EXECUTIVE SUMMARY

In a service-oriented industry, the demand and service levels for building and safety support services are dictated by an ever-fluctuating economy that affects all levels of government. Founded and incorporated in California in 1993, JAS Pacific has provided hands-on superior comprehensive building and safety services to numerous local and regional governmental entities addressing these needs.

With the management team possessing over 140 collective years of experience and a staff of nearly 100 qualified professionals from a number of disciplines, JAS Pacific provides each city, town, or county with a tailored service program including a sufficient labor commitment for both temporary and permanent staffing to meet their needs.

JAS Pacific is prepared to provide the City of Culver City, Community Development Department, with Building Inspection Services as detailed in the request for proposals, through the contracting of ICC Inspection certified staff. Through contracting with JAS Pacific for these services, the City will maintain its building standards throughout the community thus ensuring compliance and minimize liability and risk factors. Additionally, JAS Pacific will provide said services in a responsive, cost-effective manner, not compromising thorough customer service to the City, its residents, businesses, and developers. Subcontractors will not be utilized

Value Added Services

- ✓ Plan Review
- ✓ Inspection
- ✓ Permit Issuance
- ✓ Building Department Administration
- ✓ Code Enforcement
- ✓ Clerical Support
- ✓ Urban Planning and Public Works
- ✓ Specialized Management Services

Affiliations

- ✓ International Code Council
- ✓ California Building Officials
- ✓ International Assoc. of Plumbing & Mechanical Officials
- ✓ American Public Works Association
- ✓ National Fire Protection Association
- ✓ American Planning Association
- ✓ California Association of Code Enforcement Officers
- ✓ National Pollutant Discharge Elimination System

JAS Pacific has a multitude of resources from which the City may benefit from.

JAS Pacific delivers all services in an adaptive, tailored, and responsive approach and clients' needs shape their service programs. Services are provided by trained, qualified, and experienced personnel from various disciplines including: Registered Engineers, Plans Examiners, Inspectors, Permit Technicians, Building Officials, and Code Enforcement Officers. With a diverse team of in-house professionals, boasting a full breadth of experience in all levels of local government, our team possesses extensive accreditation and affiliation with providing the following:

COMPANY INFORMATION

To Whom It May Concern:

Please accept this proposal as prepared for the City of Culver City (City) for Building Services, as submitted by JAS Pacific to be valid for a period of not less than 90 days from the date of submittal.

Founded and incorporated in California in 1993, JAS Pacific is a full-service comprehensive provider in building and safety services, including building inspection. Through contracting with JAS Pacific for these services, the City will maintain its building standards throughout the community thus ensuring compliance and minimize liability and risk factors. Additionally, JAS Pacific will provide said services in a responsive, cost-effective manner, not compromising thorough customer service to the City, its residents, businesses, and developers.

JAS Pacific has provided building and safety support services for over 24 years in California. With our main office located at 201 North Euclid Avenue, Suite A, Upland, California, we currently provide services to numerous local and regional governmental entities throughout the state ranging in size and geography, providing a sufficient labor commitment for both temporary and long term staffing. Our strong presence in the region offers the strength, stability, experience, and technical competence that is desired of a contractor of building inspection services.

JAS Pacific staff can make available to the City a broad offering of expertise in all areas of building and safety services. With a diverse team of in-house professionals, boasting a full breadth of experience in all levels of local government, JAS Pacific has a solid foundation allowing for efficient contract implementation and service delivery. We understand local governmental agencies, challenges faced, and lessons learned which has enabled us to develop methodologies and business practices allowing for the delivery of said services seamlessly and efficiently. The City will benefit from our successes through contracting with JAS Pacific for the requested services. We believe our reputation and demonstrated experience throughout California speak for themselves and we look forward to working with you. If you have any questions, as the assigned contact for the City, please contact me directly at (800)818-3677 so that I may assist you.

