PATRIOT ENVIRONMENTAL LABORATORY SERVICES, INC. (Continued) **S123533068**

Violation Description:	Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.
Violation Notes:	Returned to compliance on 12/15/2023. OBSERVATION: Uniform Hazardous Waste Manifests for 1x 30 gallon drum of solid waste (lead /asbestos sampling) and 1x 55 gallon drum of liquid corrosive waste were not available at the time of inspection. CORRECTIVE ACTION: Locate a copy of all manifests for solid waste (lead /asbestos sampling) and liquid corrosive waste and submit copies to the CUPA.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS,
Site ID:	55728
Site Name:	Patriot Environmental LAboratory Services, Inc.
Violation Date:	05-31-2017
Citation:	22 CCR 23 66273.40(a)(3) - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.40(a)(3)
Violation Description:	Failure of the universal waste handler who sends electronic devices, CRTs, and/or CRT glass to any foreign destination to complete the following: (1) Notify the Department 60 days prior to the intended export before any electronic devices, CRTs, and/or CRT glass are scheduled to leave the United States and cover all export activities extending over the next twelve (12) month or lesser period; (2) Concurrently send a copy of the notification required pursuant to subsection of this section, to the CUPA having jurisdiction over the universal waste handler s facility.
Violation Notes:	Returned to compliance on 06/14/2017. OBSERVATION: Copies of hazardous waste disposal records for 2017 were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the CUPA by [date, 30 days from now].
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS,
Site ID:	55728
Site Name:	Patriot Environmental LAboratory Services, Inc.
Violation Date:	11-22-2023
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 12/15/2023. OBSERVATION: 1x 30 gallon drum of solid waste (lead /asbestos sampling) located in the hazardous waste storage area was observed without a hazardous waste label. CORRECTIVE ACTION: Submit a photo to the CUPA demonstrating that the container listed above has been properly labeled.
Violation Division:	Los Angeles County Fire Department

Violation Program: HW
Violation Source: CERS,

Site ID: 55728
Site Name: Patriot Environmental LAboratory Services, Inc.
Violation Date: 05-31-2017
Citation: HSC 6.5 25244.19 - California Health and Safety Code, Chapter 6.5, Section(s) 25244.19
Violation Description: Failure of a generator to conduct, when required, a source reduction evaluation review and plan every four years, and/or failure of the review and plan to contain all required information.
Violation Notes: Returned to compliance on 06/14/2017. OBSERVATION: 1-55 G DM; 2-1 acid waste in HW storage room and lead testing lab unlabeled and 2-55 G DM with hazardous waste labels missing the accumulation start dates. All hazardous waste containers shall be marked with the following information: 1) the words Hazardous Waste ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. CORRECTIVE ACTION: Immediately label these containers and ensure that all hazardous waste containers are marked with all the required information. Note: Hazardous waste containers were labeled at the end of the inspection.

Hazardous Waste Summary:

Waste Code:	F037
Waste Description:	Petroleum Refinery Primary Oil/Water/Solids Separation Sludge - Any Sludge Generated From The Gravitational Separation Of Oil/Water/Solids During The Storage Or Treatment Of Process Wastewaters And Oily Cooling Wastewaters From Petroleum Refineries. Such Sludges Include, But Are Not Limited To, Those Generated In Oil/Water/Solids Separators; Tanks And Impoundments; Ditches And Other Conveyances; Sumps; And Storm Water Units Receiving Dry Weather Flow. Sludges Generated In Storm Water Units That Do Not Receive Dry Weather Flow, Sludges Generated In Aggressive Biological Treatment Units As Defined In Section 261.31(B)(2) (Including Sludges Generated In One Or More Additional Units After Wastewaters Have Been Treated In Aggressive Biological Treatment Units), And K051 Wastes Are Exempted From This Listing.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

HOLY CROSS CEMETERY (Continued) **S113117845**

Violation Description:	Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Date:	04-05-2019
Citation:	23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)
Violation Description:	For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Environmental Interest/Information System:

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The Resource Conservation and Recovery Act Information System

MODERN HEALTH LABORATORIES (Continued) **1019899241**

(RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Completed Info:
Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Standard Voluntary Agreement
Completed Date: 10/06/1993
Comments: THE DEPARTMENT ENTERS INTO A VOLUNTARY REMEDIATION AGREEMENT WITH THE CULVER CITY COUNTY REDEVELOPMENT AGENCY.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: No Further Action Letter
Completed Date: 04/04/1997
Comments: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 12/18/1992
Comments: THE DEPARTMENT HAS COMPLETED THE REVIEW OF THE PEA REPORT. THE DEPARTMENT CONCURS WITH THE RECOMMENDATION THAT FURTHER ACTION IS NEEDED AT THE SITE. THE RECOMMENDED FURTHER ACTION IS A HUMAN HEALTH RISK ASSESSMENT BE PERFORMED TO DETERMINE THE HEALTH RISKS FROM CONTAMINANTS IN SITE SOIL AND POSSIBLE VOLATILIZATION FROM GROUNDWATER. IF THE RISK ASSESSMENT INDICATE A SIGNIFICANT RISK TO HUMAN HEALTH FROM ANY OF THE SITE CONTAMINANTS, SOIL AND GROUNDWATER REMEDIATION WILL BE PERFORMED. THE DEPARTMENT CONSIDERS THE PEA AS COMPLETE. THE DEPARTMENT MAILED A DRAFT ENFORCEABLE AGREEMENT TO THE RESPONSIBLE PARTY FOR THE FURTHER REMEDIAL ACTION. A DEED RESTRICTION WAS NEVER FINALIZED. NFA FOR COMMERCIAL/INDUSTRIAL USE ONLY.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 07/14/1992
Comments: THE DEPT RECEIVED A PEA FOR THE SITE. NO DOCUMENTED RELEASE OF HAZ SUBSTANCES AT THE SITE WERE IDENTIFIED. PAST PRACTICES IN HANDLING HAZARDOUS SUBSTANCES AND/OR WASTE AT THE SITE HAVE RESULTED IN RELEASES OF CONTAMINANTS AT THE SITE. A TOTAL OF 28 CONTAMINANTS WERE IDENTIFIED IN SOIL AND GROUNDWATER AT THE SITE. THE PEA WAS SUBMITTED TO DETERMINE WHETHER REMOVAL OF HAZ SUBSTANCES OR REMEDIAL ACTION WOULD BE REQUIRED AT THE SITE IN ORDER TO PROTECT PUBLIC HEALTH AND THE ENVIRONMENT. THE SITE CONSISTS OF APPROXIMATELY 4.5 ACRES. THE SITE IS CONTAMINATED WITH PETROLEUM HYDROCARBONS, VOLATILE ORGANICS AND HEAVY METALS. THE GROUNDWATER IS AT A DEPTH OF 35 FEET. DIFFERENT AREAS OF THE SITE PREVIOUSLY USED FOR RETAIL LIQUOR SHOP, WELDING CO., MANUFACTURING (TOOL & DIE), CRANE SERVICE, WENDING SERVICE WAREHOUSE, MANUFACTURE OF WOOD PRODUCTS, MACHINE SHOP, DIE CASTING INDUSTRY, GRINDING COMPANY, FOOD PROCESS- ING, GREETING CARD COMPANY, WIRE PRODUCTS MFG, LUMBER STORAGE, CABINET MFG, AUTOMOBILE BODY WRECKING, PAINT BOOTH, PACKAGING CO, CLAY PRODUCTS MFG, MACHINE SHOPS AND METAL LABORATORY, PLASTIC MFG AND STORAGE, TOOL STORAGE, MANUFACT_ URE OF INSECTICIDES, WOOD FABRICATION, BOAT CONSTRUCTION, PLUMBING SUPPLY STORAGE, DENTAL OFFICE, TRAVEL AGENCY, BANKS AND A GASOLINE SERVICE STATION. A PEA IS REQUIRED BECAUSE OF THE EVIDENCE OF CONTAMINATION AT THE SITE.

Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 12/18/1992
Comments: THE DEPARTMENT HAS COMPLETED THE REVIEW OF THE PEA REPORT. THE DEPARTMENT CONCURS WITH THE RECOMMENDATION THAT FURTHER ACTION IS NEEDED AT THE SITE. THE RECOMMENDED FURTHER ACTION IS A HUMAN HEALTH RISK ASSESSMENT BE PERFORMED TO DETERMINE THE HEALTH RISKS FROM CONTAMINANTS IN SITE SOIL AND POSSIBLE VOLATILIZATION FROM GROUNDWATER. IF THE RISK ASSESSMENT INDICATE A SIGNIFICANT RISK TO HUMAN HEALTH FROM ANY OF THE SITE CONTAMINANTS, SOIL AND GROUNDWATER REMEDIATION WILL BE PERFORMED. THE DEPARTMENT CONSIDERS THE PEA AS COMPLETE. THE DEPARTMENT MAILED A DRAFT ENFORCEABLE AGREEMENT TO THE RESPONSIBLE PARTY FOR THE FURTHER REMEDIAL ACTION. A DEED RESTRICTION WAS NEVER FINALIZED. NFA FOR COMMERCIAL/INDUSTRIAL USE ONLY.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Screening
Completed Date: 07/14/1992
Comments: THE DEPT RECEIVED A PEA FOR THE SITE. NO DOCUMENTED RELEASE OF HAZ SUBSTANCES AT THE SITE WERE IDENTIFIED. PAST PRACTICES IN HANDLING HAZARDOUS SUBSTANCES AND/OR WASTE AT THE SITE HAVE RESULTED IN RELEASES OF CONTAMINANTS AT THE SITE. A TOTAL OF 28 CONTAMINANTS WERE IDENTIFIED IN SOIL AND GROUNDWATER AT THE SITE. THE PEA WAS SUBMITTED TO DETERMINE WHETHER REMOVAL OF HAZ SUBSTANCES OR REMEDIAL ACTION WOULD BE REQUIRED AT THE SITE IN ORDER TO PROTECT PUBLIC HEALTH AND THE ENVIRONMENT. THE SITE CONSISTS OF APPROXIMATELY 4.5 ACRES. THE SITE IS CONTAMINATED WITH PETROLEUM HYDROCARBONS, VOLATILE ORGANICS AND HEAVY METALS. THE GROUNDWATER IS AT A DEPTH OF 35 FEET. DIFFERENT AREAS OF THE SITE PREVIOUSLY USED FOR RETAIL LIQUOR SHOP, WELDING CO., MANUFACTURING (TOOL & DIE), CRANE SERVICE, WENDING SERVICE WAREHOUSE, MANUFACTURE OF WOOD PRODUCTS, MACHINE SHOP, DIE CASTING INDUSTRY, GRINDING COMPANY, FOOD PROCESS- ING, GREETING CARD COMPANY, WIRE PRODUCTS MFG, LUMBER STORAGE, CABINET MFG, AUTOMOBILE BODY WRECKING, PAINT BOOTH, PACKAGING CO, CLAY PRODUCTS MFG, MACHINE SHOPS AND METAL LABORATORY, PLASTIC MFG AND STORAGE, TOOL STORAGE, MANUFACT_ URE OF INSECTICIDES, WOOD FABRICATION, BOAT CONSTRUCTION, PLUMBING SUPPLY STORAGE, DENTAL OFFICE, TRAVEL AGENCY, BANKS AND A GASOLINE SERVICE STATION. A PEA IS REQUIRED BECAUSE OF THE EVIDENCE OF CONTAMINATION AT THE SITE.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Risk Assessment Report
Completed Date: 04/21/1994
Comments: Risk Assessment with supplemental characterization data was submitted & approved by Department. Risk assessment indicate site is protective of industrial\\commercial scenarios. RP has expressed interest in submitting a RAP with a supplemental risk assessment with data supporting unlimited use of site including residential occupancy, pursuant to Polanco legislation. RP intends to pursue liability immunity pursuant to the Polanco legislation.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/19/2024
Date Data Arrived at EDR: 01/02/2025
Date Made Active in Reports: 01/21/2025
Number of Days to Update: 19

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/19/2024

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/19/2024

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/20/2024

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/16/2024

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS WQP: Ambient Environmental Sampling for PFAS

The Water Quality Portal (WQP) is a part of a modernized repository storing ambient sampling data for all environmental media and tissue samples. A wide range of federal, state, tribal and local governments, academic and non-governmental organizations and individuals submit project details and sampling results to this public repository. The information is commonly used for research and assessments of environmental quality.

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region’s active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR’s researchers. Manufactured gas sites were used in the United States from the 1800’s to 1950’s to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Next Scheduled EDR Contact: 05/05/2025
Data Release Frequency: Varies

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 11/04/2024
Date Data Arrived at EDR: 11/05/2024
Date Made Active in Reports: 01/27/2025

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

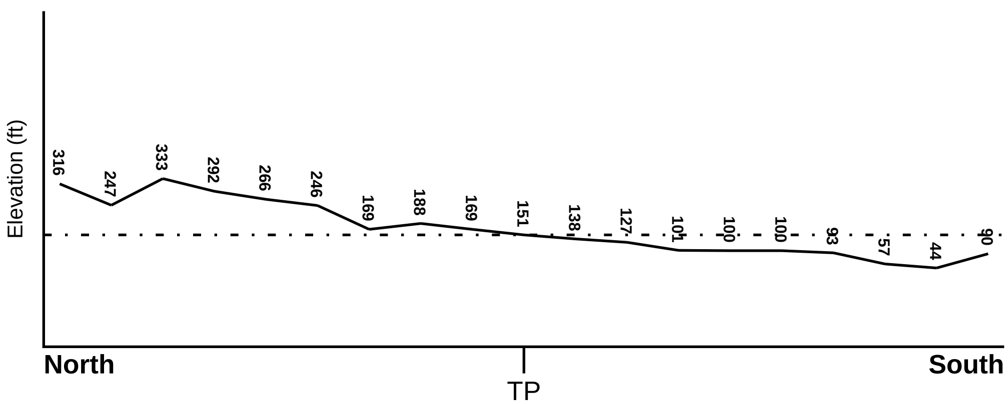
TOPOGRAPHIC INFORMATION

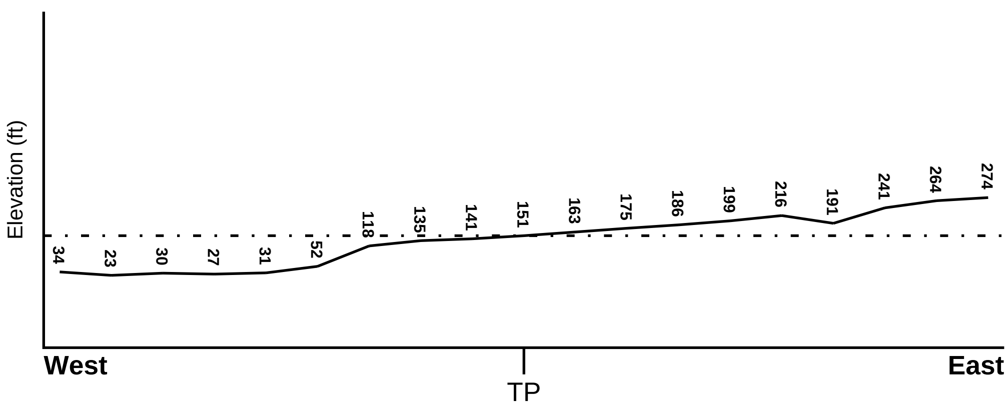
Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES





Target Property Elevation: 151 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06037C1760F	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
06037C1595F	FEMA FIRM Flood data

06037C1780F	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
VENICE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1 - 2 Miles WSW
Site Name:	HUGHES HELICOPTERS INC
Site EPA ID Number:	CAD040360745
Groundwater Flow Direction:	GENERALLY E IN THE BALLONA AND SILVERADO AQUIFERS.
Measured Depth to Water:	35 to 50 feet in the Ballona aquifer. The inferred depth to groundwater in the Silverado aquifer is from 60 to 90 feet.
Hydraulic Connection:	The Charrock fault on the eastern side of the site restricts the free flow of ground water to the east in the Ballona and Silverado aquifers.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information based on site-specific subsurface investigations is documented in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Tertiary
Series:	Eocene
Code:	Te *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture’s (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: URBAN LAND

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 10 inches

Depth to Bedrock Max: > 10 inches

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Surficial Soil Types: sandy loam
gravelly - sandy loam
silt loam
clay
fine sand
gravelly - sand
sand
fine sandy loam

Shallow Soil Types: fine sandy loam
gravelly - loam
sandy clay
sandy clay loam
clay
silty clay
sand

Deeper Soil Types: gravelly - sandy loam
sandy loam
very gravelly - sandy loam
stratified
very fine sandy loam
weathered bedrock
sand
gravelly - fine sandy loam
silty clay loam
clay loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5’ Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5’ Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW[R] Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture’s (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

BUSINESS PLAN ANNUAL RENEWAL CERTIFICATION

Hazardous Materials Inventory Statement (HMIS)

I certify that the attached HMIS reflects the handling of hazardous materials for the reporting year in accordance with the following conditions:

- ☐ **Delete:** Write "delete" on the HMIS next to any previously disclosed hazardous materials that are no longer used.
- ☐ **Revise:** Write the correct amounts, locations, or container type on the HMIS to reflect the accuracy of any previously reported hazardous materials.
- ☐ **EPCRA Compliance:** Fill in the EPCRA field with your signature on the HMIS for any hazardous material type and quantity identified on 40 CFR Part 355, Appendix A—The List of Extremely Hazardous Substances and Their Threshold Planning Quantities.
- ☐ **Add:** Complete one **Hazardous Materials Inventory—Chemical Description Form** to add each hazardous materials that you have not previously disclosed. Submit one form per chemical.
- ☐ **No Change:** The HMIS is accurate and complete.

Consolidated Contingency Plan (CCP)

I review the CCP every three years and certify that the CCP on file with your agency is accurate and current in accordance with the following conditions:

- ☐ **Modification:** Significant changes in facility personnel or operations required a revision of the CCP. Complete and submit changes of your CCP with this form.
- ☐ **Lost:** Complete and submit any parts of your CCP that were lost or damaged.
- ☐ **No Change:** There have not been any significant changes in the facility's personnel and operations that require a revision to the current CCP.

Cal-ARP Program

I reviewed the threshold quantities in Section 2770.5 of Title 19 of the California Code of Regulations and certify that any regulated substance on the attached HMIS accords with the following registration requirement:

- ☐ **Add:** Complete the **Cal-ARP Program Regulated Substance Registration** form only if the regulated substance is at or above the threshold quantity (TQ). Submit one form per chemical.
- ☐ **No Change:** The previously submitted registration for regulated substance(s) is accurate.

ANNUAL CERTIFICATION

I certify that the information submitted herein is complete and accurate. Also, no hazardous materials subject to the inventory requirements of Chapter 6.95 of the Health and Safety Code are being handled that are not listed on the most recently submitted annual inventory form.

The Consolidated Contingency Plan provides businesses a format to comply with the emergency planning requirements of the following three written hazardous materials emergency response plans required in California:

- Hazardous Materials Business Plan (HSC Chapter 6.95 Section 25504 (b) and 19 CCR Sections 2729-2732),
- Hazardous Waste Generator Contingency Plan (22 CCR Section 66264.52), and,
- Underground Storage Tank Emergency Response Plan and Monitoring Program (23 CCR Sections 2632 and 2641).

This format is designed to reduce duplication in the preparation and use of emergency response plans at the same facility, and to improve the coordination between facility response personnel and local, state and federal emergency responders during an emergency. Use the chart below to determine which sections of the Consolidated Contingency Plan need to be completed for your facility. If you are unsure as to which programs your facility is subject to, refer to the Business Activities Page.

PROGRAMS	SECTION(S) TO BE COMPLETED
Hazardous Materials Business Plan (HMBP)	Cover Page, Section I, and Site Map(s)
Hazardous Waste Generator (HWG)	Cover Page, Section I, and Site Map(s)
Underground Storage Tank (UST)	Cover Page, Sections I and II, and Site Map(s)
HMBP, HWG, UST	Cover Page, Sections I and II, and Site Map(s)

A copy of the plan shall be submitted to your local CUPA and at least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency. Describe below where a copy of your Contingency Plan, including the hazardous material inventories and Site Map(s), is located at your business:

A copy of the Contingency Plan is kept on file in the company office

PLAN CERTIFICATION

I certify under penalty of law that I have personally examined and I am familiar with the information provided by this plan and to the best of my knowledge the information is accurate, complete, and true.

