

**THRIFTY
TREE SERVICE**

Response to Questionnaire

Implementation Schedule

Include a detailed implementation schedule with an estimated project start date of August 10, 2017 and note key project milestones and timelines for deliverables. Identify any assumptions used in developing the schedule.

The project start date will be August 10, 2017 and will end after 3 years on August 9, 2020. The First year renewal option will start August 10, 2018, and the second renewal option will start August 10 2019. Once Thrifty Tree Service has been awarded the contract, all staff members listed in the personnel chart will have a part in performing and or completing this contract. All employees will be provided with a copy of the work order issued by Culver City and provide the appropriate service within a timely matter.

After Thrifty Tree Service, Inc. is provided with the work order to proceed with trimming, our crew will then set up our work zone properly, starting off with a closure of the work zone using caution tape, traffic cones, and signs indicating tree work is being performed. We will have a team member watching our surrounding areas and will not allow any unauthorized personnel to enter the work zone. We will then communicate with Culver City regarding all completed items, unfinished work, or hazards.

**CITYWIDE TREE MAINTENANCE SERVICES
RFP #1629**

SCHEDULE OF TREE WORK COMPENSATION

The Contractor understands the tree population of the City of Culver City and agrees to provide the specific services to the City as listed in the RFP

1. GRID OR ANNUAL TREE TRIMMING

A systematic tree trimming program composed of existing grid or pre-designed districts that are trimmed in their entirety on a set schedule. Trees in a grid will include all large, medium and small trees. All trimming is performed in accordance with the standard established by the International Society of Arboriculture, American National Standards Institute and the City.

2. FULL TRIM BASED ON SERVICE OR SPECIAL REQUESTS

Trees requiring service prior to their regularly scheduled grid or annual trim to rectify a specific problem such as blocking street lighting or signs, right-of-way clearance for utility lines, or broken limbs will be performed as a "Service Request".

Size	Unit	Unit Price
Full trim 0-6" dbh	per tree	\$ 75
Full trim 7-16" dbh	per tree	\$ 155
Full trim over 16" dbh	per tree	\$ 355