Respectfully,

Jack Leonard, PE, CBO
Vice President

JAS Pacific

201 N. Euclid Ave. Suite A
Upland, CA 91786
Office : 800.818.3677
jack@jaspacific.com

JAS Pacific proposes to assign Mr. Jack Leonard, PE as the Project Manager and he will manage all aspects of the contract serving as the contact person for building and safety support services.

A civil engineering graduate of California State University at Fresno, Jack Leonard's career encompasses over 30 years of experience in the Building & Safety, Code Enforcement, and Structural Engineering field. Upon graduation, Jack worked in the private sector as a structural design engineer. He later transitioned to the public sector with the City of Bakersfield. Design experience and comprehension of the building codes allowed him to advance his professional career, as he promoted to Building Official with the City of Bakersfield's Building & Safety Division. Desiring to relocate to southern California, he accepted the position of Building Official for the City of Santa Monica.

Jack returned to the private sector where he currently serves as Vice President for JAS Pacific providing consulting services throughout southern California. Mr. Leonard has worked on behalf of JAS Pacific clients in various capacities including, but not limited to, Building Official, Project Manager, Client Liason and Plan Check Engineer. He is currently the Interim Building Official for the City of Santa Monica and has paralleled this position in the cities of Yorba Linda, El Monte, Hawaiian Gardens and Hermosa Beach. Additionally, Mr. Leonard has acted as the Project Manager on numerous clients including Culver City. Mr. Leonard's contact information is as below:

Jack Leonard, PE, CBO
Vice President

Jack Leonard, PE, CBO Vice President Project Manager	International Code Council: Building Official State of California: Licensed Civil Engineer Education: Bachelor of Science, Civil Engineering	Over 30 years of building & safety experience: • JAS Pacific – Vice-President • City of Santa Monica – Building Director • JTLeonard Engineering – Engineer • City of Bakersfield – Building Director • Minner & Davis – Design Engineer • Boyle Engineering Corp. – Asst. Engineer
Larry Brugger, CBO Director of Plan Review	International Code Council: Building Official State of California: Licensed Civil Engineer Licensed Structural Engineer Education: Bachelor of Science, Civil Engineering	Over 30 years of building & safety experience: • JAS Pacific – Director of Plan Review • International Code Council – Gov't Liason • City of Long Beach – Building Official • City of Los Angeles - Plan Review Engineer, Case Management • Jacobs Engineering – Design Engineer
Ron Takiguchi, PE Principal Engineer	State of California: Licensed Elecgrircial Engineer Education: Bachelor of Science, Electrical Engineering	Over 20 years of building & safety experience: • JAS Pacific – Director of Technical Services • City of Santa Monica – Building Official • County of Los Angeles – Deputy Building Official

STUART TOM, PE, CBO, PRESIDENT

Responsibilities: Lead Consultant, Building and Safety Support Services

Building and Safety Work History

With over 30 years of public sector experience, Mr. Tom has thorough knowledge and expertise in various aspects of building and safety services along with fire services. As a State of California and Washington licensed civil engineer, an ICC certified building official and plans examiner, he has held positions such as Chief Building Official, Fire Marshal, Engineering Bureau Training Officer, Staff Engineer and Structural Engineer Specialist. As a building official, Mr. Tom Responsible for the oversight of engineering, inspection, and administrative activities for the third largest city within Los Angeles County. He directed all activities within the Permit Services Center including the review of development plans to ensure compliance with zoning, building, fire, traffic, and grading standards. As a Fire Marshal, Mr. Tom was responsible for oversight of fire- and life-safety standards necessary to protect the general population along with the management of Fire Engineering Division, which performs fire plan check and inspection for all new construction throughout the city. The department also administered programs related to hazardous and industrial waste management critical to protect the environment.