[redacted]

Title of Owner/Operator	Regional Compliance Manager
Date	18-Feb-09

We appreciate the effort of local businesses in completing these plans and will assist in every possible way. If you have any questions, please contact your local CUPA or PA.

III. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. Notifications

Your business is required by State Law to provide an immediate verbal report of any release or threatened release of a hazardous material to local fire emergency response personnel, this Unified Program Agency (CUPA or PA), and the Office of Emergency Services. If you have a release or threatened release of hazardous materials, immediately call:

FIRE/PARAMEDICS/POLICE/SHERIFF
PHONE: 911

AFTER the local emergency response personnel are notified, you shall then notify this Unified Program Agency and the Office of Emergency Services.
Local Unified Program Agency: [redacted]
State Office of Emergency Service:
National Response Center:

Information to be provided during Notification:

- Your Name and the Telephone Number from where you are calling.
- Exact address of the release or threatened release.
- Date, time, cause, and type of incident (e.g. fire, air release, spill etc.)
- Material and quantity of the release, to the extent known.
- Current condition of the facility.
- Extent of injuries, if any.
- Possible hazards to public health and/ or the environment outside of the facility.

B. Emergency Medical Facility

List the local emergency medical facility that will be used by your business in the event of an accident or injury caused by a release or threatened release of hazardous material.

HOSPITAL/CLINIC: White Memorial Medical Center	[redacted]
ADDRESS: 1720 Cesar E. Chavez Ave

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

C. Private Emergency Response

DOES YOUR BUSINESS HAVE A PRIVATE ON-SITE EMERGENCY RESPONSE TEAM? ☐ Yes ☒ No

If yes, provide an attachment that describes what policies and procedures your business will follow to notify your on-site emergency response team in the event of a release or threatened release of hazardous materials.

CLEANUP/DISPOSAL CONTRACTOR

List the contractor that will provide cleanup services in the event of a release.

NAME OF CONTRACTOR: TBD from first available "Approved Vendor"	PHONE NO: - -
ADDRESS:	
CITY:	ZIP CODE:

D. Arrangements with Emergency Responders

If you have made special (i.e. contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements on the lines below:

E. Evacuation Plan

1. The following alarm signal(s) will be used to begin evacuation of the facility *(check all which apply)*:

☒ Verbal ☐ Telephone *(including cellular)* ☐ Alarm System ☐ Public Address System ☐ Intercom
☐ Pagers ☐ Portable Radio ☒ Other *(specify)*: Shout Out

2. ☐ Evacuation map is prominently displayed throughout the facility.

3. ☐ Individual(s) responsible for coordinating evacuation including spreading the alarm and confirming the business has been evacuated:

Unmanned Facility

F. Earthquake Vulnerability

Identify areas of the facility where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Hazardous Waste/ Hazardous Materials Storage Areas ☐ Production Floor ☐ Process Lines
☐ Bench/ Lab ☐ Waste Treatment ☐ Other:

Identify mechanical systems where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Utilities ☐ Sprinkler Systems ☒ Cabinets ☐ Shelves
☐ Racks ☐ Pressure Vessels ☐ Gas Cylinders ☐ Tanks
☐ Process Piping ☐ Shutoff Valves ☐ Other:

Unified Program (UP) Form
CONSOLIDATED CONTINGENCY PLAN

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

G.	**Emergency Procedures**
	Briefly describe your business standard operating procedures in the event of a release or threatened release of hazardous materials:
1.	**PREVENTION** (prevent the hazard) - Describe the kinds of hazards associated with the hazardous materials present at your facility. What actions would your business take to prevent these hazards from occurring? You may include a discussion of safety and storage procedures.
	Hazardous materials at sites consist of "sealed" batteries within a heavily sealed self-contained cabinet preventing accidental release.
2.	**MITIGATION** (reduce the hazard) - Describe what is done to lessen the harm or the damage to person(s), property, or the environment, and prevent what has occurred from getting worse or spreading. What is your immediate response to a leak, spill, fire, explosion, or airborne release at your business?
	Evacuate any unnecessary employees from the area of the spill. Using absorbent materials make sure that spilled material is contained and prevented from contaminating the ground, soil, water or discharge off the property. Technicians will first call 911, then contact supervisor and supervisor will contact local outsourced vendors to assess, contain and/or clean any releases.
3.	**ABATEMENT** (remove the hazard) - Describe what you would do to stop and remove the hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your facility?
	The response to the limited spill is the following: employees involved in the clean up of a spill will wear protective rubber gloves, safety glasses and additional protective clothing. Absorbed material will be placed in a leak-proof container and be properly labeled as hazardous waste. The waste will be lawfully disposed as hazardous waster. Necessary notifications shall be made to the Health Hazardous Materials Division.

PLEASE SEE BACK

[redacted]

Hi Christine. I understand you need to be aware of the unmanned cell sites. We received two applications from the following:

Sprint-Nextel

2001 Edmond Halley Dr

Reston, VA 20191

[redacted]

Location in Culver City:

294 Fox Mall

100 Corporate Pointe

I have notified them that they must send someone in person so we can send them to the required departments. If you need any more information, please let me.

Have a nice week-end.

[redacted]

Hello Mr. Nguyen:

We received two applications for Business Tax Certificate (two separate locations). The forms have missing information such as business phone number, fax, list of owners, officers or partners, and start date. Incomplete applications cannot be processed and delay issuance of your Business Tax Certificate.

[redacted]

Hello Paul,

Following an inspection on 10/04/06, I had e-mailed Sara Crafton requesting that a haz mat disclosure packet be completed for this facility. To date, I have not received anything. I know that she is no longer with your company but I need compliance on this matter so that I can close my file.

You have until 12/18/06 within which to respond. Thank you.

[redacted]

√ calendared

[redacted]

Hello Sara,

This morning I met with Kenneth Cruz to inspect the above-referenced facility. As a result of a recent fire at a cell site, we are requiring that all cell sites participate in the disclosure program regardless of threshold quantities. We need you to submit a Hazardous Materials Disclosure Packet to us by November 6, 2006.

If you would like to download a haz mat packet, please visit
http://www.culvercity.org/fire/fire_haz.html

If you have any questions, feel free to write or call. Thank you.

NOTICE OF DECISION: ADMINISTRATIVE USE PERMIT AUP P-2006087 TO COLLOCATE A WIRELESS TELECOMMUNICATIONS FACILITY AT 100 CORPORATE POINTE IN THE COMMERCIAL NEIGHBORHOOD (CN) ZONE

Dear Sirs:

This letter is to inform you that we have conditionally approved this application for an Administrative Use Permit [redacted] to collocate a wireless telecommunications facility on the rooftop of an office building at 100 Corporate Pointe in the Commercial Neighborhood (CN) Zone.

Request

An application was submitted on June 28, 2006 requesting permission to construct a second wireless telecommunications facility on the rooftop of a commercial office building at 100 Corporate Pointe.

Background

On November 9, 2004 Administrative Use Permit AUP P-2004020 was approved by the Planning Division for a wireless telecommunications facility on the rooftop of 100 Corporate Pointe. The facility is operated by Nextel and consists of twelve panel antennas and four equipment cabinets screened by a faux brick fiberglass wall that extends approximately 5'6" above the parapet.

On June 28, 2006 an application was submitted to collocate T-Mobile panel antennas and related equipment on the rooftop of this office building. This facility will also consist of twelve panel antennas, two GPS antennas, and four new equipment cabinets to be located on the rooftop, accessible via a stairwell. The panel antennas will be located on

[redacted]

4. **The subject site is physically suitable for the type and intensity of use being proposed, including access, compatibility with adjoining land uses, shape, size, provision of utilities, and the absence of physical constraints.** The site is physically suitable for the location of cellular antennas and access to the property is well defined and will not be affected by periodic maintenance visits. The facility will be unmanned and will not place an undue burden on the existing infrastructure or utilities. The area surrounding 100 Corporate Pointe is developed with a number of campus-type office buildings. Although residential developments are located to the east of the project site, full screening will reduce any potential visual impacts.

5. **The establishment, maintenance or operation of the proposed use will not be detrimental to the public interest, health, safety, or general welfare, or injurious to persons, property, or improvements in the vicinity and zoning district in which the property is located.** As established by the Federal Government, emissions from wireless telecommunications facilities have been found to be safe. Furthermore, by allowing a second carrier to collocate at this site, the number of additional cellular sites in Culver City is reduced.

Environmental Determination

The Initial Environmental Study for this project determined that, under the California Environmental Quality Act Guidelines, this project is a Class 1 Categorical Exemption as a minor alteration to an existing facility.

Conditions of Approval

Planning Division

1. The final working drawings shall conform to the preliminary development plans file dated August 9, 2006, except as noted below and otherwise noted during the building permit review process.

2. The Conditions of Approval for Administrative Use Permit AUP P-2006087 shall be referenced on the cover sheet, and repeated in full on the cover sheet or attached additional sheet(s) of the final working drawings.

3. All applicable development standards and requirements in Planning Commission Resolution [redacted] Comprehensive Site Plan Review Development Standards and Conditions of Approval, except as otherwise required herein, shall be met. These standards as well as other conditions required in this approval shall be reflected on the plans submitted for building plan check.

4. ~~The applicant shall actively advertise all opportunities for employment, contract~~ services, and purchasing of materials to Culver City businesses and residents.

[redacted]

nor any degradation of service associated with possible future shared use of the facility.

14. The proposed project shall have no individual antennas other than those approved with the subject Administrative Use Permit.

15. All cables for the facility shall be fully concealed from view and placed inside of the screening.

16. The equipment lease area shall be fully screened and painted to match other rooftop equipment.

17. The wireless telecommunications facility shall comply with all applicable standards of 17.400.110 D – Cellular Mobile Radio Telephone Utility Facilities as determined by the Planning Manager.

18. No modification to this facility shall be made without first applying for and obtaining from the City a modification to this Administrative Use Permit.

Building Safety Division

19. All proposed construction shall comply with the 2001 California Building Code. The permit application drawings shall clearly show all structural and roof waterproofing details. The drawings shall clearly show how all added structures are supported by the existing building structure and/ or the total extent of all added structural elements to support the added equipment.

Fire Prevention Division

20. The applicant shall provide Hazardous Material disclosure information to the Culver City Fire Department, including Battery Specification sheets.

21. The applicant shall provide access detail for roof access and routes of travel.

22. The applicant shall obtain a Culver City Business License.

23. The applicant shall provide National Fire Protection Association 704 Hazard Rating signage at cabinet locations and modify any life safety systems in cabinet locations.

24. The applicant shall provide a KNOX box with a minimum of two sets of keys for access to the equipment lease area.

25. The HVAC System shall be controlled by duct smoke detectors.

NOTICE OF PENDING ADMINISTRATIVE DECISION

ADMINISTRATIVE USE PERMIT TO ALLOW A WIRELESS TELECOMMUNICATIONS FACILITY AT 100 CORPORATE POINTE

July 20, 2006

[redacted]

Dear Interested Party:

This notice is to inform you of a pending administrative decision regarding the proposed installation of an additional wireless telecommunications facility on the rooftop of 100 Corporate Pointe in the Commercial Neighborhood (CN) Zone.

The Planning Division is processing an Administrative Use Permit (AUP) application to permit cellular telephone antennas and related equipment on the roof of a commercial office building in the Corporate Pointe area (Slauson Ave./Hannum Ave.). During the AUP process, the Planning Division solicits comments from other City Departments regarding a number of issues such as site layout and design, building design and aesthetics, traffic and circulation, and public facilities. At the conclusion of the review process, an administrative decision is made. The process is expected to be completed and a decision made on or about August 10, 2006.

If you would like to comment or learn more about the project, please contact me at (310) 253-5747, or visit the Planning Division at City Hall, Second Floor, on or before August 3, 2006. It is advisable to call me before visiting the office to be sure I will be available. City Hall hours are 7:30 A.M. to 5:30 P.M., Monday through Friday, except alternate Fridays. City Hall is closed on Friday, July 21st and Friday, August 4th.

Sincerely,

[redacted]

Parra, Christine

Subject: RE: Cell site located at 100 Corporate Pointe

Sara,

Thank you for responding to my request. However, I need the actual MSDS for the battery. I also need to have the name and number of the person responsible for maintaining the facility. Once I receive the MSDS I will contact you or the person you deem responsible for the facility to conduct an inspection.

Thank you much.

Subject: Cell site located at 100 Corporate Pointe

Hello Mark,

I came across a letter dated August 22, 2005 from you indicating that you had constructed a new cellular facility at 100 Corporate Pointe, CA-7848/Ladera Heights, in Culver City and that you were forwarding a copy of the original Business Plan and a copy of each MSDS sheet. The letter then goes on to say that you won't be submitting a business plan because none of the "reportable hazardous materials exceed your thresholds ...". I am confused to say the least.

Can you please clarify for me?

I also do not have any records that outline the type of batteries that you are using, how many batteries, the amount of acid and lead in each battery. Please forward such information to me along with a plot plan as to where they are located.

If you have any questions, feel free to call or write.

P.S. My apologies if we have already had this conversation. I have been completely inundated with cell site installations.

RE: Business Plan for Nextel Cellular Facility CA-7848 / Ladera Heights

Dear Christine Parra,

In an ongoing effort to improve customer satisfaction, Nextel has constructed a new cellular facility located at the address listed in the table below. Enclosed is the original Business plan, and a copy, each containing the appropriate MSDS sheets and facility drawings.

[redacted]

Address	City	Zip	Gals Acid	Lbs Lead
100 Corporate Pointe	Culver City	90230	24.2	928

This facility utilizes valve-regulated lead-acid (VRLA) batteries that contain gelled electrolyte which is immobilized by internal absorbed glass matting (AGM) therefore preventing releases even when the battery case is punctured, and allowing the batteries to be classified by the DOT as non-spillable. These batteries are the sole source of hazardous materials onsite, and their materials and quantities are listed in the table above.

Nextel will not be submitting a business plan at this time because none of the reportable hazardous materials exceed your thresholds, and therefore we consider this facility exempt from business plan submission. Please respond by correspondence or email if you disagree.

If you have any questions or comments, please do not hesitate to contact me at (925) 279-5711, or by email at HazmatWest@Nextel.com.

Sincerely

[redacted]

SITE ADDRESS 100 Corporate Pointe 103	CITY Culver City 104	ZIP CODE 105 90230

The Consolidated Contingency Plan provides businesses a format to comply with the emergency planning requirements of the following three written hazardous materials emergency response plans required in California:

v Hazardous Materials Business Plan (HSC Chapter 6.95 Section 25504 (b) and 19 CCR Sections 2729-2732),

v Hazardous Waste Generator Contingency Plan (22 CCR Section 66264.52), and,

v Underground Storage Tank Emergency Response Plan and Monitoring Program (23 CCR Sections 2632 and 2641).

This format is designed to reduce duplication in the preparation and use of emergency response plans at the same facility, and to improve the coordination between facility response personnel and local, state and federal emergency responders during an emergency. Use the chart below to determine which sections of the Consolidated Contingency Plan need to be completed for your facility. If you are unsure as to which programs your facility is subject to, refer to the Business Activities Page.

PROGRAMS	SECTION(S) TO BE COMPLETED
Hazardous Materials Business Plan (HMBP)	Cover Page, Section I, and Site Map(s)
Hazardous Waste Generator (HWG)	Cover Page, Section I, and Site Map(s)
Underground Storage Tank (UST)	Cover Page, Sections I and II, and Site Map(s)
HMBP, HWG, UST	Cover Page, Sections I and II, and Site Map(s)

A copy of the plan shall be submitted to your local CUPA and at least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency. Describe below where a copy of your Contingency Plan, including the hazardous material inventories and Site Map(s), is located at your business:

PLAN CERTIFICATION	
I certify under penalty of law that I have personally examined and I am familiar with the information provided by this plan and to the best of my knowledge the information is accurate, complete, and true.	
Printed Name of Owner/ Operator Pete Wang	Title of Owner/Operator EHS Specialist
Signature of Owner/ Operator	Date 2-24-2012

We appreciate the effort of local businesses in completing these plans and will assist in every possible way. If you have any questions, please contact your local CUPA or PA.

CONSOLIDATED CONTINGENCY PLAN

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

C. Private Emergency Response

DOES YOUR BUSINESS HAVE A PRIVATE ON-SITE EMERGENCY RESPONSE TEAM? ☐ Yes ☒ No

If yes, provide an attachment that describes what policies and procedures your business will follow to notify your on-site emergency response team in the event of a release or threatened release of hazardous materials.

CLEANUP/DISPOSAL CONTRACTOR

List the contractor that will provide cleanup services in the event of a release.

NAME OF CONTRACTOR:
Hazmat Response, Inc.

ADDRESS:
1203 S. Parker

[redacted]

CITY:
Olathe

ZIP CODE:
66061

D. Arrangements With Emergency Responders

If you have made special (i.e. contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements on the lines below:

A contract has been established with Hazmat Response, Inc. (877-347-4457 opt. 2) which can deliver teams of skilled and experienced field personnel and other technical experts to handle the mitigation and remediation of a significant release, spill, leak, etc.

E. Evacuation Plan

1. The following alarm signal(s) will be used to begin evacuation of the facility *(check all which apply)*:

☒ Verbal ☐ Telephone *(including cellular)* ☐ Alarm System ☐ Public Address System ☐ Intercom ☐ Pagers ☐ Portable Radio ☐ Other *(specify)*:

2. ☐ Evacuation map is prominently displayed throughout the facility.

3. ☐ Individual(s) responsible for coordinating evacuation including spreading the alarm and confirming the business has been evacuated:

F. Earthquake Vulnerability

Identify areas of the facility where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Hazardous Waste/ Hazardous Materials Storage Areas ☐ Production Floor ☐ Process Lines
☐ Bench/ Lab ☐ Waste Treatment ☒ Other: Battery Shells

Identify mechanical systems where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Utilities ☐ Sprinkler Systems ☐ Cabinets ☐ Shelves
☐ Racks ☐ Pressure Vessels ☐ Gas Cylinders ☐ Tanks
☐ Process Piping ☐ Shutoff Valves ☐ Other:

CONSOLIDATED CONTINGENCY PLAN

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

XXVIII. Emergency Equipment

22 CCR, Section 66265.52(e) [as referenced by Section 66262.34(a)(3)] requires that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement.

EMERGENCY EQUIPMENT INVENTORY TABLE

1. Equipment Category	2. Equipment Type	3. Location *	4. Description**
Personal Protective, Equipment, Safety Equipment, and First Aid Equipment	☐ Cartridge Respirators		
	☐ Chemical Monitoring Equipment *(describe)*

BUSINESS PLAN ANNUAL RENEWAL CERTIFICATION

Hazardous Materials Inventory Statement (HMIS)

I certify that the attached HMIS reflects the handling of hazardous materials for the reporting year in accordance with the following conditions:

- ☐ **Delete:** Write "delete" on the HMIS next to any previously disclosed hazardous materials that are no longer used.
- ☐ **Revise:** Write the correct amounts, locations, or container type on the HMIS to reflect the accuracy of any previously reported hazardous materials.
- ☐ **EPCRA Compliance:** Fill in the EPCRA field with your signature on the HMIS for any hazardous material type and quantity identified on 40 CFR Part 355, Appendix A—The List of Extremely Hazardous Substances and Their Threshold Planning Quantities.
- ☐ **Add:** Complete one **Hazardous Materials Inventory—Chemical Description Form** to add each hazardous materials that you have not previously disclosed. Submit one form per chemical.
- ☒ **No Change:** The HMIS is accurate and complete.

Consolidated Contingency Plan (CCP)

I review the CCP every three years and certify that the CCP on file with your agency is accurate and current in accordance with the following conditions:

- ☒ **Modification:** Significant changes in facility personnel or operations required a revision of the CCP. Complete and submit changes of your CCP with this form.
- ☐ **Lost:** Complete and submit any parts of your CCP that were lost or damaged.
- ☐ **No Change:** There have not been any significant changes in the facility's personnel and operations that require a revision to the current CCP.

