RECOMMENDATION

Staff recommends that the City Council discuss and approve the proposed Memorandum of Understanding ("MOU") between the City and the Friends of the Culver City Dog Park ("Friends"), and authorize its execution. Staff also recommends Council discuss the maintenance costs for the future off-leash dog park ("Dog Park"), including potential funding sources.

BACKGROUND / DISCUSSION

This is one of four items on this evening's agenda related to the Dog Park. The development of the plans and specifications, MOU, Maintenance Activities Schedule, and rules and regulations for the dog park, are the result of a substantial and cooperative effort among City staff, the Friends, the Dog Park Subcommittee ("Subcommittee"), the Parks and Recreation Commission ("Commission"), Kleinfelder (environmental engineers), and the environmental cleanup oversight agencies (the EPA and the Los Angeles County Fire Department).

City Council Agenda Item Report

MOU

As part of the work plan for developing the Dog Park, staff has met several times with representatives from the Friends to develop the proposed MOU (Attachment 1) regarding the relationship between the Friends and the City and each party's respective duties and responsibilities pertaining to the development, operation and maintenance of the Dog Park. On November 18, 2004, staff and Friends representatives met with the Subcommittee to receive input and comments on the MOU. On December 7, 2004, staff presented the MOU to the Commission for its comments and recommendation. The Commission voted unanimously (3-0, Commissioners Daly-Redholtz and Cooper recused themselves due to a conflict of interest) to recommend approval of the proposed MOU by the City Council.

The terms and conditions of the MOU include, but are not limited to, the following

- The MOU may be terminated by either party upon sixty (60) days written notice
- Friends will hold the City harmless for liability resulting from the Friends cooperation with the City in developing, operating and maintaining the Dog Park
- Friends will donate funds for the development and construction of the Dog Park, when financially feasible
- Friends will maintain bulletin boards located within the Dog Park, which will be used for the limited purpose of informing the public of dog related issues, services and events
- City will indemnify the Friends from liability for the activities of the general public
- City will be responsible for the overall maintenance of the Dog Park and may close the park to perform maintenance activities when necessary

It is recommended that the City Council review the proposed MOU, provide comments, and authorize its execution.

Maintenance

At the November 18th Subcommittee meeting, staff and Friends representatives also received input from the Subcommittee regarding the Dog Park Schedule of Maintenance Activities (Attachment 2) prepared by Public Works and Parks staff. The Commission, at its December 7th meeting, also reviewed and discussed these maintenance activities and, although certain members of the Commission had concerns regarding funding for maintenance costs, they voted unanimously (3-0,

Commissioners Daly-Redholtz and Cooper recused themselves due to a conflict of interest) to recommend approval

The maintenance activities of the Dog Park include services to be performed by City staff, as well as services that will be performed by outside contractors. In addition, it was suggested that an account or fund be established for future replacement costs and capital expenditures. The City will ultimately be responsible for covering these costs.

The Subcommittee, as well as City staff and Friends' representatives, discussed an increase in dog licensing fees as a possible funding source to cover these costs. Currently, Culver City allows seniors and disabled individuals an unlimited number of free licenses regardless of whether or not the dog is spayed or neutered. Many other cities only waive the license fee for the first dog licensed by a senior, and additional dogs are licensed at a full or discounted rate. The license fees currently collected by the City do not cover the costs expended for animal care and control services.

Another possible funding source is to increase the number of dogs licensed in the City. Currently, the number of licensed dogs in Culver City is substantially below other City averages. Culver City has approximately 2,400 licensed dogs, however, according to the most recent census, there are approximately 16,600 households in Culver City, which should equate to a much higher number of dogs Citywide.

It is recommended that the Council discuss these issues, provide comments, and direct staff to bring back a comprehensive analysis regarding increasing animal licensing fees and exploring canvassing options to increase the number of dogs licensed in the City.

FISCAL ANALYSIS

Per the MOU, the Friends, as much as financially feasible, will donate funds to assist the City in the development and construction of the Dog Park, however, the Friends is unable to commit to covering the cost of maintenance due to the uncertainty of the organization's ability to raise future funds. The execution of the MOU in and of itself does not create a fiscal impact, however, the City, has an obligation to maintain the Dog Park at the same level as any other City park. In this regard, there is a cost for maintenance of approximately \$5,490 per year (See Attachment 2).

Staff recommends that the City Council consider license fee increases and additional canvassing efforts to increase the number of dogs licensed in the City, and direct staff to bring back to the City Council in February 2005 a more

Item I 10

Discussion ensued regarding a staff recommendation for the City Council to consider license fee increases. The increased funds would go towards the maintenance of the dog park. Staff is tentatively planning to return in February 2005 with proposals.

Councilmember Gross expressed concerns that fiscal issues were not being sufficiently addressed, that the City was willing to indemnify the Friends of the Culver City Dog Park, and that assumptions were being made regarding the proposed increase for license fees. Councilmember Gross recommended that this item be postponed for further analysis and consideration.

Further discussion ensued regarding feasibility of using an agreement similar to those between the City Council and the Little League and AYSO for maintenance of the dog park by the Friends of the Culver City Dog Park, and deadline to get information to Los Angeles County regarding the City's dog license fees. Discussion continued regarding restrictions on what can be posted on a bulletin board to be located in the dog park. It is proposed that only dog related issues, services and events be posted.

Councilmember Vera proposed a motion to adopt the staff recommendation. Councilmember Corlin seconded the motion.

Councilmember Silbiger proposed an amendment to allow all City related activities to be posted on the bulletin board in the dog park.

There was no second to Councilmember Silbiger's amendment.
