Notes:

- The number of GPU Transportation TAC meetings is not currently known. Attendance at GPU Transportation TAC meetings or other additional meetings will be charged on a time-and-materials basis.
- Cost to develop new vehicle trip generation rates for 1 district assumes collection of counts at up to 12 isolatable sites.
- VMT Impact Fees Nexus Study estimate does not include potential economic review by an economist subconsultant (estimated at approximately \$10,000) nor public outreach/public hearings.
