Armando Abrego, Parks Recreation and Community Services Interim Director, provided a summary of the material of record; and, responding to inquiry, he introduced and provided background on himself.

Chair Amezola invited public comment:

Patricia Mooney, Senior Management Analyst, indicated that no public comment had been received for item A-1.

Discussion ensued between staff and Commissioners regarding repeated concerns expressed about signage and adult sports; current policies; implications connected to any decisions to address adult sports or potential changes to ordinances; costs involved in repairing and maintaining the fields with increased usage; addressing signage in Spanish prohibiting soccer; field availability; removal of Spanish language citations; consequences for the staff on each site; maintaining adult prohibitions in place; complexity of the situation; revisions to park regulations; review by the City Attorney; comparisons to municipal codes in other area cities; the goal of transparency; updated language; the importance of regularly revisiting and revising municipal codes; concern with failure to make changes to the section directly addressing engaging in organized sports and changes to signage; staff input and consideration in regard to proposed changes; the process for approving changes to the code; staff workload; lack of a penalty section for violating general park rules; sections of code that haven't been reviewed in full by the City Attorney's office; providing an explanation of specific reasons for deferring revisions; camping; the City task force related to homelessness; ensuring that updates to code are compliant with current case law; provisions which implicate vending laws; revision of state law limiting City authority in regard to vending; addressing vending in City parks; prematurity of updating the code due to ongoing cases; modification of permits and use agreements by the City Attorney's office; the current increase in allowed paid activities that are not sponsored by City parks; City Council issuance of permits; clarification on section M; Commissioner review and clarification regarding proposed changes; language regarding drones; clarification on water features; adding rugby, Frisbee and kickball to organized sports included in section M; language indicating "...included but not limited to..."; and adding as much specificity as possible.

Vice Chair Heineman joined the meeting.

Additional discussion ensued between staff and Commissioners regarding smoking in parks; adding extra language to include electronic smoking devices and vaping; the definition of smoking; Section M; divisiveness of only the signs prohibiting adult soccer play in parks being translated into Spanish; implications of racism; conversations regarding the issue; the clear prohibition of sports in undesignated areas; the policy issue; agreement that current language does not include an exclusive list; interpretation; the ability of the Commission to consider the possibility of taking down signage in Spanish prohibiting soccer; providing support for staff or police in the event that individuals are injured while a sport is being played; the potential burden on staff in continually monitoring or censoring redundant signage; changes in the municipal code; research indicating that an indicator of health is access to green space; lack of access for those over the age of 18 to play soccer; inclusivity; clarification that changes in the municipal code would not inhibit the Commission from making further suggestions to the City Council; accessibility of parks; suggestions for the General Plan; funds for rehabilitating parks; park space designated for organized adult sport use; establishing activities in parks prior to removing signage to save costs; policy changes; concerns about public confusion with removal of signs; the previous vote of the Commission on the item; items on the agenda; revisions to the municipal code; separate signage to prohibit soccer play; clarification that if signage is pulled down, the public would take that as a message that soccer is now allowed; the prohibition of dogs in parks; the feeling that redundant signage is not useless and all signage should be in English and Spanish for inclusiveness; making all rules clear; efforts to get people to comply; concern with targeting Spanish speakers who play soccer; concern that those over 18 years of age are not welcome in the parks; focusing on the agenda item; the need for additional green space or fields; pick-up games vs. organized games; and the need for continued discussion to identify how, where and when adult sports can be played in parks.

Commissioner Mohammed suggested adding rugby, kickball and ultimate Frisbee to Section 9.10.055, Prohibitions, Item M, and, adding language regarding penalties to Section 9.10.055 similar to the penalty provisions that were added in the blue underlined text in Section 9.10.405, Penalties.

There was Commission consensus to accept the suggested revisions presented by staff to certain sections of Culver City Municipal Code Chapter 9.10: Parks, Public Buildings and Property, and agreement with adjustments proposed by Commissioner Mohammed to add other sports to Section 9.10.055 Prohibitions, Item M, including rugby, kickball and ultimate Frisbee, and, to include penalties/language in Section 9.10.055 similar to the penalty provisions that were added (noted in blue underlined text) in Section 9.10.405 Penalties).