Due to his commitment to safety, Mr. Tom was selected as the state's Building Official of the Year by the California Building Officials Association in 2006, and as Building Official of the Year in 2009 by the California Fire Chiefs Association/Fire Prevention Officers. As a recognized expert in various fields of structural design and life-safety systems, Mr. Tom is the recipient of several other awards, including the CALBO President's Award in 2010, and he was inducted as a Fellow into the Institute for the Advancement of Engineering in. Mr. Tom's experience was acquired while employed with the following entities:

- **JAS Pacific** - President
- **City of Glendale, Fire Department** - Fire Marshal
- **City of Glendale, Building & Safety Department** - Building Official
- **City of Los Angeles, Department of Building and Safety** - Engineering Bureau Training Officer
- **City of Los Angeles, Department of Building and Safety** - Staff Engineer
- **City of Los Angeles, Department of Building and Safety** - Structural Engineering Specialist

JACK LEONARD, PE, CBO, VICE PRESIDENT-Project Manager

Responsibilities: Building and Safety Support Services

Building and Safety Services History

With over 30 years of experience, Mr. Leonard has a strong combination of both private and public sector expertise in building services. As a California licensed civil engineer and ICC certified building official, he has held positions such as Assistant Engineer, Design Engineer, Plan Review Engineer, Building Director, and Building Official. Mr. Leonard served as the Building Director for the City of Bakersfield from which he retired after over 16 years of service. Mr. Leonard's lengthy experience includes expertise in building structural, building life safety, mechanical, plumbing, and electrical reviews. He was responsible for the development and implementation of department policy; managed, organized, and oversaw the acquisition of personnel; directed the development and implementation of annual budget.

Mr. Leonard also chaired and participated as a member of the Board of Zoning Adjustment; acted as the Public Hearing Officer for Code Enforcement Hearings and Animal Control Appeals Board; represented the Building Division at City Council meetings, Planning Commission meetings, Board of Building Appeals hearings, Accessible Appeals Board hearings, and at civil and criminal court proceedings. Another key area of responsibility was the interpretation and enforcement of California Building codes, laws, ordinances and regulations and the calculation and development of fee structures for building divisions. Having managed several types of building departments at different levels in the public sector, Mr. Leonard has acquired the ability of quickly and efficiently assessing service levels and needs. While with JAS Pacific, Mr. Leonard has served as the Building Official for the City of Hermosa Beach and as the Building and Safety Director for the City of Santa Monica. Additionally, Mr. Leonard has authored multiple ordinances that subsequently were adopted into the State of California Building Code. Mr. Leonard's experience was acquired while employed with the following entities:

- **JAS Pacific** - Vice President
- **City of Santa Monica, Building Department** - Building Director
- **JT Leonard Engineering** - Structural Engineering Consultant
- **City of Bakersfield, Development Services Department** - Building Director/Plan Check Engineer
- **City of Bakersfield, Public Works Department** - Design Engineer I & II
- **Minner & Davis Structural Engineering** - Design Engineer
- **Boyle Engineering Corporation** - Assistant Engineer

Project Team Members

JAS Pacific is prepared to provide as-needed plan review services to the City and has adequate resources to meet existing and future increased workloads. This provides for an instant reliable workforce to continue providing services within the varied communities throughout the City. With nearly 100 employees, JAS Pacific shall have resources available to meet the City's varying needs through the duration of the contract.

All assigned staff have experience with a California city or county and/or in a related construction field. Additionally, staff are registered or certified in accordance with the CA Health and Safety Code Section 18949.28 from the ICC (International Code Council), APWA (American Public Works Association), NFPA (National Fire Protection Association), and/or other appropriately recognized state, national, or international organizations or agencies, as determined by the City. The area of registration or certification will be closely related to the primary job function, as determined by the City.

