16. How much time, on a monthly basis, do you anticipate spending on preparation for and attendance at meetings of the body to which you desire appointment?

I would attend each meeting. As I am continually involved in ADA issues as work, I do not anticipate needing to spend much any additional time preparing for a commission whose sole purpose is to explore ADA issues.

17. Why are you interested in appointment to a City Commission, Board, Committee or Task Force?

This would be a personally valuable experience for me. Additionally, I would bring a great deal of knowledge and resources to the ADA commission and would help enrich the advisement process.

18. What is there specifically in your background, training, education or interests which qualifies you as an appointee?

I run a company whose sole purpose is to provide expert witness to attorneys and to help businesses and institutions remedy their access (ADA) violations. I have done blueprint examination and physical site inspections for the past five years+ years. I have also worked with architects, attorneys and contractors in an advisement capacity.

19. What do you see as the objectives and goals of the body to which you seek appointment?

To help Culver City become as access-compliant as possible for the people of Culver City (and its visitors) and to avoid future litigation stemming from accessibility issues.

20. How would you recommend the objectives and goals of the body be changed or augmented?

Most bodies approach access from the point of view of 'damage control' which is a reactionary stance as news happens. My continual exposure and connections to advocacy groups and current lawsuits would help refocus the body towards addressing potential future litigation/access issues Culver City could face as I am regularly exposed to some of the internal discussions that advocates have in the increasingly dynamic area of

22. What special qualities can you bring to the body to which you seek appointment?

I have extensive professional experience with how ADA lawsuits arise and the various issues surrounding how accessibility impacts areas of policy and physical access. I make my living helping defend businesses for accessibility -- this kind of experience is not something that the body has.

Dear City Council of Culver City,

Thank you for reviewing my application to the Culver City Disability Advisory Committee. I am applying to be a Committee member because I strongly believe I have the qualities and skills to contribute to this group and leave a positive impact on Culver City.

One of my main goals is to foster adaptive recreational activities within Culver City. Studies have shown that children with chronic conditions may have a higher risk for sedentary lifestyles, suggesting that this population of children could benefit from participating in more physical activities. Through the model I have established in teaching an Adaptive Taekwondo Class for Culver City Recreation, I hope to guide other instructors to establish other Recreational Classes that will foster psychosocial and physical development in special-needs children.

Thank you for your time and I look forward to any opportunities to serve the city of Culver City.

Sincerely,

A handwritten signature in black ink, appearing to be 'Chu-Tang (Sean) Yee', with a long horizontal line extending to the right.

17. Why are you interested in appointment to a City Commission, Board, Committee, or Task Force?

I am interested in helping Culver City develop more adaptive recreational activities that accommodate the individual needs of children with physical and/or developmental disabilities. The Culver City Disability Advisory Committee provides the opportunity to collectively hear from community members and systematically encourage growth of adaptive recreation within Culver City. I am excited for the opportunity to serve Culver City's constituents and making a positive impact on the local special-needs community.

18. What is there specifically in your background, training, education or interests which qualifies you as an appointee?

As a Pediatric Therapist, I gained an awareness of the everyday needs of children with disabilities and of their families. I worked with both low-income families and families with substantial wealth. From this gamut of experiences, I saw the challenges face by families with special-needs children, regardless of their socioeconomic status.

With years of research experience and a working relationship with the Department of Pediatrics at the UCLA School of Medicine, I will help bring medical resources to Culver City as well as opportunities to collaborate with UCLA's faculty physicians.

Having lived in Culver City for 6 years I am deeply connected with the community, I volunteer for the Socialites event, work with the Vista School on a regular basis, communicate with the Exceptional Children Foundation on Washington Blvd., and have attended The Help Group events.

Lastly, after 3 years of teaching a Taekwondo class for special-needs children out of the Veteran's Memorial Building, I understand the steps and procedures necessary to help other instructors establish adaptive recreational activities.

I strongly believe that my involvement in the local community will help me hear the needs of Culver City residents and effectively transmit that information to other City officials.

19. What do you see as the objective and goals of the body to which you seek appointment?

The objective of the Disability Advisory Committee is to provide assistance in all matters related to people with disabilities in the community. The goals of the Disability Advisory Committee are to advise the City Council on issues related to people with disabilities as well as provide a forum for local issues to be heard and processed.

20. How would you recommend the objectives and goals of the body be changed or augmented?

At this point, I do not see any necessary changes to the Disability Advisory Committee's goals and objectives.

21. How would you help achieve the body's established objectives and goals?

I would use my relationship with local businesses and organizations to increase collaboration with the Social Services department. I would also mobilize these connections in order to increase participation in special events within Culver City, such as the Kid's Carnival in October of every year.

I would help create an online forum or website in which people within the community could provide feedback or comments on issues affecting people with disabilities within the City.

I would work closely with Culver City Recreation in order to encourage the growth of adaptive recreation classes for children with special needs.

I would encourage students within the Culver City Unified School District to volunteer their time in adaptive recreational classes as a way to both earn volunteer hours and gain awareness of the challenges faced by people with disabilities.

22. What special qualities can you bring to the body to which you seek appointment?

I bring to the Culver City Disability Advisory Committee a good balance of determination, creativity, and knowledge. With these qualities, I hope to contribute to

Culver City by helping alleviate everyday challenges faced by people with disabilities as well as strengthen the sense of community for families caring for special-needs children.

By remaining unbiased and putting an effort towards understanding the interests of both parties.
