 Case No P2024-0269-CUP
 11132 Washington Blvd.

NO.	CONDITIONS OF APPROVAL	Agency	Source	Compliance Verification
GENERAL				
1.	Street trees, tree wells, and irrigation shall be installed, to the satisfaction of the City Engineer and Current Planning Manager, in conformity with the City's approved Urban Forest Master Plan, and where appropriate, the Washington National TOD Oriented Street scape plan. All new (and existing) street trees shall be supplied with irrigation water from the overall site irrigation system which shall include a timer and a rain sensor. All new (and existing) street trees, landscaping, and irrigation shall be indicated on the overall site landscaping/ irrigation plan.	Public Works/ Current Planning	Standard	
2.	At the sole cost and expense of the Property Owner, any curbs, gutters, sidewalks, streetlights, street light wires and conduits, traffic signal equipment, street pavement, and any other City infrastructure which are damaged or broken from construction of the Project shall be repaired and reconstructed in conformity with APWA Standards and to the satisfaction of the City Engineer.	Public Works	Standard	
3.	The project shall be subject to Holiday Moratorium dates as required by the December 17, 2009 Public Works/Engineering Holiday Slowdown Policy memo, in which work in the public right-of-way is restricted or prohibited on certain days in November and December.	Public Works	Standard	
4.	Fire sprinkler main lines shall not be allowed to discharge into the public right-of-way, and they shall discharge into the sanitary sewer system.	Public Works	Standard	
5.	Trash enclosures shall be provided and shall each have a minimum inside dimension of 10 feet (depth) x 12 feet (width) for two 3-yard bins and shall be increased to an additional 60 square feet for each additional bin required, a gated opening that is at least 10 feet wide, and a 6-inch-high by 6-inch-wide concrete curb along the inside perimeter wall. Each enclosure shall also have at least a 6-inch-thick concrete slab that drains at a one percent gradient out of the enclosure. An 8 feet concrete loading pad in front of the proposed trash enclosure, 10 feet minimum clear opening with gates for bin access, and separate pedestrian access door for tenant use, shall be provided. Additional grade may be necessary to include a floor drain that leads to the	Public Works/ Fire/ Current Planning	Standard

GENERAL				
	sewer for maintenance purposes. Final approval for the size, location, and type of equipment needed for the adequate storage and disposal of all solid and recyclable waste generated by the Project shall be obtained from the City’s Environmental Programs and Operations Manager. A fire suppression sprinkler system shall be provided within any covered trash enclosure area as required by the Fire Marshal. All refuse containers assigned to or otherwise used by the Project shall be stored on-site in the trash enclosures.			
6.	All Project related solid and recyclable waste material handling shall be in accordance with CCMC Section 5.01.010 – “Solid Waste Management”, which outlines the Sanitation Division’s exclusive franchise for this service. The project shall provide adequate trash and recycling capacity and shall comply with Assembly Bills 939, 1826, and 341 waste diversion goals.	Public Works	Standard	
7.	All buildings and structures to be constructed as part of the Project shall be designed and constructed in accordance with all applicable regulations and standards of the City’s Building Code, Fire Code, and any related codes as determined by the Building Official and Fire Marshal; and all other applicable provisions of the CCMC which are adopted and in effect at the time of complete building permit application submittal.	All Depts	Standard	
8.	Changes to the Project or use approved as part of the Land Use Permit may only be made in accordance with the provisions of CCMC Section 17.595.035 – “Changes to an Approved Project”.	Current Planning	Standard	
9.	Drainage devices, concrete curb and gutter, sidewalk, and drive approach, roadway pavement shall be designed to the latest edition of the American Public Works Association (APWA) Standard Plans.	PW Engineering	Special	
10.	Projects shall be reviewed under the building code edition adopted when Building and Safety receives an application, plan check fees paid, with associated complete plan and supporting documentation set. Currently, 2022 California Building Codes.	Building Safety	Special	
11.	A full comprehensive code analysis shall be part of the plan check submittal set. It shall include, but not be limited to, means of egress plan, fire rated wall	Building Safety	Special

	protection plan, accessible plan, exterior opening area analysis, energy analysis, parking analysis, CALGreen checklist, commercial plumbing fixture count analysis, allowable height and area analysis.			
12.	Building shall have fire sprinklers installed per 2019 NFPA 13 requirements and CCMC 9.02. Fire department connection (FDC) shall be located as approved by Fire Marshal. The Double Detector Check Assembly (DDCA) shall be located as required by GSW.	Community Risk Reduction	Special	
13.	Location of the Fire Department fire sprinkler connection (FDC) shall be approved by the Fire Marshal. Culver City Fire Department requires each FDC to be within 150 feet of a public fire hydrant.	Community Risk Reduction	Special	
14.	Provide addresses viewable from the public way.	Community Risk Reduction	Special	
15.	Provide fire sprinkler monitoring and fire alarm system per 2019 NFPA 72, fire monitoring system shall be separate from the security system.	Community Risk Reduction	Special	
16.	Provide Knox Box.	Community Risk Reduction	Special	
17.	Provide fire extinguishers, size, location, and type shall be approved by Fire Marshal.	Community Risk Reduction	Special	
18.	An automatic smoke detection system shall be installed throughout the Group I-4, including contiguous day rooms, group activity spaces and other common spaces normally occupied by the clients. Group I-4 facilities located above the first story shall comply with the provisions of Section 436.1.	Community Risk Reduction	Special

