Subject: Re: Fox Hills Basketball Courts

I spoke to some of the "regulars" in the park today, and no one understands what the nay-sayers are complaining about. Some of us are in the park every day. If the CC City Council has approved this project, then the nay-sayers need to convince the Council to change their vote. If the Council has voted to make these improvements, Parks and Rec cannot make changes. The issue would need to go back to the Council. So, it seems to me that they are just "venting" to the Parks and Rec Commission, and they are out of order.

Subject: Basketball park proposal comment

Hi Patrick – My name is Calvin and I will be a new resident of the beautiful culver city starting February 3rd 2013. I love basketball so my question to you is where exactly is this proposed court? And if passed when will it be ready to be played on? Thanks!

Subject: RE: Response Email for Fox Hills Park Basketball Comments
Importance: High

Dear Mr. Reynolds,

I am a long-time Culver City Fox Hills resident - when my family first moved to the Fox Hills area, the mall was just being built and the park was not even a park yet! Saying all that to say that we have seen the changes both good and bad and back to good, through the years. We are aware of the previous problems that have existed at the park and do not wish to revisit those problems. I understand there is conversation about making the basketball court an adult full size court. Let me just say that the full name of Fox Hills park is Fox Hills **Mini** Park, emphasis on "**mini**"! It's a small park, not big enough to be a dog park, which the Fox Hills residents fought on that account, and it's not big enough or designed to have a full size adult, competition league basketball court which the Fox Hills residents will fight on this account as well. The park is a family park, young mothers and fathers play with their children in the park playground, on the grass, in the paddle tennis courts-when they can get a court- and on the basketball half court. It is already difficult at times, to get a tennis or paddle tennis court for a "family friendly" game, so we know that if the basketball court is turned into an adult full size court, that will be nonexistent for "family friendly", "child/youth friendly" basketball. The parking is an issue, a big issue. It's already an issue when the children's soccer games are happening. It's an issue with the tennis and paddle tennis games that are already happening. It's an issue with the volleyball games that are already happening, even at night. It's an issue with the residents and the friends and family of residents. It's a big issue!! Fox Hills residents are already feed up with the parking issue. Saying all that to say that we would like to keep our Fox Hills Mini park family friendly and the parking issue to a minimum as much as possible. We have enough activities going on in the park without full grown men running into older people on the walking path, which is just right next to the basketball court, there is no separation, no barriers, and we want to keep it friendly and family oriented park! Thank you!!

Tricia Cochee