Cal-ARP Program

I reviewed the threshold quantities in Section 2770.5 of Title 19 of the California Code of Regulations and certify that any regulated substance on the attached HMIS accords with the following registration requirement:

- ☐ **Add:** Complete the **Cal-ARP Program Regulated Substance Registration** form only if the regulated substance is at or above the threshold quantity (TQ). Submit one form per chemical.
- ☒ **No Change:** The previously submitted registration for regulated substance(s) is accurate.

ANNUAL CERTIFICATION

I certify that the information submitted herein is complete and accurate. Also, no hazardous materials subject to the inventory requirements of Chapter 6.95 of the Health and Safety Code are being handled that are not listed on the most recently submitted annual inventory form.

The Consolidated Contingency Plan provides businesses a format to comply with the emergency planning requirements of the following three written hazardous materials emergency response plans required in California:

- v Hazardous Materials Business Plan (HSC Chapter 6.95 Section 25504 (b) and 19 CCR Sections 2729-2732),
- v Hazardous Waste Generator Contingency Plan (22 CCR Section 66264.52), and,
- v Underground Storage Tank Emergency Response Plan and Monitoring Program (23 CCR Sections 2632 and 2641).

This format is designed to reduce duplication in the preparation and use of emergency response plans at the same facility, and to improve the coordination between facility response personnel and local, state and federal emergency responders during an emergency. Use the chart below to determine which sections of the Consolidated Contingency Plan need to be completed for your facility. If you are unsure as to which programs your facility is subject to, refer to the Business Activities Page.

PROGRAMS	SECTION(S) TO BE COMPLETED
Hazardous Materials Business Plan (HMBP)	Cover Page, Section I, and Site Map(s)
Hazardous Waste Generator (HWG)	Cover Page, Section I, and Site Map(s)
Underground Storage Tank (UST)	Cover Page, Sections I and II, and Site Map(s)
HMBP, HWG, UST	Cover Page, Sections I and II, and Site Map(s)

A copy of the plan shall be submitted to your local CUPA and at least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency. Describe below where a copy of your Contingency Plan, including the hazardous material inventories and Site Map(s), is located at your business:

PLAN CERTIFICATION	
I certify under penalty of law that I have personally examined and I am familiar with the information provided by this plan and to the best of my knowledge the information is accurate, complete, and true.	
Printed Name of Owner/ Operator Pete Wang	Title of Owner/Operator EHS Specialist
Signature of Owner/ Operator	Date 2-24-2011

We appreciate the effort of local businesses in completing these plans and will assist in every possible way. If you have any questions, please contact your local CUPA or PA.

OFFICIAL USE ONLY			DATE RECEIVED		REVIEWED BY

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

C. Private Emergency Response

DOES YOUR BUSINESS HAVE A PRIVATE ON-SITE EMERGENCY RESPONSE TEAM? ☐ Yes ☒ No

If yes, provide an attachment that describes what policies and procedures your business will follow to notify your on-site emergency response team in the event of a release or threatened release of hazardous materials.

CLEANUP/DISPOSAL CONTRACTOR

List the contractor that will provide cleanup services in the event of a release.

NAME OF CONTRACTOR:
Hazmat Response, Inc.

[redacted]

ADDRESS:
1203 S. Parker

CITY:
Olathe

ZIP CODE:
66061

D. Arrangements With Emergency Responders

If you have made special (i.e. contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements on the lines below:

A contract has been established with Hazmat Response, Inc. (877-347-4457 opt. 2) which can deliver teams of skilled and experienced field personnel and other technical experts to handle the mitigation and remediation of a significant release, spill, leak, etc.

E. Evacuation Plan

1. The following alarm signal(s) will be used to begin evacuation of the facility *(check all which apply)*:

☒ Verbal ☐ Telephone *(including cellular)* ☐ Alarm System ☐ Public Address System ☐ Intercom
☐ Pagers ☐ Portable Radio ☐ Other *(specify)*:

2. ☐ Evacuation map is prominently displayed throughout the facility.

3. ☐ Individual(s) responsible for coordinating evacuation including spreading the alarm and confirming the business has been evacuated:

F. Earthquake Vulnerability

Identify areas of the facility where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Hazardous Waste/ Hazardous Materials Storage Areas ☐ Production Floor
☐ Bench/ Lab ☐ Waste Treatment ☒ Other: Battery Shells ☐ Process Lines

Identify mechanical systems where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Utilities ☐ Sprinkler Systems ☐ Cabinets ☐ Shelves
☐ Racks ☐ Pressure Vessels ☐ Gas Cylinders ☐ Tanks
☐ Process Piping ☐ Shutoff Valves ☐ Other:

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

XXVIII. Emergency Equipment

22 CCR, Section 66265.52(e) [as referenced by Section 66262.34(a)(3)] requires that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement.

EMERGENCY EQUIPMENT INVENTORY TABLE

1. Equipment Category	2. Equipment Type	3. Location *	4. Description**
Personal Protective, Equipment, Safety Equipment, and First Aid Equipment	☐ Cartridge Respirators

Re: **Annual Hazardous Materials Disclosure Reporting**

Dear Business Owner(s):

As you are aware, the Hazardous Materials Disclosure Program runs on a three-year cycle. What this means is that on the first year of the cycle, **all businesses** are required to complete and return a new/updated Hazardous Materials Disclosure Packet. On the second and third year, if there are **NO** changes to be made to the Disclosure Packet, all the business is required to do is to sign and return the "Certification Letter".

At present, we are at the beginning of the new (first year) cycle which means that **every** business in the program is required to complete and return the enclosed Hazardous Materials Disclosure Packet regardless of change. If you have access to a computer, you may download the packet by visiting the Los Angeles County Fire Department's website at http://fire.lacounty.gov/HealthHazMat/HHMDForms.asp. Please download the **"Short Form"** version of the packet. Once you have downloaded the packet, be sure to save it to your computer. This will help facilitate future updates. If you do not have access to a computer but would like to download the forms and save them to a disc for future use, please contact me and I will make arrangements for you to use a computer at City Hall.

You have 30 days from the date of this letter within which to comply. Please do not disregard this notice. If you require assistance, please call or email me at christine.parra@culvercity.org and I would be more than happy to assist you. Failure to comply WILL and CAN result in penalties being assessed against you.

[redacted]

The Hazardous Materials Disclosure program is a very important tool for First Responders. The information that you provide is entered into a database and is made available 24 hours a day/7 days a week to First Responders, both Fire and Police, in the event of an incident or disaster. The information you provide can save lives and property.

Please note if you have submitted a new/updated Disclosure Packet within the last two months, please contact me so that I can verify that you have and exempt you from having to disclose again.

For your convenience, we have included a "Sample" Disclosure Packet which should assist you in completing the Disclosure Forms. Also, remember to keep a copy of your newly completed packet on site at all times.

Should you need additional assistance or have questions, please feel free to contact me at (310) 253-5930.

The Consolidated Contingency Plan provides businesses a format to comply with the emergency planning requirements of the following three written hazardous materials emergency response plans required in California:

- Hazardous Materials Business Plan (HSC Chapter 6.95 Section 25504 (b) and 19 CCR Sections 2729-2732),
- Hazardous Waste Generator Contingency Plan (22 CCR Section 66264.52), and,
- Underground Storage Tank Emergency Response Plan and Monitoring Program (23 CCR Sections 2632 and 2641).

This format is designed to reduce duplication in the preparation and use of emergency response plans at the same facility, and to improve the coordination between facility response personnel and local, state and federal emergency responders during an emergency. Use the chart below to determine which sections of the Consolidated Contingency Plan need to be completed for your facility. If you are unsure as to which programs your facility is subject to, refer to the Business Activities Page.

PROGRAMS	SECTION(S) TO BE COMPLETED
Hazardous Materials Business Plan (HMBP)	Cover Page, Section I, and Site Map(s)
Hazardous Waste Generator (HWG)	Cover Page, Section I, and Site Map(s)
Underground Storage Tank (UST)	Cover Page, Sections I and II, and Site Map(s)
HMBP, HWG, UST	Cover Page, Sections I and II, and Site Map(s)

A copy of the plan shall be submitted to your local CUPA and at least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency. Describe below where a copy of your Contingency Plan, including the hazardous material inventories and Site Map(s), is located at your business:

Inside file slots, located next to door to cell site shelter.

PLAN CERTIFICATION	
I certify under penalty of law that I have personally examined and I am familiar with the information provided by this plan and to the best of my knowledge the information is accurate, complete, and true.	
Printed Name of Owner/ Operator Genevieve de la Torre	Title of Owner/Operator BB&J contracted EHS specialist
Signature of Owner/ Operator Genevieve dela Torre	Date 3/9/2009

We appreciate the effort of local businesses in completing these plans and will assist in every possible way. If you have any questions, please contact your local CUPA or PA.

CONSOLIDATED CONTINGENCY PLAN

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

C. Private Emergency Response

DOES YOUR BUSINESS HAVE A PRIVATE ON-SITE EMERGENCY RESPONSE TEAM? ☐ Yes ☒ No

If yes, provide an attachment that describes what policies and procedures your business will follow to notify your on-site emergency response team in the event of a release or threatened release of hazardous materials.

CLEANUP/DISPOSAL CONTRACTOR

List the contractor that will provide cleanup services in the event of a release.

NAME OF CONTRACTOR:
Hazmat Response, Inc.

[redacted]

ADDRESS:
1203 S. Parker

CITY:
Olathe

ZIP CODE:
66061

D. Arrangements With Emergency Responders

If you have made special (i.e. contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements on the lines below:

A contract has been established with Hazmat Response, Inc (877-347-4457) which can deliver teams of skilled and experienced field personnel and other technical experts to handle the mitigation and remediation of a significant release, spill, leak, etc.

E. Evacuation Plan

1. The following alarm signal(s) will be used to begin evacuation of the facility *(check all which apply)*:

☒ Verbal ☐ Telephone *(including cellular)* ☐ Alarm System ☐ Public Address System ☐ Intercom
☐ Pagers ☐ Portable Radio ☐ Other *(specify)*:

2. ☐ Evacuation map is prominently displayed throughout the facility.

3. ☐ Individual(s) responsible for coordinating evacuation including spreading the alarm and confirming the business has been evacuated:

F. Earthquake Vulnerability

Identify areas of the facility where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Hazardous Waste/ Hazardous Materials Storage Areas ☐ Production Floor ☐ Process Lines
☐ Bench/ Lab ☐ Waste Treatment ☒ Other: Battery shells

Identify mechanical systems where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Utilities ☐ Sprinkler Systems ☐ Cabinets ☐ Shelves
☐ Racks ☐ Pressure Vessels ☐ Gas Cylinders ☐ Tanks
☐ Process Piping ☐ Shutoff Valves ☐ Other:

The Consolidated Contingency Plan provides businesses a format to comply with the emergency planning requirements of the following three written hazardous materials emergency response plans required in California:

- Hazardous Materials Business Plan (HSC Chapter 6.95 Section 25504 (b) and 19 CCR Sections 2729-2732),
- Hazardous Waste Generator Contingency Plan (22 CCR Section 66264.52), and,
- Underground Storage Tank Emergency Response Plan and Monitoring Program (23 CCR Sections 2632 and 2641).

This format is designed to reduce duplication in the preparation and use of emergency response plans at the same facility, and to improve the coordination between facility response personnel and local, state and federal emergency responders during an emergency. Use the chart below to determine which sections of the Consolidated Contingency Plan need to be completed for your facility. If you are unsure as to which programs your facility is subject to, refer to the Business Activities Page.

PROGRAMS	SECTION(S) TO BE COMPLETED
Hazardous Materials Business Plan (HMBP)	Cover Page, Section I, and Site Map(s)
Hazardous Waste Generator (HWG)	Cover Page, Section I, and Site Map(s)
Underground Storage Tank (UST)	Cover Page, Sections I and II, and Site Map(s)
HMBP, HWG, UST	Cover Page, Sections I and II, and Site Map(s)

A copy of the plan shall be submitted to your local CUPA and at least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency. Describe below where a copy of your Contingency Plan, including the hazardous material inventories and Site Map(s), is located at your business:

Inside file slots, located next to door to cell site shelter.

PLAN CERTIFICATION

I certify under penalty of law that I have personally examined and I am familiar with the information provided by this plan and to the best of my knowledge the information is accurate, complete, and true.

Printed Name of Owner/ Operator CHAD LAMACCHIA	Title of Owner/Operator BB&J contracted EHS specialist
Signature of Owner/ Operator	Date 3/19/2008

We appreciate the effort of local businesses in completing these plans and will assist in every possible way. If you have any questions, please contact your local CUPA or PA.

III. EMERGENCY RESPONSE PLANS AND PROCEDURES

A. Notifications

Your business is required by State Law to provide an immediate verbal report of any release or threatened release of a hazardous material to local fire emergency response personnel, this Unified Program Agency (CUPA or PA), and the Office of Emergency Services. If you have a release or threatened release of hazardous materials, immediately call:

FIRE/PARAMEDICS/POLICE/SHERIFF
PHONE: 911

AFTER the local emergency response personnel are notified, you shall then notify this Unified Program Agency and the Office of Emergency Services.

Local Unified Program Agency: (323) 890-4317
State Office of Emergency Service: (800) 852-7550 or (916) 262-1621
National Response Center: (800) 424-8802

Information to be provided during Notification:

- Your Name and the Telephone Number from where you are calling.
- Exact address of the release or threatened release.
- Date, time, cause, and type of incident (e.g. fire, air release, spill etc.)
- Material and quantity of the release, to the extent known.
- Current condition of the facility.
- Extent of injuries, if any.
- Possible hazards to public health and/ or the environment outside of the facility.

B. Emergency Medical Facility

List the local emergency medical facility that will be used by your business in the event of an accident or injury caused by a release or threatened release of hazardous material

HOSPITAL/CLINIC:
Cedars Sinai Medical Center [redacted]

ADDRESS:
8700 Beverly Blvd

CITY:
West Hollywood

ZIP CODE:
90048

OFFICIAL USE ONLY		DATE RECEIVED		REVIEWED BY		
DIV	BN	STA	OTHER	DISTRICT	CUPA	PA

Unified Program (UP) Form
CONSOLIDATED CONTINGENCY PLAN
SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

C. Private Emergency Response

DOES YOUR BUSINESS HAVE A PRIVATE ON-SITE EMERGENCY RESPONSE TEAM? ☐ Yes ☒ No

If yes, provide an attachment that describes what policies and procedures your business will follow to notify your on-site emergency response team in the event of a release or threatened release of hazardous materials.

CLEANUP/DISPOSAL CONTRACTOR

List the contractor that will provide cleanup services in the event of a release.

NAME OF CONTRACTOR:
Hazmat Response, Inc.

ADDRESS:
1203 S. Parker

[redacted]

CITY:
Olathe

ZIP CODE:
66061

D. Arrangements With Emergency Responders

If you have made special (i.e. contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements on the lines below:

A contract has been established with Hazmat Response, Inc (877-347-4457) which can deliver teams of skilled and experienced field personnel and other technical experts to handle the mitigation and remediation of a significant release, spill, leak, etc.

E. Evacuation Plan

1. The following alarm signal(s) will be used to begin evacuation of the facility *(check all which apply)*:

☒ Verbal ☐ Telephone *(including cellular)* ☐ Alarm System ☐ Public Address System ☐ Intercom
☐ Pagers ☐ Portable Radio ☐ Other *(specify)*:

2. ☐ Evacuation map is prominently displayed throughout the facility.

3. ☐ Individual(s) responsible for coordinating evacuation including spreading the alarm and confirming the business has been evacuated:

F. Earthquake Vulnerability

Identify areas of the facility where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Hazardous Waste/ Hazardous Materials Storage Areas ☐ Production Floor ☐ Process Lines
☐ Bench/ Lab ☐ Waste Treatment ☒ Other: Battery shells

Identify mechanical systems where releases could occur or would require immediate inspection or isolation because of the vulnerability to earthquake related ground motion.

☐ Utilities ☐ Sprinkler Systems ☐ Cabinets ☐ Shelves
☐ Racks ☐ Pressure Vessels ☐ Gas Cylinders ☐ Tanks
☐ Process Piping ☐ Shutoff Valves ☐ Other:

Unified Program (UP) Form
CONSOLIDATED CONTINGENCY PLAN

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

G. Emergency Procedures

Briefly describe your business standard operating procedures in the event of a release or threatened release of hazardous materials:

1. **PREVENTION** (prevent the hazard) - Describe the kinds of hazards associated with the hazardous materials present at your facility. What actions would your business take to prevent these hazards from occurring? You may include a discussion of safety and storage procedures.

The site has designated areas marked with signs and labels for storage of hazardous materials. Personnel are kept aware of safety issues regarding all hazardous materials through safety training meetings. Regular scheduled inspections of batteries and fire extinguishers are routine responsibilities of the associated field technician. The Corporate Environmental Health & Safety Department has developed a spill prevention program which provides guidelines for personnel on the prevention of accidental releases of hazardous substances into the environment. All employees who come in contact with battery systems and/or diesel fuel in their daily work responsibilities are trained on the spill prevention program and spill response procedures.

2. **MITIGATION** (reduce the hazard) - Describe what is done to lessen the harm or the damage to person(s), property, or the environment, and prevent what has occurred from getting worse or spreading. What is your immediate response to a leak, spill, fire, explosion, or airborne release at your business?

The facility is equipped with spill response procedures and equipment. In the event of a leak or spill, the spill may be contained by surrounding the spilled acid with an approved absorbent. The substance will then be neutralized into a harmless material. Under emergency response conditions, a contract has been established with Hazmat Response, Inc. which can deliver teams of skilled and experienced field personnel and other technical experts to handle the mitigation and remediation of a significant release, spill, leak, etc. The Corporate Environmental Health & Safety Department has developed a spill prevention program that provides guidelines for personnel on the prevention of accidental releases of hazardous substances into the environment and also provides spill response procedures.

3. **ABATEMENT** (remove the hazard) - Describe what you would do to stop and remove the hazard. How do you handle the complete process of stopping a release, cleaning up, and disposing of released materials at your facility?

LESS THAN 5 GALLONS: 1) Place spill mat on any storm/sanitary sewer drain in close proximity to the released material. 2) Apply absorbent around and across the spilled material. 3) Use broom and dust pan or shovel to remove material and absorbent. 4) Place released material and absorbent into an approved container. 5) Contact the designated emergency response individual. GREATER THAN 5 GALLONS: 1) Place spill mat on any storm/sanitary sewer drain in close proximity to the released material. 2) Apply absorbent around the released material. 3) Contact the emergency response individual.

Unified Program (UP) Form
CONSOLIDATED CONTINGENCY PLAN

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

IV. Emergency Equipment

22 CCR, Section 66265.52(e) [as referenced by Section 66262.34(a)(3)] requires that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement.

EMERGENCY EQUIPMENT INVENTORY TABLE

1. Equipment Category	2. Equipment Type	3. Location *	4. Description**
Personal Protective, Equipment, Safety Equipment, and First Aid Equipment	☐ Cartridge Respirators		
	☐ Chemical Monitoring Equipment *(describe)*		
	☐ Chemical Protective Aprons/Coats		
	☐ Chemical Protective Boots		
	☒ Chemical Protective Gloves	Vehicle	Maintained within field technicians vehicle
	☐ Chemical Protective Suits *(describe)*		
	☐ Face Shields		
	☒ First Aid Kits/Stations *(describe)*	Vehicle	Maintained within field technicians vehicle
	☒ Hard Hats	Vehicle	Maintained within field technicians vehicle

	☐ Underground Tank Leak Detection Monitors		
	☐ Other (describe)		
Additional Equipment (Use Additional Pages if Needed.)			

* *Use the Location Codes (LC) from the Site Map(s) prepared for your Contingency Plan.*

** *Describe the equipment and its capabilities. If applicable, specify any testing/maintenance procedures/intervals. Attach additional pages, numbered appropriately, if needed.*

Unified Program (UP) Form
CONSOLIDATED CONTINGENCY PLAN

SECTION I: BUSINESS PLAN AND CONTINGENCY PLAN

V. EMPLOYEE TRAINING

All facilities which handle hazardous materials must have a written employee training plan. A blank plan has been provided below for you to complete and submit. The items listed below are required per Health and Safety Code Section 25504 (c) and Title 19 Section 2732.

