To whom it may concern,

I write in opposition to approving this project:

Proposed Auto Repair Facility at
10150-10200 Jefferson Blvd P2025-0174-CUP

I believe we should be shifting away from auto infrastructure towards bike and public transit infrastructure. This would be a step in the wrong direction.

At a time when there is a severe housing crisis, this kind of large space should be used instead to build 100% truly affordable social housing. Perhaps the city or a non-profit could acquire the property and build that instead? Or some other socially valuable infrastructure?

Sincerely,
Alex Roberts
