<u>RECOMMENDATION:</u> Staff recommends the City Council: 1) Introduce an Ordinance (Attachment 1) amending sections 9.01.360 and 9.10.055(a), and adding subchapter 9.10.600, of the Culver City Municipal Code relating to allowing dogs on leashes on designated dog paths in certain City Parks; and, 2) Adopt a Resolution (Attachment 2) designating certain pathways or walkways of certain public parks as “Pooch Paths.” <u>BACKGROUND:</u> In the recent past there has been community discussion regarding whether or not to allow dogs in parks within Culver City so long as they are leashed. At the Parks and Recreation Commission’s request, staff brought a proposed pilot program to allow dogs on leashes in Culver West Park for a period of ninety days before the City Council at their July 25, 2005 meeting (Attachment 3). During the public comment portion of the meeting, Culver West Park Neighborhood residents expressed their concerns about having to go out of their way and walk long distances in order to get to the streets and roadways on the other sides of the park in order to avoid crossing the park while walking their dogs. In response to citizens’ concerns, an alternative motion was brought forward by Council and Council directed staff to come back with

a plan to allow dogs to pass through Culver West Park when leashed and under the control of a responsible party and so long as the dogs remained on concrete walks and not in the grass (5-0).

On August 17 2005, a site visit to Culver West Park was made by Parks and Recreation Commissioner (now Chair) Vicki Daly Redholtz, PRCS Director William La Pointe, Deputy City Attorney Heather Iker, Scott Malsin (now Council member), acting as the representative of the Culver West Park Neighborhood Association, and Patricia Mooney, PRCS Senior Management Analyst. During that visit, various options for the location for the "Pooch Path" were discussed. The consensus of the group was that the best way to allow dogs to pass through the park would be to give community members who are out walking dogs access to the other streets and walkways along those streets via the sidewalk from Mc Connell Boulevard through the pass through easement to the park to the north of the tot lot and on to Wade and Moore Streets (Attachment 4).

The advantages of having the path in this location were discussed at the October 4, 2005 Parks and Recreation Commission meeting (Attachment 5). These advantages were as follows:

1. Convenience – The sidewalk leads directly from the McConnell Boulevard walkway on the east of the Park to the Wade Street easement on the north. The Wade Street easement is easily accessed by those in the surrounding neighborhood, either by car or on foot.
2. Appropriate surface – Council indicated that concrete should be required for the "Pooch Path."
3. Relatively inexpensive signage – In addition to the appropriate standard signage citing the associated Ordinance, paw prints painted on the sidewalk will be the only other cost associated with marking the path for the public.

At that meeting Commissioner Deen asked about the additional cost if a fence were to be constructed along the playground to protect children in the playground area from the dogs passing by with their owners. It was subsequently determined by staff that such a fence could be included as part of the grant-funded Culver West Alexander Park Improvement Project (P-835). Updates on the status of legal issues related to the "Pooch Path" were given to the Parks and Recreation Commission by Deputy City Attorney Heather Iker at its January 3 and February 7, 2006 meetings.

DISCUSSION

It was recommended by the City Attorney's Office that the most appropriate way to designate a "Pooch Path" at a specific park within Culver City (in this case, Culver

City of Culver City, California
City Council Agenda Item Report

West Alexander Park), would be to amend the Culver City Municipal Code to exempt the use of a “Pooch Path” from the prohibition against dogs in parks, and to adopt a Resolution designating certain pathways or walkways of certain public parks as “Pooch Paths.” Designating a “Pooch Path” at Culver West Alexander Park by Resolution, as opposed to amending the Municipal Code to specifically designate such “Pooch Path”, gives the Council the flexibility to designate “Pooch Paths” in other parks within Culver City should they desire to do so.

FISCAL ANALYSIS:

Costs associated with designating the route as a “Pooch Path” are expected to be approximately \$500.00 for sign, paint and stencils (PRCS Parks Account 10133100.514100 – Departmental Special Supplies). Staff time devoted to the project will be approximately five hours (PRCS Parks Account 10133100.411100).

The cost of a fence between the “Pooch Path” and the children’s playground at Culver West Alexander Park has yet to be determined. This fence is still under consideration, with any expenses being included in the Culver West Park Improvement Project (42300835.730100 – Improvements Other Than Building).

Item A-2

Consideration of a Recommendation to City Council of Designated Dog Paths within Culver City Park

Staff provided a summary of the material of record.

Jeannine Stehlin noted confusion between items A-1 and A-2 and felt that addendums to the Culver City Ordinance should be handed on a case by case basis like this one. She supported a pooch path in Culver City Park from Jefferson to the Bone Yard with a caveat that the children in the playground be protected and dogs not be allowed in the playground.

Jamie Wallace agreed with comments made by the previous speaker noting that she felt access should be limited to the shortest, most accessible path.

Robert O'Meara cited instances of being menaced by dogs in the park and expressed concern with enforcing the ordinance. He felt the pooch path was a capitulation to those who did not respect the ordinance.

Homer Gentry was concerned with access to the restroom area and with being punished for the actions of those who did not respect the ordinance.

Christopher Idryo indicated that he did not own a car so he hoped that walking his dog to the park would become legal.

Carrie Back felt the item would clarify how to get into the dog park.

Discussion between staff and the Commissioners included: where the dogs would be when the owner is using the bathroom; concerns with the proximity of the path to where children play; consideration of using alternate bathrooms; and consideration of alternate paths.

Vice Chair Daly Redholtz clarified that although she served as Chair of Friends of the Culver City Dog Park, she did not have a conflict of interest. She noted parking issues at the park and felt that the pooch path would solve a problem.

Additional discussion between staff and the Commission included: the length of time people stayed at the dog park; restroom access; accessibility issues; code enforcement; safety issues with Leash Lane; and the pilot program at Culver West Park.

Commissioner Kim proposed adopting the staff recommendation with a directive to report back on the status after one year.

Further staff and Commission discussion included: clarification that the ordinance would have to be amended to reflect the change; no incidents reported at Culver West Park; clarification that without the change people have to break the law to use the bathroom; a suggestion that citizens report issues as staffing is short; restroom procedures; keeping people with dogs away from the park by allowing use of the other restroom; a suggestion to put up a fence as a barrier between the sandy area and the walkway; improvements to that part of the park; the PEP grant; ADA compliance; elimination of the longer path; and a suggestion to create a holding pen while owners use the restroom.

MOVED BY COMMISSIONER COOPER TO RECOMMEND THAT CITY COUNCIL CONSIDER, APPROVE, AND AUTHORIZE DESIGNATED DOG PATHS IN CULVER CITY PARK AS NOTED ON ATTACHMENT A. VICE CHAIR DALY REDHOLTZ SECONDED THE MOTION WHICH PASSED ON THE FOLLOWING ROLL CALL VOTE:

AYES: Cooper, Daly Redholtz, Kim, Shapiro
NOES: Hudson
