RESOLUTION NO. 2015-_____

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF
CULVER CITY, CALIFORNIA, AUTHORIZING THE CITY TO
PARTICIPATE IN A TECHNICAL FEASIBILITY STUDY
RELATED TO COMMUNITY CHOICE AGGREGATION**

WHEREAS, the City of Culver City ("City") has demonstrated its commitment to an environmentally sustainable future through its policy goals and actions, including energy reduction and clean energy programs; and

WHEREAS, the City has identified Community Choice Aggregation ("CCA") as a potential strategy to meet local clean energy goals and projected greenhouse gas reduction targets; and

WHEREAS, CCA is a mechanism by which local governments assume responsibility for providing electrical power for residential and commercial customers in their jurisdiction in partnership with Southern California Edison ("SCE"); and

WHEREAS, CCA, if determined to be technically and financially feasible, could provide substantial environmental and economic benefits to all residents and businesses in the Westside and South Bay cities in the County of Los Angeles, including Culver City; and

WHEREAS, CCA also provides the opportunity to fund and implement a wide variety of energy-related programs of interest to the community; and

WHEREAS, in addition to understanding the technical and financial feasibility of CCA, it is important to determine whether there is adequate public support for CCA; and

WHEREAS, determining technical and financial feasibility, as well as public support, requires an analysis of energy load data from SCE and a focused public education and outreach effort.

NOW, THEREFORE, the City Council of the City of Culver City DOES
HEREBY RESOLVE AS FOLLOWS:

1. The City Council hereby directs staff to participate in the pre-development, technical and feasibility phase of CCA for the City in conjunction with other Westside and South Bay cities, which will be overseen and funded by the County of Los Angeles. Beyond staff time, the City shall not be obligated to expend any City funds other than nominal fees associated with obtaining energy usage load data from SCE, unless separately authorized by the City Council.

2. The City Manager is authorized to execute the appropriate documents to allow the City and/or its technical consultants to request energy usage load data from SCE so that it may be analyzed as part of a CCA technical feasibility study.

APPROVED and ADOPTED this 28th day of September 2015.

MICHEÁL O'LEARY, MAYOR
City of Culver City, California

ATTEST:

APPROVED AS TO FORM:

MARTIN R. COLE, City Clerk

CAROL A. SCHWAB, City Attorney