Team Member	Education Licenses/Certifications	Work Performed
Kris Anderson Building Inspector	International Code Council: Certified Building Inspector, Electrical Inspector, Mechanical Inspector, Plumbing Inspector	Over 8 years of building & safety experience: • JAS Pacific, Senior Building Inspector • City of Bellflower, Contract Building Inspector • Home Depot, Contractors Desk • Clear Flow Plumbing, President • McDonald Douglass, Sr. Planning Engineer
Christopher Oberle Building Inspector	International Code Council: Certified Building Inspector, Electrical Inspector, Mechanical Inspector, Plumbing Inspector	Over 18 years of building & safety experience and 20 years of construction experience: • JAS Pacific, Senior Building Inspector • City of Torrance, Contract Building Inspector • City of Chino Hills, Building Inspector • Various Employers, Union Carpenter
Richard Eldridge Building Inspector	International Code Council: Certified Fire Inspector, Fire Sprinkler Reviewer, Building, Electrical, Mechanical, Plumbing Inspector State of California: Fire Code Inspector Education: Associate of Science	Over 20 years of building & safety experience: • JAS Pacific, Building Inspector • City of Huntington Beach, Fire Inspector • City of Huntington Beach, Building Inspector • US Navy, Chief Petty Officer Builder

KRIS ANDERSON

Responsibilities: Building Inspection Services

Building and Safety Work History

With nearly 8 years of performing building inspections and over 25 years in the construction industry, Mr. Anderson has obtained extensive experience in all aspects of inspection services. As an ICC certified Building Inspector, Residential Electrical Inspector, Commercial Electrical Inspector, Mechanical Inspector, and Plumbing Inspector, he has held positions such as Senior Building Inspector, Building Inspector, and Senior Planning Engineer. While serving in these capacities, Mr. Anderson has gained comprehensive experience conducting inspections of various residential, commercial, and industrial projects ensuring code compliance. Additionally, he conducted inspections of new construction, underground utilities, and alterations/remodels and verified that as-built drawings were maintained and materials met required standards. Mr. Anderson is also responsible for reading and interpreting architectural and engineering drawings and performing field checks and verifying accessibility requirements; inspects and approves work at each of the required stages of construction and orders corrective action if necessary; prepare reports for inspections. Mr. Anderson assists the general public, architects, contractors, and builders in the field and in the office; explain and interpret requirements and restrictions, respond to inquiries, and provide code clarification. Mr. Anderson experience was obtained while employed with the following:

- **JAS Pacific** – Building Inspector
- **City of Bellflower, Building & Safety Division** – Contract Building Inspector
- **Home Depot** – Contractor's Desk
- **Clear Flow Plumbing** – President
- **McDonald Douglass** – Senior Planning Engineer

Education / Professional Licenses and Certifications / Affiliations

Interantional Code Council

Building Inspector
Residential Electrical Inspector
Commercial Electrical Inspector
Mechanical Inspector
Plumbing Inspector

Relevant Experience

Building Inspection, City of Bellflower, CA: provided multi-discipline inspection of mixed use Belmont Court which consisted of 30 2-story condos over 6000 square feet of ground level retail shopping space for restaurants with outdoor dining along with a 60 space parking garage.

Building Inspection, Rancho Mirage, CA: provided multidiscipline inspections of 16 story casino with 314 rooms being equivalent to 510,000 square feet including 24 executive suites, with 60,000 square feet of meeting space of which 10,000 square foot a conference center. Additionally, a 13,000 square foot spa, 40,000 square feet of high end restaurants were also built.

Building Inspection, City of Bellflower, CA: provided multidiscipline inspection of 650,000 square foot, 6 story Kaiser hospital and medical office building renovation with parking garage along with 43,000 square foot central plant. The facility also included pharmacies, eating areas and surgical center.

