Re: Market Hall Development at 12337-12423 Washington Blvd.
Attn.: Gabriela Silva, Associate Planner

Dear Ms. Silva:

We believe the amount of customer/patron parking spaces currently allocated to the the project named above is totally inadequate. As is already the case with existing businesses located on Washington Blvd. between its intersections with Centinela Ave. and McConnell Blvd., adjacent residential streets are frequently and adversely impacted by overflow traffic and illegally parked cars due to lack of parking at those businesses. This is a common nuisance in our neighborhood around Stewart Ave.

We strongly recommend that Culver City mandates significantly increased onsite parking at the above project.

Sincerely,
Stanley W. & Virginia L. Wong