Facility personnel are trained as follows:

- ϖ Familiarity with all plans and procedures specified in the Contingency Plan.
- ϖ Methods for Safe Handling of Hazardous Materials.
- ϖ Safety procedures in the event of a release or threatened release of a hazardous material.
- ϖ Use of Emergency Response equipment and supplies under the control of the business.
- ϖ Procedures for Coordination with local Emergency Response Organizations.

Training shall be provided:

- ϖ Initially for all new employees.
- ϖ Annually, including refresher courses, for all employees.

Note: These training programs may take into consideration the position of each employee.

Additional training should include:

- ϖ Internal alarm/notification procedures.
- ϖ Evacuation/re-entry procedures and assembly point locations.
- ϖ Material Safety Data Sheet (MSDS) training including specific hazard(s) of each chemical to which employees may be exposed, including routes of exposure *(i.e. inhalation, ingestion, absorption).*

VI. HAZARDOUS WASTE GENERATOR TRAINING

If your business is a hazardous waste generator, you are required to provide training in hazardous waste management for all workers who handle hazardous waste at your site (22 CCR §66265.16). You are also required to document training. The items below are required.

EMPLOYEE TRAINING

- ϖ Facility personnel will successfully complete training within six months after the date of their employment or assignment to a facility or to a new position at a facility.
- ϖ Employees will not handle hazardous wastes without supervision until trained.

TRAINING DOCUMENTATION

The owner or operator must maintain the following documents and records at the facility:

- ϖ Job title for each position at the facility that is related to hazardous waste management, and the names of the employee(s) filling the position(s).
- ϖ Description for each position listed above (must include required skill, education, or other qualifications as well as duties of employees assigned to the position.
- ϖ Description of *type* and *amount* of both introductory and continuing training given to each employee.
- ϖ Records that document that the requirements for training or job experience have been met.
- ϖ Current employees' training records (to be retained until closure of the facility).
- ϖ Former employees' training records (to be retained at least three years after termination of employment).

HAZARDOUS MATERIALS STATE REPORTING PACKET

Enclosed is your latest Hazardous Materials Inventory Statement. Please carefully review it for accuracy. The requirements for submitting a Consolidated Contingency Plan have changed **(see Hazardous Materials Reporting Requirements handout)**. If you require assistance in processing these forms please contact Fire Prevention at (310) 253-5925. For additional forms or to download an electronic copy of this packet please refer to L.A. County's website at ***http://www.lacofd.org/HealthHazMat/HHMDForms.asp***

The Department recommends use of CERTIFIED MAIL to ensure delivery of these forms before the March 1st deadline to avoid late fees. Sign and date the Annual Certification section below and keep a copy of the entire package for your records.

C.F.D. REC'D BY 19 MAR 07 20

RE-CERTIFICATION PROCEDURE

Please check the appropriate box(es).

☐ **Delete:** If you no longer handle the materials listed on the Inventory Statement provided ***Write Delete*** across the discontinued material.

☐ **Add:** If you are handling materials not previously disclosed ***Make copies of the Chemical Description Form and complete all information required*** (one form per chemical).

☐ **Revise/Update:** Cross out any errors on the Inventory Statement and ***Clearly Print*** the correct information.

☒ **No Change:** There has been no change in the quantity of any hazardous material as reported.

☐ **Change:** Mark this Box if you are updating the Consolidated Contingency Plan.

☐ **No Change:** Mark this Box if the Consolidated Contingency Plan on file is correct and complete.

☐ **Regulated Substance Registration:** If you are handling a Regulated Substance not previously disclosed, you must also ***complete*** the Registration Substance Registration form. Complete only if substance is at or above threshold Quantity (TQ). A list of Regulated Substances is attached to the enclosed Hazardous Materials State Reporting Packet.

THE SUBMITTAL OF THE HAZARDOUS MATERIALS STATE REPORTING FORMS CONTAIN ALL OF THE REQUIRED STATE AND FEDERAL INVENTORY INFORMATION AND SATISFIES THE REQUIREMENTS OF BOTH STATE AND FEDERAL REGULATIONS.

ANNUAL CERTIFICATION

I certify under penalty of law that I have personally examined the information submitted herein is complete, accurate and up to date. Also, no hazardous materials subject to the inventory requirements of this chapter. (California Health & Safety Code Chapter 6.95) are being handled that are not listed

CONSOLIDATED CONTINGENCY PLAN

COVER PAGE

FACILITY IDENTIFICATION		
BUSINESS NAME Nextel Site CA7848 3		FACILITY ID # 1
SITE ADDRESS 103 100 Corporate Park	CITY 104 Culver City	ZIP CODE 105 90230

The Consolidated Contingency Plan provides businesses a format to comply with the emergency planning requirements of the following three written hazardous materials emergency response plans required in California:

- Hazardous Materials Business Plan (HSC Chapter 6.95 Section 25504 (b) and 19 CCR Sections 2729-2732),
- Hazardous Waste Generator Contingency Plan (22 CCR Section 66264.52), and,
- Underground Storage Tank Emergency Response Plan and Monitoring Program (23 CCR Sections 2632 and 2641).

This format is designed to reduce duplication in the preparation and use of emergency response plans at the same facility, and to improve the coordination between facility response personnel and local, state and federal emergency responders during an emergency. Use the chart below to determine which sections of the Consolidated Contingency Plan need to be completed for your facility. If you are unsure as to which programs your facility is subject to, refer to the Business Activities Page.

PROGRAMS	SECTION(S) TO BE COMPLETED
X Hazardous Materials Business Plan (HMBP)	Cover Page, Section I, and Site Map(s)
Hazardous Waste Generator (HWG)	Cover Page, Section I, and Site Map(s)
Underground Storage Tank (UST)	Cover Page, Sections I and II, and Site Map(s)
HMBP, HWG, UST	Cover Page, Sections I and II, and Site Map(s)

A copy of the plan shall be submitted to your local CUPA and at least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency. Describe below where a copy of your Contingency Plan, including the hazardous material inventories and Site Map(s), is located at your business:

Electronic PDF with Kenny Cruz, Copy of this HMBP to be posted in facility shelter

PLAN CERTIFICATION

I certify under penalty of law that I have personally examined and I am familiar with the information provided by this plan and to the best of my knowledge the information is accurate, complete, and true.

[redacted]	Title of Owner/Operator EHS Specialist
	Date 12/15/06

We appreciate the effort of local businesses in completing these plans and will assist in every possible way. If you have any questions, please contact your local CUPA or PA.

Emergency Response/Contingency Plan (CA/848/Ladera)

(Hazardous Materials Business Plan Module)

Authority Cited: HSC, Section 25504(b); Title 22, Div. 4.5, Ch. 12, Art. 3 CCR

All facilities that handle hazardous materials in specified quantities must have a written emergency response plan. In addition, facilities that generate 1,000 kilograms or more of hazardous waste per month, or accumulate more than 6,000 kilograms of hazardous waste on-site at any one time, must prepare a contingency plan. Because the requirements are similar, they have been combined in a single document, provided below, for your convenience. This plan is a required module of the Hazardous Materials Business Plan (HMBP). **If you already have a plan that meets these requirements, you should not complete the blank plan, below, but you must include a copy of your existing plan as part of your HMBP.**

This site-specific Emergency Response/Contingency Plan is the facility's plan for dealing with emergencies and shall be implemented immediately whenever there is a fire, explosion, or release of hazardous materials that could threaten human health and/or the environment. **At least one copy of the plan shall be maintained at the facility for use in the event of an emergency and for inspection by the local agency.** Within Santa Clara County, hospitals and police agencies have delegated receipt of these plans to the local agencies administering Hazardous Materials Business Plans, so additional copies need not be submitted. However, a copy of the plan and any revisions must be provided to any contractor, hospital, or agency with whom special (i.e. contractual) emergency services arrangements have been made *(see section 3, below)*.

1. Evacuation Plan:

a. The following alarm signal(s) will be used to begin evacuation of the facility *(check all that apply)*:

☐ Bells; ☐ Horns/Sirens; ☒ Verbal *(i.e. shouting)*; ☒ Other *(specify)* **Site Techs have Nextel Wireless Phones**

b. ☐ Evacuation map is prominently displayed throughout the facility.

Note: A properly completed HMBP Site Plan satisfies contingency plan map requirements. This drawing (or any other drawing that shows primary and alternate evacuation routes, emergency exits, and primary and alternate staging areas) must be prominently posted throughout the facility in locations where it will be visible to employees and visitors.

2. a. Emergency Contacts*:

Fire/Police/Ambulance .... Phone No. **911**

State Office of Emergency Services .... [redacted]

b. **Post-Incident Contacts*:**

Fire Department Hazardous Materials Program ....

California EPA Department of Toxic Substances Control ....

Cal-OSHA Division of Occupational Safety and Health ....

Air Quality Management District ....

Regional Water Quality Control Board ....

*** These telephone numbers are provided as a general aid to emergency notification. Be advised that additional agencies may be required to be notified.***

c. **Emergency Resources:**

Poison Control Center .... [redacted]

Nearest Hospital: Name: Brotman Medical Center

Address: 3828 Delmas Ter

3. Arrangements With Emergency Responders:

If you have made special (i.e. contractual) arrangements with any police department, fire department, hospital, contractor, or State or local emergency response team to coordinate emergency services, describe those arrangements below:

Hazmat Cleanup & Remediation companies are contracted by Sprint Nextel Corp. to clean up releases and properly dispose of released hazardous materials or wastes.

4. Emergency Procedures:

Emergency Coordinator Responsibilities:

a. Whenever there is an imminent or actual emergency situation such as a explosion, fire, or release, the emergency coordinator *(or his/her designee when the emergency coordinator is on call)* shall:
   i. Identify the character, exact source, amount, and areal extent of any released hazardous materials.
   ii. Assess possible hazards to human health or the environment that may result from the explosion, fire, or release. This assessment must consider both direct and indirect effects *(e.g. the effects of any toxic, irritating, or asphyxiating gases that are generated, the effects of any hazardous surface water run-off from water or chemical agents used to control fire, etc.)*.
   iii. Activate internal facility alarms or communications systems, where applicable, to notify all facility personnel.
   iv. Notify appropriate local authorities *(i.e. call 911)*.
   v. Notify the State Office of Emergency Services at 1-800-852-7550.
   vi. Monitor for leaks, pressure build-up, gas generation, or ruptures in valves, pipes, or other equipment shut down in response to the incident.
   vii. Take all reasonable measures necessary to ensure that fires, explosions, and releases do not occur, recur, or spread to other hazardous materials at the facility.

b. Before facility operations are resumed in areas of the facility affected by the incident, the emergency coordinator shall:
   i. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from a explosion, fire, or release at the facility.
   ii. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the incident until cleanup procedures are completed.
   iii. Ensure that all emergency equipment is cleaned, fit for its intended use, and available for use.
   iv. Notify the California Environmental Protection Agency's Department of Toxic Substances Control, the local CUPA agency, and the local fire department's hazardous materials program that the facility is in compliance with requirements b-i and b-ii, above.

Responsibilities of Other Personnel:

On a separate page, list any emergency response functions not covered in the "Emergency Coordinator Responsibilities" section, above. Next to each function, list the job title or name of each person responsible for performing the function. Number the page(s) appropriately.

5. Post-Incident Reporting/Recording:

The time, date, and details of any hazardous materials incident that requires implementation of this plan shall be noted in the facility's operating record.

Within 15 days of any hazardous materials emergency incident or threatened hazardous materials emergency incident that triggers implementation of this plan, a written Emergency Incident Report, including, but not limited to a description of the incident and the facility's response to the incident, must be submitted to the California Environmental Protection Agency's Department of Toxic Substances Control, local CUPA agency, and the local fire department's hazardous materials program. The report shall include:

a. Name, address, and telephone number of the facility's owner/operator;
b. Name, address, and telephone number of the facility;
c. Date, time, and type of incident *(e.g. fire, explosion, etc.)*;
d. Name and quantity of material(s) involved;
e. The extent of injuries, if any;
f. An assessment of actual or potential hazards to human health or the environment, where this is applicable;
g. Estimated quantity and disposition of recovered material that resulted from the incident;
h. Cause(es) of the incident;
i. Actions taken in response to the incident;
j. Administrative or engineering controls designed to prevent such incidents in the future.

6. Earthquake Vulnerability: [19 CCR §2731(e)]

Identify any areas of the facility and mechanical or other systems that require immediate inspection or isolation because of their vulnerability to earthquake-related ground motion:

Fuel tank for standby emergency generator if facility is equipped with one.

7. Emergency Equipment:

22 CCR §66265.52(e) [as referenced by 22 CCR §66262.34(a)(4)] and the Hazardous Materials Storage Ordinance require that emergency equipment at the facility be listed. Completion of the following Emergency Equipment Inventory Table meets this requirement.

EMERGENCY EQUIPMENT INVENTORY TABLE

1. Equipment Category	2. Equipment Type	3. Locations *	4. Description**
Personal Protective Equipment, Safety Equipment, and First Aid Equipment	☐ Cartridge Respirators		
	☐ Chemical Monitoring Equipment *(describe)*		
	☐ Chemical Protective Aprons/Coats		
	☐ Chemical Protective Boots		
	☐ Chemical Protective Gloves		
	☐ Chemical Protective Suits *(describe)*		
	☐ Face Shields		
	☒ First Aid Kits/Stations *(describe)*	By entrance	General first aid supplies
	☐ Hard Hats		
	☐ Plumbed Eye Wash Stations		
	☒ Portable Eye Wash Kits *(i.e. bottle type)*	By entrance	18 oz sterile eye wash bottles
	☐ Respirator Cartridges *(describe)*		
	☐ Safety Glasses/Splash Goggles		
	☐ Safety Showers		
	☐ Self-Contained Breathing Apparatuses (SCBA)		
	☐ Other *(describe)*		
Fire Extinguishing Systems	☐ Automatic Fire Sprinkler Systems		
	☐ Fire Alarm Boxes/Stations		
	☐ Fire Extinguisher Systems *(describe)*	By entrance	5 lb ABC fire extinguisher
	☐ Other *(describe)*		
Spill Control Equipment and Decontamination Equipment	☐ Absorbents *(describe)*		
	☐ Berms/Dikes *(describe)*		
	☐ Decontamination Equipment *(describe)*		
	☐ Emergency Tanks *(describe)*		
	☐ Exhaust Hoods		
	☐ Gas Cylinder Leak Repair Kits *(describe)*		
	☐ Neutralizers *(describe)*		
	☐ Overpack Drums		
	☐ Sumps *(describe)*		
	☒ Other *(describe)*	Equip. Rack	Batteries installed on containment trays.
Communications and Alarm Systems	☐ Chemical Alarms *(describe)*		
	☐ Intercoms/ PA Systems		
	☐ Portable Radios		
	☒ Telephones	Site Techs	Nextel personnel carry Nextel wireless phones
	☐ Underground Tank Leak Detection Monitors		
	☐ Other *(describe)*		
Additional Equipment *(Use Additional Pages if Needed.)*	☒ Embedded remote sensing equipment		NNOC monitors on 24/7 basis the site security;
	☐		room moisture level & temperature;
	☐		production of heat, smoke, hydrogen gas;
	☐		and equipment status.
	☐		
	☐		

* *Use the map and grid numbers from the Storage Map prepared earlier for your HMBP.*

** *Describe the equipment and its capabilities. If applicable, specify any testing/maintenance procedures/intervals. Attach additional pages, numbered appropriately, if needed.*

Employee Training Plan

(Hazardous Materials Business Plan Module)

Authority Cited: HSC, Section 25504(c); Title 22, Div. 4.5, Ch. 12, Art. 3 CCR

All facilities that handle hazardous materials must have a written employee training plan. This plan is a required module of the Hazardous Materials Business Plan (HMBP). A blank plan has been provided below for you to complete and submit if you do not already have such a plan. **If you already have a brief written description of your training program that addresses all subjects covered below, you are not required to complete the blank plan, below, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. *[Note: Items marked with an asterisk (*) are required.]*:

1. **Personnel** are trained in the following procedures:

☒	Internal alarm/notification *
☒	Evacuation/re-entry procedures & assembly point locations*
☒	Emergency incident reporting
☒	External emergency response organization notification
☒	Location(s) and contents of Emergency Response/Contingency Plan
☒	Facility evacuation drills, that are conducted at least *(specify)* annually *(e.g. "Quarterly", etc.)*

2. **Chemical Handlers** are additionally trained in the following:

☒	Safe methods for handling and storage of hazardous materials *
☒	Location(s) and proper use of fire and spill control equipment
☒	Spill procedures/emergency procedures
☒	Proper use of personal protective equipment *
☒	Specific hazard(s) of each chemical to which they may be exposed, including routes of exposure *(i.e. inhalation, ingestion, absorption)* *
☒	**Hazardous Waste Handlers/Managers** are trained in all aspects of hazardous waste management specific to their job duties *(e.g. container accumulation time requirements, labeling requirements, storage area inspection requirements, manifesting requirements, etc.)* *

3. **Emergency Response Team Members** are capable of and engaged in the following:

☒	Personnel rescue procedures
☒	Shutdown of operations
☒	Liaison with responding agencies
☒	Use, maintenance, and replacement of emergency response equipment
☒	Refresher training, which is provided at least annually *
☒	Emergency response drills, which are conducted at least *(specify)* *(e.g. "Quarterly", etc.)*
☒	Nextel Site Tech will respond to emergency and coordinate with outside agencies, but Hazmat contractors will clean up releases.

Record Keeping
(Hazardous Materials Business Plan Module)

All facilities that handle hazardous materials must maintain records associated with their management. A summary of your recordkeeping procedures is a required module of the Hazardous Materials Business Plan (HMBP). A blank summary has been provided below for you to complete and submit if you do not already have such a document. **If you already have a brief written description of your hazardous materials recordkeeping systems that addresses all subjects covered below, you are not required to complete this page, but you must include a copy of your existing document as part of your HMBP.**

Check all boxes that apply. The following records are maintained at the facility. *[Note: Items marked with an asterisk (*) are required.]*:

☒	Current employees' training records *(to be retained until closure of the facility)* *
☒	Former employees' training records *(to be retained at least three years after termination of employment)* *
☒	Training Program(s) *(i.e. written description of introductory and continuing training)* *
☒	Current copy of this Emergency Response/Contingency Plan *
☒	Record of recordable/reportable hazardous material/waste releases *
☒	Record of hazardous material/waste storage area inspections *
☒	Record of hazardous waste tank daily inspections *
☐	Description and documentation of facility emergency response drills

Note: The above list of records does not necessarily identify every type of record required to be maintained by the facility.

A copy of the Inspection Check Sheet(s) or Log(s) used in conjunction with required routine self-inspections of your facility must be submitted with your HMBP. *(Exception: Available from your local agency is a Hazardous Materials/Waste Storage Area Inspection Form that you may use if you do not already have your own form. If you use the example provided, you do not need to attach a copy.)*

Check the appropriate box:

☒	We will use the Unidocs "Hazardous Materials/Waste Storage Area Inspection Form" to document inspections.
☐	We will use our own documents to record inspections. ***(A blank copy of each document used must be attached to this HMBP.)***

SECTION II: COMPOSITION / INFORMATION ON INGREDIENTS

HAZARDOUS OSHA COMPONENT	CAS#	OSHA PEL	ACGIH TLV	% BY WEIGHT
* Sulfuric Acid / Battery Electrolyte 1.300 sg 40 wt %	7664-93-9	1mg/m3	1mg/m3 STEL	22
*Lead/Grid	7439-92-1	50 ug/m^3	150 ug/m3	50
*Lead Oxide/Dioxide	1309-60-0	50 ug/m^3	150ug/m^3	21
*Lead Sulfate/ Anglesite	7446-14-2	50ug/m^3	150ug/m^3	<1

Section 313 (40 CFR 372) Listed Toxic Chemicals are Preceded by an*

SECTION III: HAZARDOUS IDENTIFICATION

Appearance and Odor: Acid is a clear to cloudy liquid. Lead is metallic gray in color. Formed lead dioxide is a dark brown in color with a slight acidic odor.

Routes of entry:

Sulfuric Acid: Inhalation, skin, ingestion.