Christopher Oberle

Responsibilities: Building Inspection Services

Building and Safety Work History

With over 18 years of experience in the building and safety field, Mr. Oberle has acquired invaluable experience in many aspects of construction and conducting building inspections services. As an ICC Certified Combination Inspector, Mr. Oberle has held positions such as Building Inspector I, II & III while working on behalf of various jurisdictions. While serving in these capacities, Mr. Oberle has gained comprehensive experience conducting inspections of various commercial, industrial, and residential projects. Duties performed included but not limited to interpreting and applying the building code, has knowledge of all phases of the permitting process, ensured project's compliance with issued permit, assisted public as necessary. Mr. Oberle also brings 25+ years of construction experience as a Union Carpenter. Mr. Oberle's experience was acquired while employed with the following entities:

- **JAS Pacific** - Contract Building Inspector
- **City of Chino Hills, Building & Safety Department** - Contract Building Inspector
- **Union Carpenter** - Various Employers

Education / Professional Licenses and Certifications / Affiliations

International Code Council

Building Inspector
Electrical Inspector
Mechanical Inspector
Plumbing Inspector

Relevant Experience

Building Inspection, Rancho Palos Verdes Estates, CA: provided multidiscipline inspections on a 17,000 square foot custom home including a septic tanks, media room, multiple bathrooms, a 6 car garage, swimming pool and "mother-in-law" quarters. A complete dry cleaning facility was located in the basement that required special permits for venting. The project has a \$33 million valuation in Rancho Palos Verdes.

Building Inspection, City of La Mirada/County of Los Angeles, CA: performed multidiscipline inspections on new construction and renovations for Biola University. Projects included an official size soccer field on top of parking garage, renovation of a 10,000 square foot cafeteria, a new 12,000 square foot library, a 5 story coed dormitory with parking structure, a 200 yard foot bridge and a 300 person occupancy chapel.

Building Inspection, City of Chino Hills, CA: provided multidiscipline inspections of residential and commercial projects including various new home tracts throughout the City and commercial projects that included Starbucks, Costco and Lowes.

Richard Eldridge

Responsibilities: Building Inspection Services

Building and Safety Work History

With over 15 years of experience in the inspection field, Mr. Eldridge has acquired invaluable experience in many aspects of construction and conducting building inspections services. As an ICC certified Commercial Building and Fire Inspector, Mr. Eldridge has held positions such as Building Inspector I, II & III, Fire Inspector I & II and Special Inspector on various high end commercial projects. While serving in these capacities, Mr. Eldridge has gained comprehensive experience in conducting inspections of various building and facility projects including foundations, building, electrical, plumbing, and mechanical systems. Mr. Eldridge is also responsible for interpreting and applying the building codes, issuing inspection notices and notices of non-compliance, and assisting the public as necessary. Mr. Eldridge has an extensive construction background in the development of high end custom homes, multifamily residential and commercial projects. Mr. Eldridge's construction background as a designer and builder allows for a more broad understanding of construction practices, therefore, a higher level of customer service is provided. Mr. Eldridge's experience was acquired while employed with the following entities:

- **JAS Pacific** - Contract Building Inspector
- **City of Huntington, Beach Fire Department** – Fire Prevention Inspector
- **City of Huntington Beach, Building & Safety Department** – Building Inspector
- **City of Fullerton** – Building Inspector
- **City of Irvine, Building & Safety Department** – Building Inspector
- **Leisure World, Building & Safety Department** – Building Inspector
- **County of Los Angeles, Building & Safety Department** – Construction Inspector

SCOPE OF SERVICE

JAS Pacific is prepared to provide the City with seamless quality inspection services within exceptional timeframes. Our service procedures are thorough meeting all expectations including great customer service and efficient response times, without compromising quality. As part of JAS Pacific's over arching goal to attain customer satisfaction, a tailored service delivery system is developed, service models are effective and efficient, and procedures adapted to meet the City's requirements. We are confident that we can accommodate the City's financial needs as well as provide the desired level of customer service. Additionally, because of our available resources, we have the ability to alter the levels and types of service to address increased workloads and customer needs.

