To whom it may concern:

This letter has been written to confirm that the NIJ Level III Armored Ford Transit Tactical Van, including its various designs and options, is a sole source product due to its exclusive SMART ARMOR Design. The armored tactical van is manufactured, sold and distributed exclusively by International Armored Group, US Inc. IAG is the only company that provides low profile vans with the patent SMART ARMOR design. This design provides 360 degree protection while maintaining the OEM look of the vehicle. This includes building a single piece ballistic windshield that allows the van to maintain its OEM look. IAG is also the only armoring company that manufactures the single piece windshield design.

International Armored Group maintains all engineered drawings, and armoring designs needed to build the armored tactical van with International Armored Groups patented SMART ARMOR Design. International Armored Group maintains all engineered designs for their products and these products must be purchased directly from the company. There are no agents or dealers authorized to represent these products and International Armored Group has not granted any sub-license to make a similar or competing product.

The NIJ III armored tactical van is designed to protect law enforcement officers during their various duties and activities. It is a vehicle that is designed to be cross utilized throughout the department by various sub sets such as SWAT, VICE and narcotics.

International Armored Group warrants that no other items or products are available for purchase that would serve the same purpose or function and there is only one price for the above-named product because of exclusive design and marketing rights.

If you desire additional information, please contact me at (904) 794-4304, or by e-mail, a.wilson@interarmored.com.

Sincerely,

Alex Wilson