Lead: Inhalation and Ingestion. Ingestion of lead occurs by hand to mouth contamination. After handling lead or its compounds, hands must be washed prior to eating or drinking. Metallic lead cannot be absorbed through the skin.

HMIS label rating for sulfuric acid:
3 0 2 X **X = acid**
Hazardous Material Information System

Health Hazards (Acute & Chronic)

Acute: Sulfuric acid exposure may cause irritation of the skin, corneal damage of the eyes, irritation of the mucous membranes and upper respiratory system, including the lungs. Acute lead exposure may cause GI upset, loss of appetite, diarrhea, constipation, fatigue, joint pain, and difficulty sleeping.

Chronic: Exposure to lead may cause anemia, kidney damage and damage to the central nervous and reproductive systems. Lead exposure may also affect developing fetuses in pregnant women. Chronic exposure to sulfuric acid may cause scarring of skin and mucous membranes, bronchitis, contact dermatitis, and erosion of tooth enamel.

SECTION III (Continued)	
NFPA label rating for sulfuric acid: **2 0 1 X** X = acid National Fire Protection Agency	**Rating Codes:** 0= Insignificant, 1= Slight, 2= Moderate, 3= High, 4= Extreme

HMIS and **NFPA** Hazard labels are used to identify the battery(s) dilute 1.300sg sulfuric acid. The first number represents the **Health** hazard, second number represents Fire hazard, and the third number represents the **Reactivity** hazard. The fourth space identifies the hazardous material, which is acid and/or typical recommended personal protective equipment, i.e., safety glasses, rubber or neoprene gloves etc.

California Proposition 65 Warning *– Battery posts, terminals, and related accessories contain lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive harm. Batteries also contain other chemicals known to the State of California to cause cancer. Wash hands after handling.*

SECTION IV: FIRST AID PROCEDURES – Sulfuric Acid

Skin/Eyes	Ingestion/Inhalation
- Flush the affected area with water for 15 minutes - Remove contaminated clothing - If irritation continues, seek medical attention	- Do not induce vomiting - Drink 8 oz. of water or milk - If difficulty in breathing occurs, remove to fresh air, give CPR if necessary - Seek medical attention immediately

SECTION V: FIREFIGHTING MEASURES

FIRE AND EXPLOSIVE PROPERTIES:

Hydrogen Flash point: -259°C **Hydrogen Autoignition point:** 580°C
Hydrogen Flammable Limits in Air (% by Volume): *LEL*: 4.1 *UEL*: 74.2
Lower Explosion Limit (*LEL*), Upper Explosion Limit (*UEL*)

Unusual Fire and Explosion Hazards: Hydrogen and Oxygen gases are produced in cells during normal battery operation. Ventilate Area.

Extinguishing Media: Dry Chemical, Foam or CO_2

Special Firefighter Procedures: Use Positive Pressure, self-contained breathing apparatus.

SECTION VI: ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IF BATTERY IS BROKEN:
Neutralize exposed battery parts with soda ash or sodium bicarbonate until fizzing stops, pH should be at neutral 6-8. Provide adequate ventilation. Heat, carbon dioxide and hydrogen gas may be given off during neutralization. Collect residue in a suitable container. Place the broken battery in a heavy-duty plastic bag or other non-metallic container. Properly recycle all battery residue and parts.

SECTION VII: HANDLING AND STORAGE

Store in a cool; dry area away from combustibles. Do not store in sealed, unventilated areas. Avoid overheating and overcharging. Do not use organic solvents or other than manufactures recommended cleaners on the batteries.

SECTION VIII: EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: General room ventilation is sufficient during normal use and handling. Do not install these batteries in a sealed, unventilated area.

PERSONAL PROTECTIVE EQUIPMENT (DURING INSTALLATION OR IN THE EVENT OF BATTERY BREAKAGE)
Eye Protection = Chemical goggles, safety glasses with sideshields and or a full-face shield.

Protective gloves = Rubber or neoprene

Respiratory Protection = NIOSH approved acid mist/organic vapor respirator, if OSHA PEL is exceeded.

Other Protective Equipment = Acid resistant apron or clothes.

WORK PRACTICES; Use standard lead-acid battery practices. Do not wear metallic jewelry when working with batteries. Use non-conductive tools only. Discharge static electricity prior to working on a battery. Maintain eyewash, fire extinguisher and emergency communication device in the work area.

SECTION IX: PHYSICAL AND CHEMICAL PROPERTIES

ACID : Boiling Point: 110°C to 112°C — Vapor Pressure: 13.8 mm Hg @ 25°C
Vapor Density: (Air=1) 3.4 — Melting point: N/A
Solubility in water: N/A
Specific Gravity 1.300 +/- 0.030
Appearance/Odor: clear to cloudy with slightly acidic odor

SECTION X: STABILITY AND REACTIVITY

STABILITY: This battery and contents are stable.

Conditions to avoid: Overheating, overcharging which results in acid mist/Hydrogen generation.

Incompatibility (materials to avoid): Strong alkaline materials, conductive metals, organic solvents, sparks or open flame.

Hazardous Byproducts: Hydrogen gas may be generated in an overcharged condition, in fire or at very high temperatures. In fire, may emit CO, CO_2 and Sulfur Oxides.

Hazardous polymerization will not occur

SECTION XI: TOXICOLOGICAL INFORMATION – SULFURIC ACID

The Dynasty VRLA batteries are a sealed, recombinant design that require no water replacement throughout their service life, thus no contact is made with the battery's internal components or chemical hazards. Under normal use and handling, these batteries do not emit regulated or hazardous substances.

	Administration Route	Dose	Test Animal
LD 50	Oral	2140 mg/kg	Rat
LDLo	Unreported	135 mg/kg	Man
LC50	Inhalation	510mg/m3	Rat

Carcinogenicity: The International Agency on Cancer (IARCC) has classified "strong inorganic acid mists containing sulfuric acid" as a category 1 carcinogen (inhalation), a substance that is carcinogenic to humans. This classification does not apply to the liquid forms of sulfuric acid contained within the battery. Misuse of the product, such as overcharging, may result in the generation of sulfuric acid mist at high levels.

SECTION XII: ECOLOGICAL INFORMATION

Lead and its compounds can pose a threat if released into the environment.

SECTION XIII: DISPOSAL CONSIDERATIONS

Waste Disposal Method: Send to lead smelter for reclamation following applicable Federal, State and Local regulations. Product can be recycled along with automotive (SLI) lead-acid batteries.

SECTION XIV: TRANSPORTATION AND INTERNATIONAL REGULATIONS

All Dynasty AGM batteries, when transported by air, surface or by vessel are identified as **"Battery, Electric Storage, Wet, Nonspillable, Not Regulated"**.
The battery(s) must be identified as above on the Bill of Lading and properly packaged with their terminals protected from short circuit. NA or UN numbers do not apply.
Dynasty AGM battery(s) warning label identifies each battery as NONSPILLABLE.
Dynasty AGM battery(s) preprinted cartons identifies each battery as NONSPILLABLE.
Dynasty AGM battery(s) shipped without Dynasty cartons (bulk packed) need to be identified as NONSPILLABLE or NONSPILLABLE BATTERY on the outer packaging.

Air: Dynasty AGM batteries meet the conditions in IATA/ICAO Special Provision A67.
Surface: Dynasty AGM batteries meet the conditions for DOT Haz Mat Regulations CFR-Tittle 49 parts 171-189.
Vessel: Dynasty Batteries meet the conditions of IMDG exception 238.

SECTION XV: REGULATORY INFORMATION

To: West Region Haz Mat
Subject: Cell site located at 100 Corporate Pointe

Hello Mark,

I came across a letter dated August 22, 2005 from you indicating that you had constructed a new cellular facility at 100 Corporate Pointe, CA-7848/Ladera Heights, in Culver City and that you were forwarding a copy of the original Business Plan and a copy of each MSDS sheet. The letter then goes on to say that you won't be submitting a business plan because none of the "reportable hazardous materials exceed your thresholds ...". I am confused to say the least. Can you please clarify for me?

I also do not have any records that outline the type of batteries that you are using, how many batteries, the amount of acid and lead in each battery. Please forward such information to me along with a plot plan as to where they are located.

If you have any questions, feel free to call or write.

P.S. My apologies if we have already had this conversation. I have been completely inundated with cell site installations.

C&D TECHNOLOGIES, INC.
MATERIAL SAFETY DATA SHEET – L84

SECTION I: CHEMICAL PRODUCT AND COMPANY INDENTIFICATION

PRODUCT IDENTITY: "Battery, Electric Storage, Wet, Nonspillable, Not Regulated". NONSPILLABLE Absorbed Electrolyte Battery – Electrical Storage Valve Regulated Lead-Acid (VRLA) Battery – Absorbed Glass Mat (AGM)

Date issued: Sept. 28, 1986
Date revised: March 2006

Manufacturer Name: C&D Technologies, Inc.
Address: Dynasty Division
900 East Keefe Avenue
Milwaukee, WI 53212
Web site: www.cdstandbypower.com

Telephone numbers:
Day time: [redacted]
Toll Free: [redacted]

North America 24 Hour Emergency Telephone [redacted]
International 24 Hour Emergency Telephone: [redacted]

SECTION II: COMPOSITION / INFORMATION ON INGREDIENTS

HAZARDOUS OSHA COMPONENT	CAS#	OSHA PEL	ACGIH TLV	% BY WEIGHT
* Sulfuric Acid / Battery Electrolyte 1.300 sg 40 wt %	7664-93-9	1mg/m3	1mg/m3 STEL	22
*Lead/Grid	7439-92-1	50 ug/m^3	150 ug/m3	50
*Lead Oxide/Dioxide	1309-60-0	50 ug/m^3	150ug/m^3	21
*Lead Sulfate/ Anglesite	7446-14-2	50ug/m^3	150ug/m^3	<1

Section 313 (40 CFR 372) Listed Toxic Chemicals are Preceded by an*

SECTION III: HAZARDOUS IDENTIFICATION

Appearance and Odor: Acid is a clear to cloudy liquid. Lead is metallic gray in color. Formed lead dioxide is a dark brown in color with a slight acidic odor.
Routes of entry:
Sulfuric Acid: Inhalation, skin, ingestion.
Lead: Inhalation and Ingestion. Ingestion of lead occurs by hand to mouth contamination. After handling lead or its compounds, hands must be washed prior to eating or drinking. Metallic lead cannot be absorbed through the skin.

HMIS label rating for sulfuric acid:
3 0 2 X **X = acid**
Hazardous Material Information System

Health Hazards (Acute & Chronic)
Acute: Sulfuric acid exposure may cause irritation of the skin, corneal damage of the eyes, irritation of the mucous membranes and upper respiratory system, including the lungs. Acute lead exposure may cause GI upset, loss of appetite, diarrhea, constipation, fatigue, joint pain, and difficulty sleeping.
Chronic: Exposure to lead may cause anemia, kidney damage and damage to the central nervous and reproductive systems. Lead exposure may also affect developing fetuses in pregnant women. Chronic exposure to sulfuric acid may cause scarring of skin and mucous membranes, bronchitis, contact dermatitis, and erosion of tooth enamel.

SECTION III (Continued)	
NFPA label rating for sulfuric acid: **2 0 1 X X = acid** National Fire Protection Agency	**Rating Codes:** 0= Insignificant, 1= Slight, 2= Moderate, 3= High, 4= Extreme

HMIS and **NFPA** Hazard labels are used to identify the battery(s) dilute 1.300sg sulfuric acid. The first number represents the **Health** hazard, second number represents **Fire** hazard, and the third number represents the **Reactivity** hazard. The fourth space identifies the hazardous material, which is acid and/or typical recommended personal protective equipment, i.e., safety glasses, rubber or neoprene gloves etc.

California Proposition 65 Warning *– Battery posts, terminals, and related accessories contain lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive harm. Batteries also contain other chemicals known to the State of California to cause cancer. Wash hands after handling.*

SECTION IV: FIRST AID PROCEDURES – Sulfuric Acid

Skin/Eyes	Ingestion/Inhalation
- Flush the affected area with water for 15 minutes - Remove contaminated clothing - If irritation continues, seek medical attention	- Do not induce vomiting - Drink 8 oz. of water or milk - If difficulty in breathing occurs, remove to fresh air, give CPR if necessary - Seek medical attention immediately

SECTION V: FIREFIGHTING MEASURES

FIRE AND EXPLOSIVE PROPERTIES:

Hydrogen Flash point: -259°C **Hydrogen Autoignition point:** 580°C
Hydrogen Flammable Limits in Air (% by Volume): *LEL*: 4.1 *UEL*: 74.2
Lower Explosion Limit (*LEL*), Upper Explosion Limit (*UEL*)

Unusual Fire and Explosion Hazards: Hydrogen and Oxygen gases are produced in cells during normal battery operation. Ventilate Area.

Extinguishing Media: Dry Chemical, Foam or CO_2

Special Firefighter Procedures: Use Positive Pressure, self-contained breathing apparatus.

SECTION VI: ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IF BATTERY IS BROKEN:
Neutralize exposed battery parts with soda ash or sodium bicarbonate until fizzing stops, pH should be at neutral 6-8. Provide adequate ventilation. Heat, carbon dioxide and hydrogen gas may be given off during neutralization. Collect residue in a suitable container. Place the broken battery in a heavy-duty plastic bag or other non-metallic container. Properly recycle all battery residue and parts.

SECTION VII: HANDLING AND STORAGE

Store in a cool; dry area away from combustibles. Do not store in sealed, unventilated areas. Avoid overheating and overcharging. Do not use organic solvents or other than manufactures recommended cleaners on the batteries.

SECTION VIII: EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: General room ventilation is sufficient during normal use and handling. Do not install these batteries in a sealed, unventilated area.

PERSONAL PROTECTIVE EQUIPMENT (DURING INSTALLATION OR IN THE EVENT OF BATTERY BREAKAGE)

Eye Protection = Chemical goggles, safety glasses with sideshields and or a full-face shield.

Protective gloves = Rubber or neoprene

Respiratory Protection = NIOSH approved acid mist/organic vapor respirator, if OSHA PEL is exceeded.

Other Protective Equipment = Acid resistant apron or clothes.

WORK PRACTICES: Use standard lead-acid battery practices. Do not wear metallic jewelry when working with batteries. Use non-conductive tools only. Discharge static electricity prior to working on a battery. Maintain eyewash, fire extinguisher and emergency communication device in the work area.

SECTION IX: PHYSICAL AND CHEMICAL PROPERTIES

ACID : Boiling Point: 110°C to 112°C
Vapor Density: (Air=1) 3.4
Solubility in water: N/A
Specific Gravity 1.300 +/- 0.030
Appearance/Odor: clear to cloudy with slightly acidic odor

Vapor Pressure: 13.8 mm Hg @ 25°C
Melting point: N/A

SECTION X: STABILITY AND REACTIVITY

STABILITY: This battery and contents are stable.

Conditions to avoid: Overheating, overcharging which results in acid mist/Hydrogen generation.

Incompatibility (materials to avoid): Strong alkaline materials, conductive metals, organic solvents, sparks or open flame.

Hazardous Byproducts: Hydrogen gas may be generated in an overcharged condition, in fire or at very high temperatures. In fire, may emit CO, CO_2 and Sulfur Oxides.

Hazardous polymerization will not occur

SECTION XI: TOXICOLOGICAL INFORMATION – SULFURIC ACID			
The Dynasty VRLA batteries are a sealed, recombinant design that require no water replacement throughout their service life, thus no contact is made with the battery's internal components or chemical hazards. Under normal use and handling, these batteries do not emit regulated or hazardous substances.			
	Administration Route	**Dose**	**Test Animal**
LD 50	Oral	2140 mg/kg	Rat
LDLo	Unreported	135 mg/kg	Man
LC50	Inhalation	510mg/m3	Rat

Carcinogenicity: The International Agency on Cancer (IARCC) has classified "strong inorganic acid mists containing sulfuric acid" as a category 1 carcinogen (inhalation), a substance that is carcinogenic to humans. This classification does not apply to the liquid forms of sulfuric acid contained within the battery. Misuse of the product, such as overcharging, may result in the generation of sulfuric acid mist at high levels.

SECTION XII: ECOLOGICAL INFORMATION

Lead and its compounds can pose a threat if released into the environment.

SECTION XIII: DISPOSAL CONSIDERATIONS

Waste Disposal Method: Send to lead smelter for reclamation following applicable Federal, State and Local regulations. Product can be recycled along with automotive (SLI) lead-acid batteries.

SECTION XIV: TRANSPORTATION AND INTERNATIONAL REGULATIONS

All Dynasty AGM batteries, when transported by air, surface or by vessel are identified as **"Battery, Electric Storage, Wet, Nonspillable, Not Regulated"**.
The battery(s) must be identified as above on the Bill of Lading and properly packaged with their terminals protected from short circuit. NA or UN numbers do not apply.
Dynasty AGM battery(s) warning label identifies each battery as NONSPILLABLE.
Dynasty AGM battery(s) preprinted cartons identifies each battery as NONSPILLABLE.
Dynasty AGM battery(s) shipped without Dynasty cartons (bulk packed) need to be Identified as NONSPILLABLE or NONSPILLABLE BATTERY on the outer packaging.

Air: Dynasty AGM batteries meet the conditions in IATA/ICAO Special Provision A67.
Surface: Dynasty AGM batteries meet the conditions for DOT Haz Mat Regulations CFR-Tittle 49 parts 171-189.
Vessel: Dynasty Batteries meet the conditions of IMDG exception 238.

SECTION XV: REGULATORY INFORMATION

See 29 CFR 1910.268(b)(2)

SECTION XVI: OTHER INFORMATION

The information herein is given is good faith, but no warranty, expressed or implied, is made.

Dear Requester,

This letter shall serve as the City of Culver City's (City) response to your request under the California Public Records Act. The City has determined it possesses certain identifiable records that fall within the scope of your request.

Please see the provided disclosable responsive records; excluding those records, or information contained therein, that are exempt due to the:

- State or Federal law express exemption, which includes the attorney-client privilege, official information privilege, certain police personnel records (Gov. Code Section 7927.705);
- Privacy information exemption (Gov. Code Sections 7927.700 and/or 7922.000);
- Public interest exemption; including but not limited to the deliberative process privilege (Gov. Code Section 7922.000);

The person(s) responsible for making this determination are Monica Kilaita, Deputy City Attorney and the undersigned.

Regards,

T'Ana Allen, Deputy City Clerk

RE: PRA of January 29, 2025, Reference # H069051-012925.

Dear Reily Rivera,

The Los Angeles County Fire Department, Health Hazardous Materials Division, being the custodian or keeper of records, certify that a thorough search for the records you requested has been carried out.

Re: 100 CORPORATE POINTE
CULVER CITY CA 90230

The search revealed that no records were found for the above noted address.

It should be understood that this does not mean that the records you requested do not exist. It is possible that such records may be misfiled; exist under another spelling, another name, or may have been destroyed based on this Department's Record Retention Policy. However, with the information furnished to our office, and to the best of our knowledge, no records were located.

For businesses in Burbank, CulverCity, Downey, City of LA, La Habra, Monrovia, Pasadena, Santa Monica, Torrance& Underground Storage Tanks in Los Angeles County jurisdiction click here.

If you have any questions regarding your request, please contact our office at (310) 348-1781

Dear Reily Rivera:

Thank you for your interest in public records of the Los Angeles County Fire Department. Your request was received in this office on 1/29/2025 and given the reference number H069051-012925 for tracking purposes.

Your request will be forwarded to the relevant department(s) to locate the information you seek and to determine the volume and any costs associated with satisfying your request. You will be contacted about the availability and/or provided with copies of the records in question.

You can monitor the progress of your request at the My Request Center and you'll receive an email when your request has been completed.

RE: PRA of January 29, 2025, Reference # W078732-012925.

Dear Reily Rivera,

The Los Angeles County Fire Department, Health Hazardous Materials Division, being the custodian or keeper of records, certify that a thorough search for the records you requested has been carried out.

Re: 100 CORPORATE POINTE

CULVER CITY CA 90230

The search revealed that your noted address did not match our database.

It should be understood that this does not mean that the records you requested do not exist. It is possible that such records may be misfiled; exist under another spelling, another name, or may have been destroyed based on this Department's Record Retention Policy. However, with the information furnished to our office, and to the best of our knowledge, no records were located.