JAS Pacific Services	City Benefits
Personnel	Superior Level of Service
Expertise	Consistent Code Application
Staffing Resources	Flexibility to Meet Various Levels of Demand
Contract Costs	Expenses are Consitent with Revenues

JAS Pacific will ensure that all structures are equal to or exceed the applicable City, State, and Federal regulations. JAS Pacific understands the City's needs and we have the resources to provide timely deployment. With limited City resources, contracting with JAS Pacific will afford the City more flexibility in the allocation of such resources. Assigned personnel will provide building and safety support and related services as-needed ensuring compliance with the most recent adopted version of California Building Codes, including the following:

- ✓ California Residential Code
- ✓ California Building Code
- ✓ California Green Building Code
- ✓ California Mechanical Code
- ✓ California Plumbing Code
- ✓ California Electrical Code
- ✓ Local Ordinances

Acting on behalf of the City, JAS Pacific will provide superior levels of customer service, consistent code application, and develop seamless working relationships with City staff. Contracting with JAS Pacific will provide the City with a cost-effective alternative to a fully internally staffed department and allow the City to focus on other critical municipal matters. JAS Pacific will perform applicable functions as an extension of City staff and will follow all City procedures and directives. JAS Pacific understands the importance of excellent customer service not only to the City but to the clients we serve. We strive to meet and exceed all client expectations and we will create a cooperative work environment with the City and the clients we serve. Staff will not only identify building code issues within the plans, but also will address the big picture and offer helpful suggestions to reach life-safety and code compliance standards. JAS Pacific will support the City in attaining its goal of providing timely, efficient, and effective services. Our understanding and approach to the proposed services is detailed below.

Building Inspector Duties & Responsibilities

- ✓ Inspects buildings in a thorough manner detecting errors and deviations from approved plans, and assures compliance with the applicable building codes, and applicable provisions of all state and local ordinances and regulations.
- ✓ Ensures that the quality of building materials and methods used in construction or alteration are in conformance with the applicable codes.
- ✓ Provides useful and helpful information to builders and others regarding state and local construction requirements as well as land use/zoning requirements.
- ✓ Checks building sites to ensure proper building permits have been obtained for the work being done; takes appropriate action to correct violations.
- ✓ Issues code violations, confers with the Senior Building and Safety Inspector, and prepares case records for presentation to the City Attorney's office when prosecution becomes necessary.
- ✓ Makes and keeps accurate logs and records regarding building inspections, violation notices, investigations and other related data which are legible, complete, and up to date.
- ✓ Studies new materials and methods of building construction to keep abreast of modern development.
- ✓ Recommends issuance of certificates of occupancy after conducting a final inspection of completed work and giving approval to structures and installations.
- ✓ Anticipates construction problems and consistently takes steps to minimize the amount of corrective work that needs to be done by the applicant or contractor.
- ✓ Makes efficient use of time, keeping up with assigned inspection workloads and inspection appointments, and completes a reasonable number of inspections given work time available.
- ✓ Reads and understands building plans and effectively interprets such plans in conducting field inspections required for the project.
- ✓ Inspects construction of buildings in a timely manner to assure compliance with applicable codes, approved plans, and policies. Identifies needed corrections.
- ✓ Assures that deficiencies identified during inspections are promptly corrected.
- ✓ Maintains accurate documentation of construction errors, omissions, and violations which are upto-data, legible, complete, and descriptive of problems encountered and resolution thereof.

DELIVERY: SCOPE OF SERVICE

JAS Pacific proposes to tailor a service delivery system that meets and exceeds the City's expectations. Additionally, due to our available resources we have the ability to offer flexibility that results in the greatest benefit to the City. We can provide the City with options on the configuration of staffing for the delivery of as-needed building inspection services that strike a balance between efficiency and quality. JAS Pacific, in the delivery of these services, takes care of staffing – including salaries and benefits – transportation, insurance, certifications, and continuing education. All staff are provided a reasonable degree of annual training in accordance with the requirements of AB 717 (California Health and Safety Code 18965 et seq). We understand the City's requirements and know that a service program addressing both components will be satisfactorily negotiated. Our approach to providing qualified staff is detailed in **"Staff Augmentation Flow Chart."**

