Culver City, CA 90232

Dear Ms. Braun,

This letter is to inform you that Hedstrom Environmental 2, 3 and 4 yard Front Load and Quad Pocket type Plastic Dumpster designs feature a Unibody™, single-piece design. This means that the entirety of our lifting pocket are molded, as one continuous piece, within the body of the unit. They are not added to the dumpster after molding, or bolted on later. Additionally, they do not require any "Inserts", or additional pieces to be added to the lifting pockets. Hedstrom Environmental is the only manufacturer to offer this patented design.

If you would like to discuss further, or require any additional information, please do not hesitate to contact me.

Best regards,

Kirsten Kahl
