REQUEST FOR PROPOSAL (RFP)

Due September 27, 2006 at 2:00PM

For City Wide Elevator Maintenance

City of CULVER CITY

PROPSAL REQUIREMENT & FORMAT

Company Profile

AMTECH Elevator has been servicing the greater Southern California region since 1964, providing vertical transportation services, modernizations and installation for commercial office buildings, hospitals, real estate space, residential properties, hotels and public facilities.

Since 2003 AMTECH is wholly owned by OTIS Elevator Company, a subsidiary of United Technologies Corporation. This affiliation provides extensive resources and support within the elevator and escalator industry, regardless of size and capital requirements.

Qualifications

Los Angeles County is serviced by three Branch offices located in Los Angeles, Downey and Anaheim. Each office maintains a staff of (35+) technicians with service vehicles; (3 to 4) direct Supervisors (all technicians and supervisors are licensed and union); and a support staff of (12-15) involved in parts, logistics, dispatch, sales and administrative personnel.

The combined staff for the Los Angeles market exceeds 100 field technicians/service vehicles, of which an assigned rotating "on call" staff of 15-20 technicians are available for after hours and weekend service calls. The three (3) Los Angeles Branches maintain a combined total of 12,000 plus units.

Scope of Services

AMTECH offers monthly preventive maintenance agreements and various full maintenance agreements for hydraulic and traction elevators, escalators, people movers, dumb waiters, cargo lifts, and wheel chair lifts. Also, upgrades of all levels including complete modernizations and new construction installations.

North American Elevator Services

is a national service provider operating in major metropolitan areas under familiar local names. In Southern California, you know as **Amtech Elevator Services Company**. We've been part of the greater Southern California region since 1964, providing vertical transportation services, modernizations and installations for commercial office buildings, hospitals, real estate space, residential properties and hotels.

Our affiliation with Otis Elevator Company, a subsidiary of United Technologies Corporation, provides us with extensive resources. But resources are no substitute for outstanding customer service at the local level, our greatest source of pride. We provide quick, comprehensive, flexible and affordable service to every customer, no matter how large or small. The better you know us, the more you will understand why **Amtech** enjoys a sterling reputation with customers and competitors.

NORTHWEST ELEVATOR > UNITED ELEVATOR > VERTICAL TRANSPORTATION SERVICES

MAINTENANCE

While some companies offer only rigid maintenance options, Amtech is flexible. We meet your unique needs with a customized contract written locally.

Amtech maintains all elevators, regardless of manufacturer. Our mechanics follow Standard Work procedures, which means that every mechanic performs every task in the same proven way. No shortcuts, no compromises. We have a multimillion dollar inventory with over 100,000 parts available for overnight delivery anywhere we do business.

Our mechanics carry communications devices that allow us to communicate with each other or with field technical engineers wherever they happen to be. Amtech also has 24/7 access to remote on-line experts on all types of elevators, ready to assist any mechanic who encounters an unfamiliar product or problem.

MODERNIZATION

New technology, electronics and materials can make older elevators of any make or model perform and look better. We install non-proprietary equipment that can be maintained by any company, not only Amtech. When Amtech undertakes a project, we visit weekly with our customer to make sure we are exceeding expectations.

CONSTRUCTION

With more than 30 years of experience, Amtech has installed elevators and escalators of all sorts in every type of building imaginable. Experienced crews complete installations on schedule, verifying quality of work and adherence to contract requirements.

SAFETY

The safety of passengers and mechanics is the highest priority at Amtech. Elevator maintenance involves electricity, heavy equipment and heights, so it is inherently hazardous. Decades of experience have taught us to work safely in all circumstances, and industry statistics verify that Amtech has the best safety program in the industry. Standard Work procedures emphasize safety in every procedure, from setup to cleanup.

CUSTOMER SATISFACTION

Consistent performance is the greatest strength any company can bring to a customer. At Amtech, we recognize that customers expect us to do what we say we are going to do, when we say we are going to do it. To meet that expectation, we train our mechanics and equip them with the tools and diagnostic devices they need. Supervisors audit completed work and verify progress and quality. Amtech solicits feedback from our customers to assess how well we are meeting expectations, and where we could improve.
