Damage to D/W. Special condition due to elderly handicapped residents. Arborist recommends removal.

I have a family with two young girls and a wife Multiple Sclerosis. I have an 83 year old Mom and a 72 year old Father-in-law. Per the photos attached, the issues with the berries go way beyond a "nuisance". There is the hazard to slip and fall (which has happened). The tiny flies that gather in our front porch area is disgusting and a hazard to our health. The amount of money I continue to spend on tools and equipment to clean the mess is beyond a nuisance; it is a financial burden. When I clean the mess, within two to twelve hours, it looks the same.

In the attached photos depicts the mess it creates on our shoes and inside our cars. The danger of slipping on the gas pedal and brake pedal is a huge safety problem. I can't keep up with how fast the mess starts all over again.

I can't expect my family and friends to walk though this disgusting mess just to get to my front door

Thank you,