Memorandum

To	Jonas Bronk, Managing Director Alliance Residential Company 2462 Dupont Drive Irvine, CA 92612
Project:	100 Corporate Pointe Walk, Culver City, CA
ARG Project No.:	240820
Date:	October 14, 2024 (revised)
Via:	E-mail: jbronk@allresco.com

Architectural Resources Group (ARG) has prepared this memorandum to provide our professional opinion regarding the potential eligibility of the property located at 100 Corporate Pointe Walk, Culver City, CA, against federal (National Register of Historic Places), state (California Register of Historical Resources), and local (Culver City Cultural Resource) eligibility criteria. The property is developed with a commercial office building and parking lot constructed in 1984.

The subject property has not been formally designated under any federal, state, or local registration program, and it is not listed in the California Built Environment Resource Directory (BERD). Furthermore, the building was not identified through Culver City's 1987-88 Historic Structures Field Survey, or any other historical resources survey.

Upon additional, limited property-specific research and a site inspection of the property on September 25, 2024, ARG has preliminarily determined that the building at 100 Corporate Pointe Walk does not appear to be eligible for listing in the National Register, California Register, or as a Culver City Cultural Resource. Following is a discussion regarding how this finding was made.

Physical Description

Setting

The subject property is located at 100 Corporate Pointe Walk in the Fox Hills area of Culver City, CA, approximately one mile east of the intersection of State Route 90 (Marina Freeway) and Interstate 405 (San Diego Freeway). The site sits at the corner of the intersection of Slauson Avenue (on the north) and Buckingham Parkway (on the east and south). It is surrounded by other medium- to high-rise office buildings within the Corporate Pointe office park. Other development in the vicinity includes the Fox Gate condominiums to the east, Fox Hills Business Park to the south, and Buckingham Heights Business Park to the north. The broader Fox Hills neighborhood includes a shopping center, multi-family condominium properties, and the Hillside Memorial Park and Mortuary. The topography of the area is composed of gentle inclines and small hills.

The subject property consists of two parcels developed with a three-story office building, surface parking, and a parking structure. The main surface parking lot is accessible from a semi-circular driveway off of Slauson Avenue to the north; the two-story parking garage can be entered from a ramp at the south end of the main surface lot or via a smaller surface parking lot from a driveway off Buckingham Parkway to the south. The rest of the site is improved with hardscape and softscape areas throughout the exterior of the property. The building's primary entrance, which faces southwest, away from the Slauson and Buckingham intersection, features paved concrete and brick pathways lined with grass beds, rose bushes, and ficus trees; light bollards; and metal benches. The main entrance is accessed from the surface parking lot to the south via a wide set of concrete steps bound by brick paving. These steps are flanked by metal handrails, including a central rail for added support. Integrated into the entrance approach are square and triangular raised planters crafted from concrete and brick, and containing jacaranda trees, small palm trees, rose bushes, and a variety of other shrubs. A flagpole stands to the left of the raised planters. An open lawn surrounds the north, east, and south sides of the office building, complemented by a variety of mature tree species lining the street. To the northeast of the building, at the intersection of Slauson and Buckingham, is a large monument sign reading "Culver Pointe" prominently situated atop the lawn area. As one moves south along Buckingham Parkway, this grassy expanse transitions into a larger sloping lawn that borders the approach to the south parking garage entrance.

Building Exterior

Completed in 1984, the office building is characterized by its modified H-shaped plan comprising three volumes. Two rectangular volumes are offset and connected at opposite ends by a central square volume, with both rectangular volumes running parallel to the central element. The central volume is notably set back from the sidewalk – shallowly on the west and moderately on the east. Rising three stories, the central volume is marked by a recessed entryway, while the east and west volumes, also three stories tall, maintain a congruent form and layout. Access to the east volume is primarily through the central volume, whereas the west volume is accessible from both the central volume and from an exterior entrance for California Bank & Trust, located on the volume's west façade.

The building is constructed of wood framing and is finished with brick veneer laid in a stretcher bond pattern regularly divided by soldier courses (brick painted black in 2022). The building is crowned by a flat roof with a flat parapet. Its fenestration includes aluminum ribbon windows with butted, tinted glass and single, fixed aluminum windows, also with tinted glass. The bank entrance and secondary doors located on either side of the main entrance are equipped with fully glazed, aluminum-framed doors with tinted glass.

The building's double-height main entrance is recessed and features an automatic door alongside a traditional pull door, both finished in brushed aluminum. Above the entrance are fixed tinted aluminum windows. Two smaller recessed entryways flank the main entrance and feature fully glazed aluminum doors. Originally designed to accommodate either single or multiple firms, as per the *Los Angeles Times*, the office building is currently home to California Bank & Trust, a dental office, and various other businesses.[1]

[1] ARG did not access the building interior during our site visit, and thus a description of the interior was not included in this memorandum.

Aerial view of the subject property, delineated by a dashed red line. The rest of the Corporate Pointe office park is located to the east of the property, along Slauson Avenue (Google Maps, adapted by ARG, 2024).

Chronology of Development and Use

1982 The Culver City Redevelopment Agency, Edward C. Ellis Associates, and Bramalea Limited collaborated to develop the 34-acre Corporate Pointe office park on a site previously slated for the Marina Freeway extension. The Corporate Pointe master plan was designed by Herbert Nadel AIA & Partners.[2]

1983 Construction of the subject property (100 Corporate Pointe Walk), known as Corporate Plaza, began. The three-story, 112,000-square-foot office building was designed by Herbert Nadel AIA & Partners and featured a modified H-shaped plan, and "a brick and gray glass exterior, with angled corners and uninterrupted bands of windows."[3]

California Bank & Trust installed an additional company sign on the west façade of the building, facing Corporate Pointe.[17]

2009-15 Permits pulled for various interior tenant improvements, including the demolition of walls and addition of new interior walls and doors, ceiling work, office remodeling, 2nd floor suite renovations, and existing wireless facility modifications.

2016 Permit pulled for "tenant improvement in lobby area (1393 s.f.) – casework and wall finishes, no additional s.f., no changes to structure or occupancy." Owner listed as Bantry Holdings, LLC. Contractor listed as Robert W. Stanhope Company.[18]

2019 "Culver Pointe" pylon sign replaced the former "Corporate Pointe" pylon sign at the intersection of Slauson Avenue and Buckingham Parkway.[19]

2022 The building's exterior brick veneer cladding was painted black.[20]

Historical Background Summary

The subject property is located within Corporate Pointe, a master-planned commercial office development built by Edward C. Ellis Associates and Bramalea Limited, in collaboration with the Culver City Redevelopment Agency, in the 1980s. The $300-million business community comprised 34 acres between Slauson Avenue, Hannum Avenue, Buckingham Parkway, and the Marina Freeway. The development was planned to be built in five phases and was to include ten "low-rise garden offices and office towers up to 12 stories in height."[21] Herbert Nadel AIA & Partners was responsible for the design of the overall master plan.[22] The first building within the Corporate Pointe office park was completed in July 1984 and comprised a two-story $3.6-million office at the corner of Fox Hills Drive and Hannum Avenue, at the west end of the development. Known as Corporate Pointe West, the building was developed by McGranahan Carlson & Co.[23] Several additional buildings, including the subject property (100 Corporate Pointe Walk) were

completed by late 1984. Due to the recession in the early 1990s, development of the final Corporate Pointe parcel, consisting of 11 acres at the northwest corner of Hannum Avenue and Bristol Parkway, was not completed until the early 2000s.

Known as Corporate Plaza, the subject property was designed by Nadel & Partners and was under construction by late 1983. The three-story, 112,000-square-foot office building featured "a brick and gray glass exterior, with angled corners and uninterrupted bands of windows."[24] It was designed with a modified H-shaped plan, which was intended to offer a more flexible floor plan than the "usual rectangular office configuration" so as to accommodate multiple tenants/users on each floor.[25] Since its completion, the building has been occupied by a number of tenants, including Corporate Pointe Dental,[26] paging and wireless messaging provider PageNet,[27] New Horizons Computer Learning Center for Los Angeles,[28] The Leukemia & Lymphoma Society,[29] Alliance Bank,[30] and California Housing Finance Agency.[31] It is currently occupied by California Bank & Trust, a dental office, and various other businesses.

Evaluation of Significance

Upon preliminary investigation, ARG finds that the subject property at 100 Corporate Pointe Walk is not eligible for listing in the National Register of Historic Places or California Register of Historical Resources, or under Culver City's Historic Preservation Program (Chapter 15.05 of the City's Municipal Code). Following is an explanation of how this finding was made.

Completed in 1984, the subject building is 40 years old at the writing of this memorandum, which is generally too young to be considered a historical resource under federal, state, and local registration programs.

Per National Register Criteria Consideration G, in general, a resource must be at least 50 years of age or be of exceptional importance in order to be eligible for listing in the National Register.[32] Similarly, per Section 15.05.020 of Culver City's Municipal Code, in order to be considered for local historic designation, a structure must be at least 50 years old or have special importance to the City.[33] Unlike the National Register's and Culver City's 50-year age requirement, there is no prescribed age limit for listing in the California Register. However, guidelines state that sufficient time must have passed to obtain a scholarly perspective on the events or individuals associated with a resource.[34]

Constructed in 1984, the subject building was designed by Los Angeles-based architecture firm, Herbert Nadel AIA & Partners. While Nadel & Partners appears to be a notable and prolific firm during the late 20th and early 21st centuries, having designed hundreds of office buildings, retail centers, and apartment buildings in Southern California and abroad since its founding in 1973, given the building's modest design and appearance, it cannot be said that it is reflective of the firm's work as a master in the field. Furthermore, as the firm's founder, Herbert Nadel, is still practicing, sufficient time has not passed to gain a scholarly perspective on his contributions to the field of architecture and design.[35] Thus, the subject property does not meet eligibility criteria for its architectural merit. 100 Corporate Pointe Walk is among dozens of office buildings constructed in Culver City during the early to mid-1980s, including the extensive Fox Hills Business Park, comprising several 1970s/80s corporate office buildings, directly south of the subject property. It is thus not singularly significant for representing this period of the city's development. Since its completion, the building has been occupied by employees working for various tenants including a dental company, pager company, multiple banks, a housing finance agency, learning center, and cancer society. The building does not appear to have any historical associations with significant events or individuals that would render it of exceptional or special importance in Culver City, the greater Southern California region, or the nation. For these reasons, the subject property does not appear individually eligible for listing in the National Register, California Register, or as a Culver City Landmark or Significant Structure.

---

[32] National Park Service, National Register Bulletin 15: *How to Apply the National Register Criteria For Evaluation* (Washington D.C.: U.S. Department of Interior, 1990), 41-43.
[33] Culver City Municipal Code, § 15.05.020 Cultural Resource Criteria.
[34] California Office of Historic Preservation, *Technical Assistance Series #6: California Register and National Register: A Comparison* (Sacramento, CA: California Department of Parks and Recreation, 2001), 3.
[35] "Nadel Architects Forms New Ownership Team," *Engineering News-Record*, September 10, 2010, accessed October 2024, https://www.enr.com/articles/19278-nadel-architects-forms-new-ownership-team.

In addition, the building does not appear to be eligible as a contributor to a potential historic district. As previously described, the building was part of the 34-acre Corporate Pointe office park, a master-planned development primarily constructed in the mid-1980s. While Corporate Pointe represents a development of architecturally cohesive office buildings, the complex is less than 50 years old. Research did not indicate that the office park has made contributions to the development of Culver City or the larger region that would be considered of exceptional or special importance to the city, state, or nation. Taking into account the high eligibility thresholds associated with resources of the recent past, Corporate Pointe does not appear to be eligible for listing in the National Register, California Register, or as a Culver City Historic District.

Conclusion

In conclusion, based on preliminary research and analysis, it is ARG's professional opinion that the property at 100 Corporate Pointe Walk does not appear to meet individual eligibility requirements for listing in the National Register, the California Register, or as a Culver City Landmark or Significant Structure. Furthermore, it does not appear eligible as a contributor to a potential historic district.

9770 Culver Boulevard
Culver City, CA 90232

Subject: Archaeological Resources Assessment for the 100 Corporate Pointe Project; City of Culver City, Los Angeles County, California.

Dear Mr. Chacko:

This letter report presents the methods, results, and recommendations of an archaeological resources assessment conducted by Environmental Science Associates (ESA) for the 100 Pointe Project (Project). The Project meets the requirements of Class 32 "Infill" Categorical Exemption [under the California Environmental Quality Act's (CEQA) Guidelines Section 15332]. The City of Culver City (City) is the lead agency responsible for compliance with CEQA. This assessment has been prepared in compliance with CEQA and includes a cultural resources records search through the California Historical Resources Information System-South Central Coastal Information Center (CHRIS-SCCIC), a Sacred Lands File (SLF) search through the Native American Heritage Commission (NAHC), land use history research, a pedestrian survey and an archaeological sensitivity assessment.

This report was prepared by ESA Cultural Resources Specialist/Archaeologist Fatima Clark, B.A. Vincent Gentile, B.A., conducted the pedestrian survey. ESA Principal Archaeologist, Kyle Garcia, M.A., RPA, provided senior review of this report. Mr. Garcia is a Registered Professional Archaeologist and meets the Secretary of the Interior's Professional Qualification Standards for archaeology and history. ESA GIS Analyst Chance Scott created the figures contained in this report. Resumes of key personnel are provided in **Appendix A** of this report.

Project Location

The approximately 4.49-acre (195,796 square foot) Project Site is located at 100-101 Corporate Point in the Fox Hills Neighborhood in the southern portion of the City (**Figure 1**). The Project Site consists of Assessor Parcel Numbers [APN] 4134-020-023 and 4134-020-020. The Project Site is bounded by Slauson Avenue to the north, residential buildings to the east and south across Buckingham Parkway, and business buildings to the west (**Figure 2**). The Project Site is located within Section 19 of Township 2 South, Range 14 West of the Venice, CA U.S. Geological Survey (USGS) 7.5-minute topographic quadrangle (**Figure 3**).

ESA

Project Description

The Project Site is currently developed with an existing office building, related surface parking, and a 3-level above ground parking garage. The Project would demolish the existing uses and would develop a new, five- to seven-story mixed use building that would include commercial uses and a five-story parking structure. The Project would conduct mass excavations to a maximum depth of 20 feet below grade and drilling for piles to a maximum depth of 30 feet.

Regulatory Framework

Cultural resources fall within the jurisdiction of several levels of government. The framework for the identification and, in certain instances, protection of cultural resources is established at the federal level, while the identification, documentation, and protection of such resources are often undertaken by state and local governments. As described below, the principal State and local laws governing and influencing the preservation of cultural resources of national, State, regional, and local significance include the following:

1. The California Environmental Quality Act
2. The California Register of Historical Resources
3. The California Health and Safety Code
4. The California Public Resources Code
5. City of Culver City General Plan

State

California Environmental Quality Act

CEQA is the principal statute governing environmental review of projects occurring in the state and is codified in Public Resources Code (PRC) Section 21000 et seq. CEQA requires lead agencies to determine if a proposed project would have a significant effect on the environment, including significant effects on historical or unique archaeological resources. Under CEQA Section 21084.1, a project that may cause a substantial adverse change in the significance of a historical resource is a project that may have a significant effect on the environment.

CEQA Guidelines Section 15064.5 recognizes that historical resources include: (1) resources listed in, or determined to be eligible by the State Historical Resources Commission, for listing in the California Register of Historical Resources; (2) resources included in a local register of historical resources, as defined in PRC Section 5020.1(k), or identified as significant in a historical resource survey meeting the requirements of PRC Section 5024.1(g); and (3) any objects, buildings, structures, sites, areas, places, records, or manuscripts which a lead agency determines to be historically significant or significant in the architectural, engineering, scientific, economic, agricultural, educational, social, political, military, or cultural annals of California, provided the lead agency's determination is supported by substantial evidence in light of the whole record.

If a lead agency determines that an archaeological site is a historical resource, the provisions of PRC Section 21084.1 and CEQA Guidelines Section 15064.5 apply. If an archaeological site does not meet the criteria for a historical resource contained in the CEQA Guidelines, then the site may be treated in accordance with the provisions of PRC Section 21083 if it meets the criteria of a unique archaeological resource. As defined in PRC Section 21083.2, a unique archaeological resource is an archaeological artifact, object, or site, about which it can be clearly demonstrated that without merely adding to the current body of knowledge, there is a high probability that it meets any of the following criteria:

- Contains information needed to answer important scientific research questions and there is a demonstrable public interest in that information;
- Has a special and particular quality such as being the oldest of its type or the best available example of its type; or
- Is directly associated with a scientifically recognized important prehistoric or historic event or person.

If an archaeological site meets the criteria for a unique archaeological resource as defined in PRC Section 21083.2, then the site is to be treated in accordance with the provisions of PRC Section 21083.2, which state that if the lead agency determines that a project would have a significant effect on unique archaeological resources, the lead agency may require reasonable efforts be made to permit any or all of these resources to be preserved in place.[1] If preservation in place is not feasible, mitigation measures shall be required. The CEQA Guidelines note that if an archaeological resource is neither a unique archaeological nor a historical resource, the effects of the project on those resources shall not be considered a significant effect on the environment.[2]

A significant effect under CEQA would occur if a project results in a substantial adverse change in the significance of a historical resource as defined in CEQA Guidelines Section 15064.5(a). Substantial adverse change is defined as “physical demolition, destruction, relocation, or alteration of the resource or its immediate surroundings such that the significance of a historical resource would be materially impaired.”[3] According to CEQA Guidelines Section 15064.5(b)(2), the significance of a historical resource is materially impaired when a project demolishes or materially alters in an adverse manner those physical characteristics that:

A. Convey its historical significance and that justify its inclusion in, or eligibility for, inclusion in the California Register; or

B. Account for its inclusion in a local register of historical resources pursuant to PRC Section 5020.1(k) or its identification in a historical resources survey meeting the requirements of PRC Section 5024.1(g) Code, unless the public agency reviewing the effects of the project establishes by a preponderance of evidence that the resource is not historically or culturally significant; or

---

1 California Public Resources Code Section 21083.1(a), http://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=PRC&sectionNum=21083.2. Accessed February 9, 2021.

2 State CEQA Statute and Guidelines, Section 15064.5(c)(4).

3 State CEQA Guidelines, Section 15064.5(b)(1).

C. Convey its historical significance and that justify its eligibility for inclusion in the California Register as determined by a Lead Agency for purposes of CEQA.

In general, a project that complies with the Secretary of the Interior's *Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings* is considered to have impacts that are less than significant.[4]

California Register of Historical Resources

The California Register of Historical Resources (California Register) is "an authoritative listing and guide to be used by State and local agencies, private groups, and citizens in identifying the existing historical resources of the State and to indicate which resources deserve to be protected, to the extent prudent and feasible, from substantial adverse change."[5] The California Register was enacted in 1992, and its regulations became official on January 1, 1998. The California Register is administered by the California Office of Historic Preservation (OHP). The criteria for eligibility for the California Register are based upon National Register of Historic Places (National Register) criteria.[6] Certain resources are determined to be automatically included in the California Register, including California properties formally determined eligible for, or listed in, the National Register. To be eligible for the California Register, a prehistoric or historic-period property must be significant at the local, State, and/or federal level under one or more of the following four criteria:

1. Is associated with events that have made a significant contribution to the broad patterns of California's history and cultural heritage;

2. Is associated with the lives of persons important in our past;

3. Embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values; or

4. Has yielded, or may be likely to yield, information important in prehistory or history.

A resource eligible for the California Register must meet one of the criteria of significance described above, and retain enough of its historic character or appearance (integrity) to be recognizable as a historical resource and to convey the reason for its significance. It is possible that a historic resource may not retain sufficient integrity to meet the criteria for listing in the National Register, but it may still be eligible for listing in the California Register.

---

4 State CEQA Guidelines, 15064.5(b)(3).

5 California Public Resources Code, Section 5024.1[a]. http://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=PRC&sectionNum=5024.1. Accessed February 9, 2021.

6 California Public Resources Code, Section 5024.1[b] http://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=PRC&sectionNum=5024.1. Accessed February 9, 2021.

