grilles, boots, air handler, plenums, duct material.
[3] R-5 (1" thick insulation) for linesets 1" and less. R-7.5 (1.5" thick insulation) for linesets over 1 inch. Most mfg will require Suction line Diameter with insulation as the following 1.5-2T-2⅛", 2.5-3T-2¼", 3.5 to 4T-2⅛", 5T-4⅛"

Contractor (Documentation Author's /Responsible Designer's Declaration Statement)

I certify the following under penalty of perjury, under the laws of the State of California:
1. The information provided on this Certificate of Compliance is true and correct.
2. I am eligible under Division 3 of the California Business and Professions Code to accept responsibility for the information on this document.
3. That the energy features and performance specifications for the design identified on this Certificate of Compliance conform to the requirements of Title 24, Parts 1 and 6 of the California Code of Regulations (CCR).
4. That the energy features and performance specifications, materials, components, and manufactured devices for the building design or system design identified on this Certificate of Compliance conform to the requirements of Title 24, Part 1 and Part 6 of the CCR.
5. The building design features or system design features identified on this Certificate of Compliance are consistent with the information provided on other applicable compliance documents, worksheets, calculations, plans and specifications submitted to the enforcement agency for approval with this building permit application.