JAS Pacific will provide all labor, materials, transportation, and equipment necessary for personnel to perform these services throughout the City. Equipment shall include, but is not limited to: business cards, email-enabled smart phones or equivalent, digital cameras, and electronic portable devices such as notebook computers, or any other additional devices as determined by the City. The equipment shall be of a type acceptable by the City. Materials shall include, but are not limited to, all necessary code books and reference materials. Our approach to performing building inspection services is detailed in **"Building Inspection Procedures Flow Chart."**

Customer Service

Customer service is an ongoing strategy that starts with JAS Pacific's key personnel as they are each accessible to City staff at their convenience and this same strategy is utilized by our assigned staff. We strive to be proactive before issues arise and resolve issues quickly.

Quality Control

JAS Pacific prides itself in the technical capabilities of its staff members and we take a multi-faceted approach to ensuring the quality of work provided to our clients. Quality control is addressed at three different levels including staff work performance, administrative oversight, and customer satisfaction. To ensure satisfactory staff work performance and work product quality, staff is encouraged to consult with other staff members on various code-related or jurisdictional topics, seek advice on unique or complex projects, look for specific areas of expertise, and/or learn the new code requirements.

Administrative oversight is also provided which involves our principal staff maintaining a close working knowledge of the product that our staff provides in order to make sure that their work is of the highest quality through periodic work sampling. Additionally, periodic meetings are held to review their progress and the client's needs. Our administrative staff is also highly trained on up-to-date industry methods in their respective area of expertise.

Lastly, quality control is addressed through ensuring customer satisfaction. Any issues or complaints are handled immediately upon receipt. The process leading up to resolution is monitored to ensure a satisfactory outcome and processes are followed to prevent a reoccurrence.

Communication

JAS Pacific believes that effective communication at all levels is a key component to our partnership with the City. Our staff is trained and understands that establishing and maintaining professional working relationships with the City is essential to our success. Staff will attend all meetings as necessary and respond to inquiries by the City, applicants, or other stakeholders promptly and within a 24 hour period. Our general approach to ensuring this includes:

- ✓ **Project Manager** – Oversees Municipal building inspection services being provided to the City, maintains close liaison with City staff as well as our assigned staff ensuring overall satisfaction as well as understanding of outstanding assignments. Manages the assignment of all projects to ensure a balanced and manageable workload.
- ✓ **Building Inspectors** – All assigned staff possess the necessary interpersonal skills required to ensure successful and productive working relationships. All staff maintain open and on-going communication with City staff, applicants, officials, and other stakeholders collaborating to ensure customer satisfaction. Staff report out to the Project Manager regularly to ensure all expectations and deadlines are met.
- ✓ **Management** – Available to provide the City with all the necessary support to meet staffing, reporting, and accounting needs.

Staff Augmentation Flow Chart

Building Inspection Procedures Flow Chart

FEE SCHEDULE

Plan Review - Hourly	
Category	Hourly Rate
Building Inspector I	\$75.00
Building Inspector II	\$85.00
Building Inspector III	\$95.00
Building Inspector IV	\$105.00

Invoicing

The City will receive an invoice on or before the 15th of each month for services provided the month prior. JAS Pacific and the City shall agree to payment terms of Net 45 in the form of electronic deposit or paper check.

IMPLEMENTATION SCHEDULE

JAS Pacific proposes to tailor a service delivery system that meets and exceeds the City's expectations. Additionally, due to our available resources we have the ability to offer flexibility that results in the greatest benefit to the City. We can provide the City with options on the configuration of staffing for the delivery of building inspection that strike a balance between efficiency and quality. JAS Pacific, in the delivery of these services, takes care of staffing – including salaries and benefits – transportation, insurance, certifications, and continuing education. We understand the City's requirements and know that a service program addressing both components will be satisfactorily negotiated. The following flow-chart details our implementation plan:

ADDITIONAL SERVICES

Plan Review

JAS Pacific can provide the Jurisdiction with plan review services both off-site and on. Off-site services will be provided in a timely manner and will be seamless, as our team members are accessible to promptly respond to all inquiries. Upon contract award, JAS Pacific will analyze the Jurisdiction's needs and propose the appropriate service level striking a balance between desired services and cost efficiency.