Additionally, the California Register consists of resources that are listed automatically and those that must be nominated through an application and public hearing process. The California Register automatically includes the following:

- California properties listed on the National Register and those formally determined eligible for the National Register;
- California Registered Historical Landmarks from No. 770 onward; and,
- Those California Points of Historical Interest that have been evaluated by the State Office of Historic Preservation (OHP) and have been recommended to the State Historical Resources Commission for inclusion on the California Register.

Other resources that may be nominated to the California Register include:

- Historical resources with a significance rating of Category 3 through 5 (those properties identified as eligible for listing in the National Register, the California Register, and/or a local jurisdiction register);
- Individual historical resources;
- Historic districts; and,
- Historical resources designated or listed as local landmarks, or designated under any local ordinance, such as an historic preservation overlay zone.

California Health and Safety Code

California Health and Safety Code Sections 7050.5, 7051, and 7054 address the illegality of interference with human burial remains (except as allowed under applicable PRC Sections), and the disposition of Native American burials in archaeological sites. These regulations protect such remains from disturbance, vandalism, or inadvertent destruction, and establish procedures to be implemented if Native American skeletal remains are discovered during construction of a project, including treatment of the remains prior to, during, and after evaluation, and reburial procedures.

California Public Resources Code (PRC)

California PRC Section 5097.98, as amended by Assembly Bill 2641, provides procedures in the event human remains of Native American origin are discovered during project implementation. PRC Section 5097.98 requires that no further disturbances occur in the immediate vicinity of the discovery, that the discovery is adequately protected according to generally accepted cultural and archaeological standards, and that further activities take into account the possibility of multiple burials. PRC Section 5097.98 further requires the Native American Heritage Commission (NAHC), upon notification by a County Coroner, designate and notify a Most Likely Descendant (MLD) regarding the discovery of Native American human remains. Once the MLD has been granted access to the site by the landowner and inspected the discovery, the MLD then has 48 hours to provide recommendations to the landowner for the treatment of the human remains and any associated grave goods. In the event that no descendant is identified, or the descendant fails to make a recommendation for disposition, or if the landowner rejects the recommendation of the descendant, the landowner may, with appropriate dignity, reinter the remains and burial items on the property in a location that will not be subject to further disturbance.

Local

City of Culver City General Plan

The City's General Plan 2045 has one goal (Goal C-1) for cultural resources (including archaeological resources), which indicates that "cultural resources are protected and enhanced through proactive measures" (City of Culver City, 2024:248). Measures C-1.15, C-1.16, and C-1.21 provided below are focused on the protection of archaeological resources.

- **C-1.15: Public knowledge promotion.** Promote public knowledge and understanding of cultural resources (including archaeological, tribal cultural resources, historic resources, and paleontological resources) present within the city.

- **C-1.16: Tribal consultation.** Continue to consult with Native American groups in accordance with Senate Bill 18 and Assembly Bill 52 to identify Tribal Cultural Resources.

- **C-1.21: Protect Archaeological, Paleontological, and Tribal Cultural Resources.** Promote programs and policies to protect known archaeological and paleontological sites and Tribal Cultural Resources.

The City's General Plan also includes the following implementation actions for the preservation of archaeological resources.

- **IA.C-8: Historic discretionary review.** Require that projects subject to discretionary review are screened to Cultural Affairs to determine if further evaluation by cultural affairs is warranted and, if so, require that projects undergo historic, archaeological, and paleontological assessments and are documented in technical studies by qualified experts to identify the potential for resources to be negatively affected during project implementation and to ensure steps are taken, where warranted, to protect resources.

- **IA.C-10: Standard conditions of development approval.** Continue to implement standard conditions of approval that require and specify the steps to be taken to avoid damage and promote preservation if unknown archaeological or paleontological resources, or Tribal Cultural Resource are uncovered during construction.

Precontact Setting

The chronology of Southern California is typically divided into three general time periods: the Early Holocene (9,600 cal B.C. to 5,600 cal B.C.), the Middle Holocene (5,600 cal B.C. to 1,650 cal B.C.), and the Late Holocene (1,650 cal B.C. to cal A.D. 1769). This chronology is manifested in the archaeological record by particular artifacts and burial practices that indicate specific technologies, economic systems, trade networks, and other aspects of culture.

While it is not certain when humans first came to California, their presence in Southern California by about 9,600 cal B.C. has been well documented. At Daisy Cave, on San Miguel Island, cultural remains have been radiocarbon dated to between 9,150 and 9,000 cal B.C. (Byrd and Raab, 2007). During the Early Holocene (9,600 cal B.C. to 5,600 cal B.C.), the climate of Southern California became warmer and more arid and the human populations, who were represented by small hunter gatherers until this point and resided mainly in coastal or inland desert areas, began exploiting a wider range of plant and animal resources (Byrd and Raab, 2007).

During the Late Holocene (1,650 cal B.C. to cal A.D. 1769), many aspects of Millingstone culture persisted, but a number of socioeconomic changes occurred (Erlandson, 1994; Wallace 1955; Warren, 1968). The native populations of Southern California were becoming less mobile, and populations began to gather in small sedentary villages with satellite resource-gathering camps. Increasing population size necessitated the intensified use of existing terrestrial and marine resources (Erlandson, 1994). Evidence indicates that the overexploitation of larger, high-ranked food resources may have led to a shift in subsistence, towards a focus on acquiring greater amounts of smaller resources, such as shellfish and small-seeded plants (Byrd and Raab, 2007). Between about A.D. 800 and A.D. 1350, there was an episode of sustained drought, known as the Medieval Climatic Anomaly (MCA) (Jones et al., 1999). While this climatic event did not appear to reduce the human population, it did lead to a change in subsistence strategies in order to deal with the substantial stress on resources.

Given the increasing sedentism and growing populations during the Late Holocene, territorial conscription and competition became acute. Primary settlements or village sites were typically established in areas with available freshwater and where two or more ecological zones intersected (McCawley, 1996). This strategic placement of living space provided a degree of security in that when subsistence resources associated with one ecological zone failed, the resources of another could be exploited (McCawley, 1996). Villages typically claimed and carefully defended fixed territories that may have averaged 30-square miles in size encompassing a variety of ecological zones that could be exploited for subsistence resources (McCawley, 1996).

The Late Holocene marks a period in which specialization in labor emerged, trading networks became an increasingly important means by which both utilitarian and non-utilitarian materials were acquired, and travel routes were extended. Trade during this period reached its zenith as asphaltum (tar), seashells, and steatite were traded from Catalina Island (*Pimu* or *Pimugna)* and coastal Southern California to the Great Basin. Major technological changes appeared as well, particularly with the advent of the bow and arrow sometime after cal A.D. 500, which largely replaced the use of the dart and atlatl (Byrd and Raab, 2007).

Ethnographic Setting

The Project Site is located in a region traditionally occupied by the Gabrielino. The term “Gabrielino” is a general term that refers to those Native Americans who were administered by the Spanish at the Mission San Gabriel Arcángel. Prior to European colonization, the Gabrielino occupied a diverse area that included: the watersheds of the Los Angeles, San Gabriel, and Santa Ana rivers; the Los Angeles basin; and the islands of San Clemente, San Nicolas, and Santa Catalina (Kroeber, 1925). Their neighbors included the Chumash and Tataviam to the north, the Juañeno to the south, and the Serrano and Cahuilla to the east. The Gabrielino language was part of the Takic branch of the Uto-Aztecan language family.

The Gabrielino Indians were hunter-gatherers and lived in permanent communities located near the presence of a stable food supply. Subsistence consisted of hunting, fishing, and gathering. Small terrestrial game was hunted with deadfalls, rabbit drives, and by burning undergrowth, while larger game such as deer were hunted using bows and arrows. Fish were taken by hook and line, nets, traps, spears, and poison (Bean and Smith, 1978). The primary plant resources were the acorn, gathered in the fall and processed in mortars and pestles, and various seeds that were harvested in late spring and summer and ground with manos and metates. The seeds included chia and other sages, various grasses, and islay or holly-leafed cherry. Community populations generally ranged from 50 to 100 inhabitants, although larger settlements may have existed. The Gabrielino are estimated to have had a population numbering around 5,000 in the pre-contact period (Kroeber, 1925).

The Late Precontact period, spanning from approximately 1,500 years B.P. to the mission era, is the period associated with the florescence of the Gabrielino (Wallace, 1955). Coming ashore near Malibu Lagoon or Mugu Lagoon in October of 1542, Juan Rodriguez Cabrillo was the first European to make contact with the Gabrielino Indians. The Gabrielino are reported to have been second only to their Chumash neighbors in terms of population size, regional influence, and degree of sedentism (Bean and Smith, 1978).

Maps produced by early explorers indicate that at least 26 Gabrielino villages were within proximity to known Los Angeles River courses, while an additional 18 villages were reasonably close to the river (Gumprecht, 2001). The closest named settlements to the Project Site are *Saa'anga* and *Waachnga*.

Historic Setting

Harry H. Culver (1880 -1946), the founder of Culver City, was born in Milford, Nebraska on January 22, 1880. The middle child of five, Culver was raised on a farm along with three brothers and a sister. His father, Jacob Hazel Culver, was a brigadier general in the National Guard and a strict disciplinarian. Culver followed in his father's footsteps, enlisting in the military during the Spanish-American War. He studied at Doane College before spending three years at the University of Nebraska. In 1901, Culver traveled to the Philippines where he began working in the mercantile business, worked as a reporter for the Manila Times, and served as a special agent for the customs department. After more than three years in the Philippines, Culver returned to the United States, performing his customs duties in Detroit and Saint Louis. He resigned from the customs department in 1910 when he moved to California and began working for real estate giant I.N. Van Nuys. "As the story goes, after Van Nuys offered to make him a manager because of his exemplary work, Culver decided to venture out on his own. After intense study, Harry Culver pinpointed the area between Los Angeles and Abbot Kinney's resort of Venice for his city" (Cerra, 2013).

At the California Club in 1913, Harry Culver announced his plans to develop a city west of downtown Los Angeles. Culver saw an opportunity to capitalize on the excitement generated by Abbot Kinney's Venice of America development along the California coast south of Santa Monica. Between Venice and Los Angeles sat open land, originally part of Rancho La Ballona, and as the relationship between Los Angeles and Venice took shape, Culver saw a spot in between that was ideal for a new town site. "If you draw a line from the Story Building to the Ocean Front at Venice, at the halfway mark you will find three intersection electric lines—the logical center for what we propose to develop a town-site." Soon after Culver's speech, the city of Culver City was established. Culver promoted his new community by holding special events like "prettiest baby contests" and an annual marathon race. Newspaper advertisements exclaimed "All Roads Lead to Culver City!"

Culver City continued to grow and finally incorporated in 1917 (Cerra, 2013). The City grew outward from the downtown commercial area and adjacent film studios. This area saw commercial development along Culver Boulevard in the 1920s and 1930s, and spread to Washington Boulevard in the 1940s and 1950s, and was surrounded by residential neighborhoods. Downtown Culver City was centered on a main street (Washington Boulevard) anchored by a six-story hotel, Fire and Police Departments, a city hall, banks, restaurants, and stores. The early economics of Culver City were supported by movie studios. Industry came in the form of Western Stove in 1922, then the Helms Bakeries in 1930, and then the Hayden Industrial Tract was established in the 1940s. During the 1950s, Washington Boulevard would be improved with a number of car dealerships. Over the years, more than forty annexations increased the size of the city from 1.2 square miles to about five square miles (Cerra, 2004).

At the heart of Screenland, the economic health of the City has always been strongly tied to the movie industry. Following the closure of MGM Studios, the City was looking for ways to spur economic development. To spur development and create a new flow of money, the City created the Redevelopment Agency (Sony Pictures, 2017). One of the first projects undertaken by the newly formed agency was the Fox Hills redevelopment. This development would open up more than 300 acres of land just southwest of the City to residential, commercial, and industrial growth.

Archival Research

SCCIC Records Search

ESA conducted a cultural resources records search on January 13, 2025 at the CHRIS-SCCIC which included a review of all previously recorded cultural resources and previous cultural resource studies within the Project Site and a 0.50-mile radius.

Previous Cultural Resources Investigations

Results of the CHRIS-SCCIC search indicate that 11 cultural resources studies have been conducted within the 0.50-mile radius of the Project Site. Of the 11 studies, none have previously covered the Project Site.

Previously Recorded Cultural Resources

Results of the CHRIS-SCCIC search indicate that one archaeological resource (CA-LAN-67) has been recorded within the 0.50-mile radius of the Project Site. Additionally, a total of five prehistoric archaeological resources (CA-LAN-59, -60, -213, -216, -2768) have been recorded in the immediate vicinity of the 0.50-mile radius.

TABLE 1
PREVIOUSLY RECORDED CULTURAL RESOURCES

P-Number (P-19-)	Permanent Trinomial (CA-LAN-)	Other Designation	Description	Recording Events
59	59	Malcom Farmer's Playa del Rey Site No. 1	Prehistoric archaeological site: village or camp site, including artifacts (steatite bowl, quartz crystal point, "arrowpoints", mortar and steatite fragments, manos, pestles, shell, hammerstones, scrapers, etc. Site reportedly destroyed.	1950
60	60	Malcom Farmer's Playa del Rey Site No. 1	Prehistoric archaeological site: shell midden, "chips", mortar fragments, hammerstones, "chopper", and steatite pieces. Human remains (cranium pieces) and pieces of burned deer bone. Site reportedly destroyed.	1950
67	67	Malcom Farmer's Baldwin Hills Site No. 1	Prehistoric archaeological site: described as a possible temporary dwelling on a small wash. Small amount of shell reported.	1950
213	213	LA-31	Prehistoric archaeological site: metates	1953
216	216	LA-34	Prehistoric archaeological site: mortars	1953
2768	2768	SR 20	Prehistoric archaeological site: subsurface midden deposits	2000

Source: SCCIC, 2025

Sacred Lands File Search

The NAHC maintains a confidential SLF which contains sites of traditional, cultural, or religious value to the Native American community. The NAHC was contacted by ESA on December 24, 2024, to request a search of the SLF. On January 16, 2025, the NAHC indicated that the results of the SLF search yielded negative results but mentioned that the absence of specific site information does not mean absence of cultural resources in a project. The NAHC results letter is provided in **Appendix B** of this report.

Land Use History Research

Historic maps and aerial photographs were examined to understand the land use history of the Project Site and vicinity and to contribute to an assessment of the Project Site's potential to retain buried archaeological resources. Available topographic maps that were reviewed include the 1896 Redondo 15-minute topographic quadrangle, the 1924 Inglewood 7.5-minute topographic quadrangle, the 1930 Inglewood 7.5-minute, the 1944 Redondo 15-minute topographic quadrangle, and the 1950 Venice 7.5-minute topographic quadrangle (TopoView, 2025). Aerial photographs were reviewed from the following years: 1952, 1963, 1972, 1980, and 1985 (historicaerials.com, 2025).

The 1896 historic topographic map depicts an unnamed road in the northern portion of the Project Site but it is otherwise undeveloped. Ballona Creek is shown approximately 1.50 miles northwest of the Project Site, while Centinela Creek is observed approximately 0.85 miles to the south (**Figure 4**). The 1924 historic topographic map no longer depicts an unnamed road crossing the northern portion of the Project Site; however, an unnamed road is depicted immediately north of the Project Site. The 1924 historic topographic map also shows the Project Site as undeveloped and situated within hilly terrain with an unnamed intermittent stream[7] located within the eastern portion of the Project Site (**Figure 5**). By 1930, the Project Site is shown as potentially being part of the Fox Hills Country Club and the unnamed road (depicted in the 1924 historic map as immediately north of the Project Site) is labeled as "Slauson Avenue" (**Figure 6**). The 1944 and 1950 historic topographic maps indicate that no changes have occurred since the earlier maps of the Project Site. Several other drainages are observed east and south of the Project Site. The 1952 and 1963 historic aerial photographs depict putting greens and sand traps within the Project Site that are associated with the aforementioned country club. A row of mature trees are observed along the northern and southern perimeters of the Project Site. By 1972, Buckingham Parkway is depicted east and south of the Project Site. By 1980, the Project Site appears to have been graded and leveled with only a few trees along the northern and southern portions still extant. This suggests that the country club's putting greens and sand traps were graded over sometime between 1972 and 1980. By 1985, the existing uses had already been constructed within the Project Site.

7 An intermittent stream means surface water flowing during certain times of the year in response to precipitation.

Pedestrian Survey

A cultural resources survey of the Project Site was conducted on February 12, 2025, by ESA Cultural Resources Specialist Vincent Gentile, B.A. The survey aimed at identifying archaeological resources within the Project Site. A systematic survey was not possible given the developed nature of the majority of the Project Site and lack of ground visibility. Approximately 25 percent of the Project Site was subject to an opportunistic survey, which targeted a small section of land with exposed ground surface (e.g., green belts and landscape areas). The remaining 75 percent of the Project Site is paved and developed with buildings, parking lots, and lacked ground surface visibility. A combined 78 percent of the Project Site (3.48 acres) was surveyed between areas of land with exposed ground surface and those without, including the parking lots and parking garage. The remaining 22 percent of the Project Site is occupied by a standing office building and was not subject to survey. Ground surface visibility for 95 percent of the Project Site was approximately 0 to 15 percent, while the remaining 5 percent of the Project Site yielded approximately 90 to 100 percent ground surface visibility. No archaeological resources were observed during the survey. **Figures 7-9** depict the existing conditions of the Project Site at the time of the pedestrian survey.

Subsurface Sensitivity Assessment

Precontact Archaeological Analysis

Results of the SCCIC records search have indicated that although no precontact resources have been recorded within the Project Site or immediate vicinity, six precontact archaeological resources have been recorded within the 0.50-mile radius. Additionally, two Native American villages (*Saa'anga* and *Waachnga*) are situated in the general vicinity of the Project Site. Review of historic maps indicate that Ballona Creek and Centinela Creek are located in the general vicinity between 0.85 and 1.5 miles from the Project Site, which would have attracted precontact inhabitants to the area since they would have provided them with fresh water sources, along with floral and faunal resources. An intermittent stream was also located within the eastern portion of the Project Site, but this stream is unlikely to have supported long-term precontact occupation given that intermittent water flows would only occur during certain times of the year in response to precipitation.

Review of the Dibblee and Minch (2007) geologic map of the Venice and Inglewood quadrangles indicates that the Project Site is underlain by Quaternary alluvium (Qa) along the easternmost portion, Older alluvium (Qoa) along the central portion, and Paleosol soils (Qop) along the western portion. Further review of the Geotechnical Investigation report (Geocon, 2024) for the Project indicates that fill materials were found during geotechnical testing (including four borings; B1-B4) at the Project Site, starting at surface down to varying depths between 2.5 and 13 feet below ground surface (bgs). The Geotechnical Investigation report also mentions that the fill is likely the result of past grading activities at the Project Site for the construction of the former country club. The deeper fill was found to be located in boring B4 which is located along the easternmost portion of the Project Site along Buckingham Parkway. Lastly, the Geotechnical Investigation report mentions that Pleistocene-aged older alluvium sediments (characterized as light brown to dark reddish brown or blueish gray, silt, silty sand, and poorly graded sand) were found beneath the fill materials down to 41.5 feet bgs (Geocon, 2024).

The Pleistocene-aged older alluvium sediments and Paleosol soils mapped by Dibblee and Minch (2007) along the central and western portions of the Project Site are too old to be conducive to the preservation of precontact archaeological deposits. However, Quaternary alluvium (Qa) sediments (mapped along the easternmost portion of the Project Site and which could be potentially unearthed below the fill materials) date to the late Pleistocene (Ibid.) – a period for which there is widely accepted evidence for human occupation of Southern California (Byrd and Raab, 2007). Moreover, precontact archaeological resources can become intermixed within historic fill materials such as in the case with two precontact metate artifacts that were encountered during monitoring in connection with a development project in Downtown Culver City located approximately 2 miles from the Project Site. For these reasons and those stated above (e.g., six known precontact archaeological resources in vicinity, the former presence of water sources with the Project Site capable of supporting precontact habitation, and Native American villages in the general vicinity), the potential to encounter buried precontact archaeological resources within the eastern portion of the Project Site is considered moderate. The potential to unearth buried precontact archaeological resources along the western and central portions is considered low.

