WHEREAS, California, the Golden State, is a national leader in energy conservation, embracing its residents' and small businesses' efforts to support clean energy and energy efficiency goals; and

WHEREAS, all Californians have the opportunity to practice energy-conscious and environmentally friendly actions that have energy-saving impacts.

1. Culver City supports Energy Upgrade California® (“EUC”), a statewide initiative committed to empowering Californians to become energy stewards by integrating energy management practices into their daily lives, and EUC’s call to all California residents and businesses to preserve California’s pristine environment by practicing energy-conscious and environmentally friendly actions that have energy-saving impacts to help “Keep it Golden.”

-1-

1 use, washing clothing on the cold cycle, lowering the thermostat, etc.). Each individual  
2 action can result in a big impact not only for Culver City, but also the state of California.

3 3. The City Council urges all Culver City residents and small businesses  
4 to become more conscious energy stewards, recognizing that we all have the power to  
5 make a significant impact in helping California "Keep it Golden" by taking even small  
6 actions every day.
