Chief Financial Officer Approval: Jeff Muir (by M. Noller) (09/03/14)	City Manager Approval: John M. Nachbar (09/03/14)

RECOMMENDATION:

Staff recommends the City Council approve the final plans and specifications and authorize the publication of a notice inviting bids for the Washington Boulevard Striping and Bike Lane Project, PZ-965 (Project).

BACKGROUND/DISCUSSION

The existing lane line striping and pavement markings on Washington Boulevard from Sepulveda Boulevard to the westerly city boundary at Walnut Avenue/Del Rey Avenue are faded and are in need of repainting. To enhance lane line visibility on the concrete roadway, the project will include black paint extensions to the standard lane lines, in the same fashion as used on the Sepulveda Boulevard widening project.

The Culver City Bicycle & Pedestrian Master Plan (BPMP) categorizes Washington Boulevard as a Primary Bikeway Corridor in need of bike facility improvements. The proposed Project would add approximately 2.45 miles of Class II bike lane or Class III bike route on Washington Boulevard. Shared lanes (bike routes) are proposed where lane widths do not allow adequate space for bike lanes. The proposed bike lane and bike route (shared lanes) segments are:

Proposed Bike Lanes/Bike Routes on Washington Boulevard:

1. From Walnut Ave./Del Rey Ave. to Walgrove Ave. – Bike Route
2. From Walgrove Ave. to Lyceum Ave. – Bike Lane
3. From Lyceum Ave. to Wade St. – Bike Route
4. From Wade St. to Chase Ave. – Bike Lane
5. From Chase Ave. to Centinela Ave. – Bike Route
6. From Centinela Ave. to Sepulveda Blvd. – Bike Lane

City of Culver City, California
Agenda Item Report

The proposed bike lane/bike route will connect to the existing bike lane/bike route in the City of Los Angeles from the Project limit to Venice Beach.

The City's engineering consultant, Willdan Engineering, prepared the Project plans and specifications at a cost of \$23,320.

FISCAL ANALYSIS:

There is no fiscal impact associated with this item at this time.