Permit Technician Services

JAS Pacific CAN provide permit counter services through the contracting of certified Permit Technicians. All permit technicians meet all qualifications, education, and certification/licensing requirements including as needed to perform all required duties. All JAS Pacific assigned permit technicians shall be equipped with the necessary tools and equipment when performing building inspection services on behalf of the City. All assigned Permit Technicians shall work as an extension of City staff.

JAS Pacific personnel shall be responsible for public counter services such as processing automated and manual permits, receiving plan submittals, preparing reports, cashiering, handling customer needs over the phone and in person, and maintaining records in locations throughout the City.

Training

JAS Pacific is committed to the continuous education of all staff through both in-house and external training. Mr. Fady Mattar and Mr. Stuart Tom are ICC certified instructors and have provided training to various clients on the building and other codes and regulations. Mr. Mattar's area of instruction includes plumbing, mechanical, green building, energy and residential fire-sprinkler systems topics. Mr. Stuart's area of instruction includes the California Building and Residential Codes, emergency response, fire and other related topics.

Mr. Mattar has worked with various JAS clients and industry related organizations providing instruction on a range of topics. He was the Training Coordinator for the County of Los Angeles Building Division, creating the training programs for entry-level inspectors, as well as on-going training for inspectors, plan review staff, permit technicians and district office managers. Mr. Mattar prepared and created training booklets and PowerPoint presentations for training on the California Mechanical and Plumbing Codes, Green Building Code and Residential Fire Sprinklers then conducted trainings for ICC Orange Empire, LA Basin, Foothill, Hi Desert, Coachella Valley, and Ventura Chapters of ICC. He has also presented training on code update to jurisdictions including the Cities of Los Angeles, Long Beach, Beverly Hills, Santa Monica, El Monte and the County of Los Angeles. Mr. Mattar has also conducted code classes for UCLA Extension Program and for organizations such as ICC, IAPMO and PHCC.

Counter

JAS Pacific can provide the City with permit issuance/counter services for on-site grading, erosion control, building, electrical, mechanical, and plumbing work on an as needed basis to supplement the City's full -time Senior Building Permit Technician, through the contracting of Permit Technicians. All Permit Technicians meet all qualifications, education, and certification/licensing requirements including an ICC Permit Technician certification, two years experience performing technical building and safety support functions, high school diploma, and strong solution-oriented customer service as detailed in the request for proposals. Basic services shall include public counter services such as processing automated and manual permits, receiving plan submittals, preparing reports, cashiering, handling

customer needs over the phone and in person, and maintaining records in locations throughout the City. Detailed duties and responsibilities are further discussed below and services shall be provided based on service demand.

Code Adoption

At the request of the City, JAS Pacific can perform research of the City's Municipal Code and provide draft documents for review by the City Attorney and other responsible departments for the adoption of the codes, along with any desired City amendments to these codes. Once these documents are approved, JAS Pacific can help schedule the required hearings before the City Council, testify before the City Council, and answer questions regarding proposed amendments. JAS Pacific personnel has extensive experience in area of code adoption and can assist the City in future local adoptions.

Code Enforcement

JAS Pacific can provide code enforcement services by proactively identifying conditions that threaten the health and welfare of the citizens of the Jurisdiction and to developing long-term strategies that resolve contemporary community problems, and promote community pride and stability. In order to enhance and sustain the highest quality of life standard, we will provide exceptional customer service and rapid and effective responses.

CASp

JAS Pacific can provide CASp certified inspections and plan review with staff knowledgeable the requirements of the State Senate Bill. Our staff not only can perform these duties but are available to City staff for further clarification on various issues that arise with the bill's implementation.
