

**Tannery Creek Assurance for the
Continuation of the Agreement of Terms
In support of autoChalk**

To the City of Culver City

April 7, 2020

Att: Dianne Gifford

From Tannery Creek Systems Inc., Manufacturer of autoChalk

Since the inception of our relationship with Culver City in February 2016, Tannery Creek has strived to provide the best level of support and care for Culver City to facilitate the operation of the autoChalk equipment, provide responsive and good technical support and work hard to ensure we meet the terms of the support contract and ensure the City's success with parking management.

Tannery very much wants to assure the City that we will continue to provide the same level of support and care for your autoChalk investment under the terms of the new five year contract that is being extended, which extends essentially the terms of the initial contract.

Regards,

Bill Franklin, P.Eng.

President, Tannery Creek Systems
