Marina Landscape provided landscape maintenance services for the City's parks, medians, public facilities, and streetscape areas from 2009 until the company was acquired by BrightView Landscapes, LLC, in 2017. Marina Landscape was reestablished and the original management team and many of the same employees, whom the City worked with from 2009 to 2017, have been providing landscape services for the City since July 2018. Staff is recommending that the City Council approve an agreement with Marina Landscape for City-wide landscape maintenance services based on the results of the RFP, positive feedback from references, and a history of excellent performance and accountability in working with the City in the past.

## **FISCAL ANALYSIS**

The amount for the term of the landscape maintenance services contract for the locations managed by the Parks Division is \$606,772.30, or \$234,879.60 annually . The amount for the special projects to be performed on an as-needed basis throughout the term of the contract is \$70,589.58, or \$27,325 annually . There are sufficient funds in the Adopted Budget for Fiscal Year 2022/2023 in Account #10130300.691800 (Parks Division - Other Contractual Services) for this expense. Funding for future years of the agreement will be included in future fiscal year budgets.

The amount for the term of the landscape maintenance services contract for the locations managed by Economic Development Department (EDD) is \$51,667.70, or \$20,000.40 annually. The Adopted Budget for Fiscal Year 2022/2023 includes sufficient funding for these services in Account #10150120.619800 (Economic Development - Other Contractual Services), Account #42516510.619800 (West Washington Landscape Maintenance District #1 - Other Contractual Services) and Account #42516520.619800 (West Washington Landscape Maintenance District #2 - Other Contractual Services).

Funding for future years of the agreement will be included in future fiscal year budgets.

The amount for the term of the landscape maintenance services contract at bus stops along Washington Blvd is \$37,2000, or \$14,400 annually. There are currently sufficient funds in the Adopted Budget for Fiscal Year 2022-2023 in Capital Improvement Project #PS017 (Tactical Mobility Lane) for this expense.

City staff is also requesting the authority to approve up to 20% of the base contract amount, \$139,128, as contingency. This additional 20% is being requested because in the past staff has encountered urgent situations that could not have been anticipated when developing the landscape

maintenance services regular scope of work. For example, water main breaks, auto accidents that damage irrigation devices and/or plantings, extreme weather conditions and other such occurrences often require immediate attention.

To calculate the total cost for the 2 year and 7 month term of the agreement, the annual totals were combined for each of the three departments and divided by 12 months to generate a monthly total. The monthly total was then multiplied by 31 months.
