Subject: 9919 Jefferson Bl. Proposed Development

Dear Gabriela,
Please read and add my email to the planning meeting record.

I believe the proposed development is too big and tall in scale to the neighborhood across the creek that will be impacted. Further there is not enough room to properly buffer the residential neighborhood from the noise, light and visual impacts. The proposed development should be scaled back to adjust to the existing residential neighborhood.

Thank you,
Steve Sheftel
