Mr. Sol Blumenfeld, Assistant Director
CULVER CITY COMMUNITY DEVELOPMENT
9770 Culver Boulevard
Culver City, CA 90232
(310) 253-5777

Subject: Additional Services (revised)
Per Psomas Job Number 1CUL0701
Washington/National Project

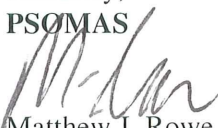

Dear Mr. Blumenfeld:

We are requesting authorization with the work relative to increasing the aerial mapping coverage to now include Washington from Robertson to Wesley including 250 feet south of Washington on Wesley; increase the coverage of National down to Wesley; 300 feet south of Washington on Landmark (see attached Exhibit "A"). The mapping will include the right-of-way, underground utilities (per available record maps) merged with visible signs of utilities and will also note striping. This task will also include the establishment of the centerline and right-of-way of the above-mentioned streets based on centerline ties obtained from the city and associated county assessor's maps. Please note that if there is a street widening or vacation that is not noted on the centerline ties or assessor's maps, it will not be shown on this mapping. In addition, we will also be providing a color Digital Orthophoto of the original as well as this additional area with a 0.25 foot pixel resolution. Lastly, this Scope of Services does not include underground utility detection or potholing.

The cost to perform this work will be \$18,500 and can be accomplished within three weeks of authorization. Charges will be billed per the provisions of our earlier contract.

We look forward to our continued relationship with you and invite any inquiries you may have regarding our proposed services. Please contact me at (213) 223-1480 if you have any comments or questions.

Sincerely,
PSOMAS

Matthew J. Rowe, PLS
Vice President
