| The rides I really liked the variety this year and the types of rides especially the new ones like the Sphinx and Himalayas. I thought the ride choices were better than other years | Least favorite part is probably the ticket prices and food options. The food options weren't as abundant as previous years and the lines were really long as I waited an hour for a funnel cake so it took away time from rides with the wristband and other things. Additionally a lot of my friends didn't want to buy tickets because to get on multiple rides it cost a lot of money. | Early bird wristband purchase was fairly easy and kids enjoyed the rides | Food stands were way too slow - we waited for nearly 45 mins for a funnel cake. My husband and I had to separate to get food from different vendors because the waiting time was so long everywhere. They need to hire more staff and improve operations (for example have batches of lemonade ready to go instead of making to order). Would also be nice to have more food options, including trucks. Also, Halloween weekend isn't an ideal time. Though having it in the Fall is nice since weather is cooler. | Bike | No | | | | Family | Magician for kids would be fun | Yes | Social media | 90232 |