PRIOR TO DEMOLITION PERMIT ISSUANCE				
19.	A covenant and agreement, on a form provided by the Current Planning Division and the City Attorney, acknowledging and agreeing to comply with all terms and conditions established herein, shall be signed by the Property Owner, and recorded in the County Recorder's Office. The covenant and agreement shall run with the land and shall be binding on any subsequent owners, and tenants or occupants of the Property. After recordation, a certified copy bearing the Recorder's number and date shall be provided to the Current Planning Division.	Current Planning/ City Attorney	Standard	
20.	The Applicant and/or Property Owner shall indemnify, hold harmless and defend (at the Applicant's and Property Owner's sole cost and expense, with legal counsel approved by the City in its sole discretion) the City, its elected and appointed officials, officers, employees, agents, contractors and consultants from and against any and all claims, lawsuits, judgments, liability, injury or damage arising from or in any manner connected to any and all permits or approvals relating to the Project, including without limitation associated and reasonably incurred attorneys' fees and court and litigation costs arising out of the defense of any such claims and/or lawsuits, and actual attorneys' fees and court and litigation costs that may be awarded by the court and required to be paid by the City. The obligations required by this Condition shall be set forth in a written instrument in form and substance approved by the City Attorney and signed by the Applicant and Property Owner.	City Attorney	Standard	
21.	A Comprehensive Construction Management Plan (CMP) shall be submitted to Building & Safety as part of the Building Permit plan check approval process and shall be approved prior to issuance of the Demolition and / or Building Permit. The comprehensive CMP shall include all plans specified in the conditions of approval. In addition, the plan will identify the areas of construction staging, temporary power, portable toilet, and trash and material storage locations.	All Depts	Standard

NO.	CONDITIONS OF APPROVAL	Agency	Source	Compliance Verification
PRIOR TO GRADING / BUILDING PERMIT ISSUANCE				
23.	A minimum of two sets of final landscaping and irrigation plans (separate from the plans submitted for the building permit) shall be submitted to the Current Planning Division for review and approval.	Current Planning / Parks, Recreation and Community Services	Standard	
24.	Prior to issuance of a building permit, notice of the Project construction schedule and CCMC 3307 shall be provided to all abutting property owners and occupants within 100 feet of the site. An affidavit of such notification shall be provided to the Building Division (building.safety@culvercity.org). The notice shall identify the commencement date and proposed timing for all construction phases (demolition, grading, excavation/shoring, foundation, rough frame, plumbing, roofing, mechanical and electrical, and exterior finish).	Building Safety	Standard	
25.	The applicant, including the on-site construction superintendent, shall attend a pre-construction meeting with all reviewing City departments and/or divisions, organized by Building Safety, in order to review all project conditions of approval. Prior to commencement of work the construction contractor shall advise the Public Works Inspector on-site (“Inspectors”) of the construction schedule and shall meet with the Inspectors.	All	Standard	
26.	The project is subject to the City’s Sewer Facility Charge due to the change in use and increased density. This charge must be paid prior to the issuance of a building permit.	PW Engineering	Standard	
27.	Any construction work in the public right-of-way requires the issuance of an encroachment permit from the Public Works Department including a traffic control plan consistent with the CA MUTCD.	PW Mobility	Standard	
28.	On-site improvement plans prepared by a civil engineer registered in the State of California shall be submitted to the Engineering Division for review, approval and permitting. Among other things, the on-site improvement plans shall include detailed on-site drainage and grading of	PW Engineering	Standard

DURING CONSTRUCTION				
37.	Prior to the commencement of any excavation, a temporary construction fence with wind screen shall be installed around the site. The wind screen may be omitted for drivers line of sight. The height and fence material are subject to approval by the City Engineer and the Current Planning Manager. The site fence location shall be identified on the Demolition plan.	Building Safety/ Current Planning/ Public Works	Standard	
38.	Hours of construction shall be limited to the following: 8:00 AM to 8:00 PM Monday through Friday; 9:00 AM to 7:00 PM Saturday; and 10:00 AM to 7:00 PM Sunday and National holidays. Dirt hauling and construction material deliveries or removal are prohibited during the morning (7:00 AM to 9:00 AM) and afternoon (4:00 PM to 6:00 PM) peak traffic periods. All construction workers shall be respectful of the surrounding neighborhood and keep non-construction related noise to a minimum prior to, during, and after permissible construction hours.	Building Safety/ Public Works	Standard	
39.	All staging and storage of construction equipment and materials, including the construction dumpster, shall be on-site only. The Property Owner must obtain written permission from adjacent property owners for any construction staging occurring on adjacent property.	Building Safety/ Public Works	Standard	
40.	Compliance with the following noise standards shall be required with at all times: A. No construction equipment shall be operated without an exhaust muffler, and all such equipment shall have mufflers and sound control devices (i.e., intake silencers and noise shrouds) that are no less effective than those provided on the original equipment; B. All construction equipment shall be properly maintained to minimize noise emissions; C. If any construction vehicles are serviced at a location onsite, the vehicle(s) shall be setback from any street and other property lines so as to maintain the greatest distance	Building Safety/ Current Planning	Standard