Historical Archaeological Analysis

Review of historic maps and aerial photographs indicate that the Project Site was undeveloped until a golf course/country club was constructed at the Project Site by at least 1930 and was later graded or leveled sometime between 1972 and 1980. The existing building was also developed by at least 1985. Based on the lack of previous historic period uses within the Project Site and the fact that no historic-period archaeological resources have been previously recorded within the Project Site or 0.50-mile radius, the potential to encounter historic-period archaeological resources within the Project Site is considered low.

Summary of Results

No known archaeological resources were identified within the Project Site during the archival research nor pedestrian survey, and the archaeological sensitivity assessment concluded that there is a moderate potential for encountering subsurface precontact archaeological resources within the eastern portion and low potential for the central and western portions of the Project Site. The archaeological sensitivity assessment also concluded that there is a low potential for encountering historic-period archaeological resources. Given the moderate potential to encounter precontact resources, the following standard City Conditions of Approval (COAs) are recommended to ensure the proper treatment of inadvertent archaeological resources that are inadvertently discovered during construction. The COAs apply to all excavation work that would occur along the eastern portion of the Project Site.

- Prior to the issuance of demolition permits and if determined necessary by the City based on sensitivity for encountering archaeological resources, the applicant shall retain a qualified archaeologist who meets the Secretary of the Interior's Professional Qualifications Standards. The qualified archaeologist shall supervise an archaeological monitor who shall observe project construction activities such as demolition, pavement removal, clearing/grubbing, drilling/augering, potholing, grading, trenching, excavation, tree removal or other construction excavation activities. The frequency of monitoring shall be based on the rate of excavation and grading activities, proximity to known archaeological and/or tribal cultural resources, the materials being excavated (younger alluvium vs. older alluvium), and the depth of excavation, and if found, the abundance and type of resources encountered. The frequency of monitoring can be reduced to part-time inspections or ceased entirely if determined appropriate by the qualified archaeologist.

- Prior to commencement of construction activities that require monitoring, an Archaeological and Cultural Resources Sensitivity Training shall be given for construction personnel. The training session shall be carried out by the qualified archaeologist or archaeological monitor and shall focus on how to identify archaeological resources that may be encountered during construction activities and the procedures to be followed in the event of a discovery.

- In the event archaeological resources are encountered, ground-disturbing activities shall be halted or diverted away from the vicinity of the find so that the find can be evaluated. After consulting with the applicant, the qualified archeologist or archaeological monitor shall establish an appropriate buffer area in accordance with industry standards, reasonable assumptions regarding the potential for additional discoveries in the vicinity, and safety considerations for those making an evaluation and potential recovery of the discovery. This buffer area shall be established around the find where construction activities shall not be allowed to continue. Work within the buffer area shall only be allowed to continue after the evaluation and recovery efforts are completed. Work shall be allowed to continue outside of the buffer area.

- All resources unearthed by project construction activities shall be evaluated by a qualified archaeologist and/or Native American monitor. If the resources are potentially Native American in origin, the City and qualified archaeologist shall consult with the appropriate Native American tribe regarding the treatment and curation of any prehistoric archaeological and/or tribal cultural resources.

- The applicant shall coordinate with the City to develop a formal treatment plan for the resources. If preservation in place is not feasible, treatment may include implementation of archaeological data recovery excavations to remove the resource along with subsequent laboratory processing and analysis. Any archaeological material collected shall be curated at a public, non-profit institution with a research interest in the materials, such as the Natural History Museum of Los Angeles County or the Fowler Museum, if such an institution agrees to accept the material. If no institution accepts the archaeological material, they shall be donated to a local school or historical society in the area (such as the Culver City Historical Society) for educational purposes.

- The archaeological monitor shall prepare a final report and appropriate California Department of Parks and Recreation Site Forms at the conclusion of archaeological monitoring. The report shall include a description of resources unearthed, if any, treatment of the resources, results of the artifact processing, analysis, and research, and evaluation of the resources with respect to the California Register of Historical Resources. The report and the Site Forms shall be submitted by the Applicant to the City of Culver City, the South Central Coastal Information Center, and representatives of other appropriate or concerned agencies.

Kyle Garcia has over 21 years of experience in the archaeology and prehistory of southern California, and meets and exceeds the Secretary of Interior Standards qualificaitons for a prehistoric and historic archaelgoist. During his career, he has authored or contributed to more than 800 projects subject to the requirements of the California Environmental Quality Act, the National Environmental Policy Act (NEPA), and regulations implementing Section 106 of the National Historic Preservation Act (Section 106 of the NHPA). He is well-versed in the archaeological resources of California's coastal, interior, and island settings. He is skilled in evaluation historic and prehistoric archaeological resources; agency and Native American consultation; pedestrian surveys, testing and evaluation excavations as well as archaeological and paleontological construction monitoring, and laboratory processing. During his tenure, he has authored or contributed to more than 400 technical reports and sections to support all levels of CEQA and NEPA documents. Kyle's portfolio of projects includes energy, water, and transportation infrastructure as well as residential, commercial, mixed-use, institutional, and urban redevelopment serving public and private sector clients. Kyle has conducted archaeological work throughout California and is a certified archaeologist and paleontologist in Riverside, Santa Barbara, and Orange counties.

Relevant Experience

Archaeological/Paleontological Monitoring. Kyle has managed more than 120 archaeological and/or paleontological construction monitoring projects in Los Angeles, Orange, Riverside, San Bernardino, and Ventura counties. He has a commanding knowledge of the procedures to implement in the event of an inadvertent discovery during construction, and how to navigate an applicant or lead agency though that process to ensure compliance with the project's mitigation measures or conditions of approval and to reach consensus on treatment of the discovery, especially if the discovery is Native American in origin.

Paleontology. In addition to his archaeological work, Kyle has been cross-trained in paleontological mitigation monitoring and assisted in the excavations of a Miocene whale fossil near Irvine and a new species of extinct tuna in Laguna Niguel, California. Kyle has also managed or conducted more than 200 paleontological assessments and 40 paleontological monitoring projects throughout southern California. He has assisted ESA's paleontologists with the preparation of paleontological reports in compliance with CEQA and local paleontological guidelines, including guidelines for the Society for Vertebrate Paleontology.

Project Experience

Archaeological and Paleontological Monitoring for the LAX Crossfield Taxiway Improvements, Los Angeles, CA. *Project Manager/Archaeological Monitor.* Between 2009-2010, Kyle performed archaeological and paleontological monitoring services during earthmoving operations associated with the development of the Crossfield Taxiway project in accordance with established mitigation measures from the LAX Crossfield Taxiway Project (CFTP) EIR. PCR conducted archaeological and paleontological field visits, paleontological sediment sampling, and monitoring of earthmoving operations associated with the construction of CFTP until activities requiring monitoring ended. These operations included excavations for filter boxes, water pipeline installation, and the realignment of World Way West. In addition to monitoring, Kyle performed an archaeology and paleontology training session for appropriate project personnel involved with construction of the project. The training session focused on how to identify archaeological and paleontological resources that may be encountered during earthmoving activities, and the procedures to be followed in such an event. No resources were identified during the monitoring effort and these findings were summarized in a report that was submitted to Los Angeles World Airports. Kyle served as project director/manager, crew chief, monitor, and co-author of the final report.

University High School Beautification Project, Los Angeles, CA. *Archaeologist*. Kyle performed archaeological monitoring during earth-moving activities on the campus. The archaeological monitoring program ensured the protection of the village site and springs, and resulted in the discovery of remains of the original portico of the Administration Building which was destroyed by the Long Beach Earthquake of 1933.

Rancho Campana High School and Performing Arts Center Construction Monitoring, Camarillo, CA. *Project Manager*. Kyle led the archaeological and paleontological monitoring for the project as a part of ESA's on-call contract with Oxnard Union High School. He managed and coordinated the effort and prepared the associated report. ESA identified two archaeological resources (56-001512/CA-VEN-1512 and 56-001513/CA-VEN-1513H) during monitoring efforts and several paleontological localities during the monitoring and sediment screening activities and worked together with the Ventureño Chumash regarding treatment for the archaeological resources. Although several archaeological and paleontological resources were encountered during the construction monitoring efforts, the resources were treated in accordance with the mitigation measures and, as a result, the impacts to the resources were reduced to a less than significant level pursuant to the CEQA.

Citron (Stella Park) Townhome Development, Escondido, CA: *Project Manager.* Kyle served as the project manager responsible for overseeing the archaeological and Native American monitoring at the project in accordance with the Conditions of Approval. The project included the construction of a 65-unit townhome development on a vacant 2.29-acre site in the City of Escondido.

Archaeological Monitoring, Test Excavations, and Data Recovery Excavations During Construction of the Crystal Geyser Roxane Cabin Bar Ranch Water Bottling Facility, Olancha, Inyo County, CA. *Principal Investigator/Project Director/Manager/Crew Chief.* Kyle managed/directed archaeological construction monitoring services in accordance with the Cultural Resources mitigation measures in the Mitigation Monitoring and Reporting Program (MMRP) of the EIR for the project. During initial clearing and grubbing activities associated with the project, five prehistoric archeological resources were encountered. Kyle assisted the Applicant in developing a cultural resources treatment plan to address identify, evaluate, and mitigate project impacts to these resources to a less than significant level. Pursuant to the MMRP, this treatment plan was developed in coordination with ESA (Kyle), the County, CG Roxane, and the Lone-Pine Pauite-Shoshone Reservation. The treatment plan included measures for resource avoidance, additional survey, and the excavation of nine controlled excavation units and multiple mechanical backhoe trenches across the project site. More than a 1,000 artifacts have been recovered from this project. This project began in 2015 and continues today.

Fatima Clark

Archaeologist

EDUCATION

BA, Anthropology, California State University, Fullerton

16 YEARS' EXPERIENCE

CERTIFICATIONS/ REGISTRATION

Orange County Certified Archaeologist

HAZWOPER Certified

PROFESSIONAL AFFILIATIONS

Society for California Archaeology

Fatima has 16 years of hands-on archaeological experience and is practiced in project management and client and agency coordination. Her field experience is complimented by the course study and participation in numerous archaeological excavations in California, Arizona, and Peru. Fatima has written California Environmental Quality Act (CEQA)-level technical reports, Environmental Impact Report (EIR) sections, Initial Study sections, archaeological peer reviews, archaeological monitoring reports, and reports pursuant to California Department of Transportation (Caltrans) requirements. She is also experienced in performing archaeological testing, site recordation, laboratory analysis, pedestrian surveys, records searches through several California Historical Resources Information Systems-Information Centers, and monitoring for a wide variety of projects, including mixed-use, residential, and energy, water, and road infrastructure projects. In addition to her archaeology background, Fatima has been cross-trained in conducting paleontological surveys and monitoring and has co-authored and managed associated reports.

Relevant Experience

Los Angeles Department of Water and Power, Fort Independence Travel Plaza Power Project, Independence (Owens Valley), CA. *Project Manager*. Fatima is in the process of preparing the cultural resources assessment in compliance with NEPA, Section 106, and CEQA. LADWP proposes to install 13 new temporary poles, one (1) anchor, and replace one (1) existing pole for a 34.5 kV line extension to provide power during construction of a new Travel Center at 141 N. Highway 395 in Fort Independence, Inyo County, California.

Landify ECT Corporation, Lower Sweetwater Park Project, City of Chula Vista, CA. *Project Manager*. Fatima has prepared a cultural resources assessment in compliance with CEQA. The Project proposes to redevelop the existing 21.3 acre Project Site with sports facilities within the City of Chula Vista.

County of Los Angeles, Department of Public Works, Whittier Boulevard Underground Utility Project, Los Angeles County, CA. *Project Co-Manager.* Fatima prepared the cultural resources assessment in support of a Class 2 Categorical Exemption. The project consists of the removal of utility poles and overhead lines, and the excavation for underground utility lines along Whittier Boulevard right-of-way. One historical resource, the early-to-mid 20th century Los Angeles Railway (or Yellow Cars), was identified in the project area as a result of archival research and geotechnical investigations. Fatima also managed the archaeological monitoring of construction activities and prepared the monitoring report.

City of Carson, Avocet Energy Storage System Project, City of Carson, CA. *Archaeologist.* Fatima managed the preparation of the archaeological and paleontological resources assessment reports in compliance with CEQA. The proposed Project includes the development of an approximately 200-megawatt battery energy storage system on a

Fatima Clark (Continued)

Archaeologist

6.96-acre site (BESS site), improvements and upgrades to the existing SCE Hinson Substation (SCE Hinson Substation site), the construction of a gen-tie line to connect to substation to the BESS site (proposed gen-tie line route), and other associated improvements. The proposed gen-tie route would cross three jurisdictions including: the City of Carson, the City of Los Angeles, and the City of Long Beach.

Storm Properties, Inc. Storm Hill Lane Project, Rolling Hills, CA. *Project Manager.* Fatima managed the day-to-day coordination for the monitoring and preparation of the archaeological/paleontological monitoring report pursuant to CEQA. As a result of the monitoring, several fossils were identified and these are currently being analyzed. The Project requires the reconstruction and expansion of Storm Hill Lane from the currently addressed and developed lot at 4 Storm Hill Lane to the three undeveloped lots.

Kiewit Infrastructure West Co., Ballona Wetlands Sequence 1 & 2 Restoration, Culver City, CA. *Project Manager.* Fatima managed the coordination for the monitoring with the archaeological and biological monitors, as well as coordination with the client. ESA's monitors were present during trenching and grading within portions of Ballona Creek in Culver City.

Southern California Association of Governments (SCAG) 2024 Connect SoCal Program PEIR, Los Angeles, Riverside, San Bernardino, Orange, Imperial and Ventura, CA. *Deputy Project Manager.* Fatima led the preparation of the PEIR Sections (cultural, paleontological, and tribal resources), as well as coordinated the Native American consultation efforts. Connect SoCal 2024 is a long-range comprehensive plan for the region's multi-modal transportation system. Preparing the Plan is one of SCAG's primary statutory responsibilities under federal and state law. A regional transportation plan (RTP) is the mechanism used in California by both metropolitan planning organizations and regional transportation planning agencies to conduct long-range (at least 20-year) planning in their regions. SCAG must adopt an RTP and update it every four years, or more frequently, if the region is to receive federal and state transportation dollars for public transit, streets/roads, and bicycle and pedestrian improvements.

Culver City, Crossings Campus (Culver City & City of Los Angeles, CA). *Deputy Project Manager.* Fatima led the preparation of the archaeological resources report and coordinated the preparation of the paleontological resources report. Fatima also led the preparation of the EIR sections (cultural, paleo, tribal). Culver Crossings Properties LLC, the Applicant, proposes to develop an office project (Project) on an approximately 4.46-acre site (Project Site) comprised of two properties: one 1.63-acre parcel is located in the City of Culver City (City), while the second 2.83-acre parcel is located in the City of Los Angeles.

County of San Diego Department of Parks and Recreation, Sweetwater Campground Geotech Boring Monitoring, San Diego County, CA. *Project Co- Manager.* Fatima co-managed the archaeological monitoring and coordinated with Red Tail for Native American monitoring and the County of San Diego Department of Parks and Recreation during Geotech borings for the Project.

Los Angeles County Department of Regional Planning, East San Gabriel Valley Area Plan (ESGVAP) Program EIR, Eastern Portion of Los Angeles County, CA. *Deputy Project Manager.* Fatima managed the preparation of the PEIR Sections (cultural, paleontological, and tribal resources). The ESGVAP is part of the Los Angeles County 2035 General Plan, which will require an amendment. The ESGVAP is a long-range policy document developed to guide long-term growth of the area through development of a guiding vision, goals, policies, and implementation actions for the unincorporated communities in the East San Gabriel Valley. The ESGVAP's planning area consists of 24 unincorporated islands and communities and encompasses a total land area of 210.5 square miles.

Los Angeles County Department of Regional Planning, Los Angeles County 2045 Climate Action Plan (CAP) Update and PEIR, Los Angeles County, CA. *Deputy Project Manager.* Fatima managed the preparation of the PEIR Sections (cultural, paleontological, and tribal resources). The County adopted the *Unincorporated Los Angeles County Community Climate Action Plan 2020* (2020 CCAP) in 2015 as a component of the Air Quality Element of the General Plan. The 2020 CCAP aligned with General Plan goals, policies, and programs, as well as several other existing programs in Los Angeles County. The 2020 CCAP was the first attempt to set greenhouse gas (GHG) emissions reduction goals in Los Angeles County. Although the targets for the 2020 CCAP were ultimately not fully met, the plan provided a road map for implementing the County's GHG reduction measures. The 2020 CCAP actions were implemented through County Code amendments and programs related to climate action. The Draft 2045 CAP builds on previous work and defines new reduction targets beyond the year 2020.

Eastern Municipal Water District, San Jacinto Valley Groundwater Treatment Facility Project, San Jacinto, CA. *Archaeologist.* Fatima assisted with the Phase II archaeological testing for the Project. The site was the location of the region's first trading post/general store, established ca. 1868. It later became the Palma Hotel, constructed by Henry T. Hewitt. The hotel was also used as a Riverside County hospital before it was destroyed in an earthquake in 1899.

San Manuel Band of Mission Indians, Sand Canyon Flood Control Permitting Project, San Bernardino County, CA. *Archaeologist.* Fatima was in charge of preparing the cultural resources assessment in compliance with Section 106. Fatima also conducted the pedestrian survey. The San Manuel Band of Mission Indians is considering taking over operation and maintenance of a concrete-lined channel and debris basin (known as Sand Creek) along Sand Canyon, within unincorporated San Bernardino County.

City of Long Beach, 615 E. Ocean Boulevard Project, Long Beach, CA. *Deputy Project Manager.* Fatima led the preparation of the cultural and paleontological resources reports in support of an addendum to the Certified City of Long Beach Downtown Plan Program Environmental Impact Report. The Project would develop a 21-story high-rise residential building on an approximately 0.4-acre site located at 615 East Ocean Boulevard within the City's limits (Project site).

City of Long Beach Department of Development Services, Planning Bureau, 7250 Carson Street Project, City of Long Beach, CA. *Deputy Project Manager.* Fatima led the preparation of the cultural and paleontological resources reports in compliance with CEQA. The Project Applicant proposes to subdivide a 20-acre parcel into two parcels (Parcel A and Parcel B). Other than the approval of the tentative parcel map to subdivide the existing parcel, no proposed improvements or development for Parcel A are included as part of the Project. Development of Parcel B (Project Site) would include the development of two fast-food restaurants and parking spaces.

City of Diamond Bar, Crooked Creek Residential Subdivision Project, Los Angeles County, CA. *Archaeologist.* Fatima conducted the archaeological and paleontological resources assessments in compliance with CEQA and the City of Diamond Bar General Plan Policy RC-P-42. The studies included records searches, pedestrian survey, and subsurface sensitivity assessments. No cultural resources were identified in the project site, but the area was found to have the potential to contain subsurface prehistoric archaeological resources and paleontological resources. The project consisted of the development of seven single-family residences and associated infrastructure on approximately 2.5 acres. The project required approval of a Vesting Tentative Tract Map, Conditional Use Permit, Tree Permit, and Development Review.

Re: 100 Corporate Pointe Project, Los Angeles County

To Whom It May Concern:

A record search of the Native American Heritage Commission (NAHC) Sacred Lands File (SLF) was completed for the information you have submitted for the above referenced project. The results were negative. However, the absence of specific site information in the SLF does not indicate the absence of cultural resources in any project area. Other sources of cultural resources should also be contacted for information regarding known and recorded sites.

Attached is a list of Native American tribes who may also have knowledge of cultural resources in the project area. This list should provide a starting place in locating areas of potential adverse impact within the proposed project area. I suggest you contact all of those indicated; if they cannot supply information, they might recommend others with specific knowledge. By contacting all those listed, your organization will be better able to respond to claims of failure to consult with the appropriate tribe. If a response has not been received within two weeks of notification, the Commission requests that you follow-up with a telephone call or email to ensure that the project information has been received.

If you receive notification of change of addresses and phone numbers from tribes, please notify me. With your assistance, we can assure that our lists contain current information.

If you have any questions or need additional information, please contact me at my email address: melina.carlos@nahc.ca.gov

Sincerely,

Melina Carlos
