Exhibit A

TO RESOLUTION NO. 2018-R__;

Argument In Favor Of Measure (For Transactions and Use Tax):

Vote YES on Measure __!

As Culver City residents, we all value the city's high quality of life and superior services. Our independent police and fire departments, parks, and youth and senior programs are among the best in Southern California.

But, these services are expected to cost \$75 million more over the next 10 years than the city will bring in. Measure __ will increase our local sales tax by one-quarter of a penny per taxable dollar spent to generate almost \$5 million per year, all of which will be used locally.

Adopting a quarter-cent sales tax now is sound planning for the future. With Measure __, Culver City can continue to:

- Maintain prompt police, fire, and 911 emergency medical response;
- Ensure our police station and neighborhood fire stations are fully-staffed and open, even in a natural disaster;
- Continue senior services, including meals-on-wheels, and health, education, and recreation programs;
- Maintain parks, playgrounds, sports fields, and the municipal pool; and
- Provide after school and mentoring programs for our youth.

Measure__ guarantees transparency and public oversight by requiring independent annual financial audits, ensuring that every dollar raised will be invested in Culver City efficiently, effectively, and as promised.

Visitors will pay most of the tax, so that all who use our roads and services will pay their fair share. Measure __ will NOT increase your property tax, rent, mortgage, cost of medical services, or utility expenses. And, this Measure will not tax prescription medication or most groceries.

As a city council, we are committed to providing first-class services that fit our growing city. Please join _____, _____, _____, and all five members of city council and vote YES on Measure __ to maintain Culver City's city services.

Exhibit B

TO RESOLUTION NO. 2018-R__;

Argument In Favor Of Measure (For Charter Amendment):

VOTE YES ON MEASURE ____

The California Voter Participation Rights Act was designed to increase voter participation by requiring cities to conduct local elections at the same time as statewide elections. Measure __ complies with the Act by amending the city charter to move our local elections for members of the City Council to November of even numbered years—the same time as state and national general elections.

Measure __ will:

- Dramatically increase voter turnout in our local elections,
- Advance the constitutional right to vote and the integrity of the electoral process,
- Increase the participation of groups that are underrepresented in low turnout elections,
- Engage young voters in local elections, and
- Help the city save money by holding elections at the same time.

If we do not vote to align our local elections with statewide elections, a court might order us to do it anyway, without your input and with the City paying all the legal fees.

Please vote YES on Measure __ to create a more equitable and inclusive electoral process!
