

Proposed Maximum Number of Cannabis Business Locations by Business Type

For consideration by the City Council of the City of Culver City on February 12, 2018

The City of Culver City will issue up to the maximum number of permits by permit type as follows:

Permit Type	Maximum Number of Permits
Storefront Retail	3
Delivery-only Retail	5 ^{A,B}
Manufacturing	6
Distribution	6 ^B
Cultivation (Indoors)	3
Testing Laboratory	4

During the initial application period, should more qualified applicants apply for a commercial cannabis business permit than the maximum number of permits allowed for Manufacturing, Distribution, Cultivation, Delivery-only Retail, or Testing (subject to comments A and B, below), the City Manager will implement a lottery or another approach (not first-come-first-served) to determine which applicants receive a permit.

^AThe City will initially only permit up to two delivery-only retailers. The other three of the five delivery permits will be initially set aside for the possible three storefront retailers. In the event one or more storefront retailer does not apply for or receive a delivery permit, the permits may be made available for a delivery only retailer.

^BDistribution and/or delivery permits issued to a manufacturing permit holder (pertaining to its manufacturing business and on the same property) will not count towards the maximum number of distribution or delivery-only permits allowed.
