# CULVER CITY ZONING UPDATE

## ZONING FRAMEWORK

Table 1B: Draft Overlay Zones

OVERLAYS	RECOMMENDATIONS
<b>Existing Overlays - Not Changing</b>	
<b>Residential Zero Setback Overlay (-Rz)</b>	The Residential Zero Setback Overlay will remain as-is, without changes.
<b>Redevelopment Project Area Overlay (-Rp)</b>	The Redevelopment Project Area Overlay will remain as-is, without changes.
<b>Civic Center Overlay (-Cv)</b>	The Civic Center Overlay will remain as-is, without changes.
<b>Residential Hillside Overlay (-Rh)</b>	The Residential Hillside Overlay will remain as-is, without changes.
<b>Existing Overlays - Being Removed</b>	
<b>Commercial Zero Setback Overlay (-Cz)</b>	The Commercial Zero Setback Overlay will be removed from the Zoning Code. All parcels that currently fall within the overlay are designated MU-1 and MU-2 land use designations. Instead of utilizing an overlay, we will allow a 0 ft minimum setback and set maximums as appropriate based on ground-floor use in the MU-1 and MU-2 base development standards.
<b>East Washington Boulevard Overlay (-Ew)</b>	The East Washington Boulevard Overlay will be removed from the Zoning Code. The General Plan Update designates these parcels as MU-1 and MU-2. All parcels that fall within the overlay currently have a base zone of CG or IG, which allow a broad range of higher-intensity commercial and industrial uses such as vehicle repair shops, small-scale manufacturing, wholesaling and distribution, etc. The original intent of the East Washington Boulevard Overlay was to modify the permitted uses in the area to limit and amortize these higher-intensity commercial and light industrial activities. Moving forward, the MU-1 and MU-2 base zones will allow neighborhood-serving and general retail uses, consistent with uses currently on the ground today.
