Public Notification: Neighboring resident USPS mailing

Department Approval: Yanni Demitri, Public Works Director / City Engineer

Background

The Culver City Public Works Department is developing a project to replace and transform the pathway that links Farragut Dr to Jasmine Ave.

The intent of the project is to better serve both pedestrians and bicyclists who use the pathway.

Improvements will include expanding the pathway width, installing pedestrian-oriented lighting, and adding landscaping.

The initial project concept was presented to the Bicycle & Pedestrian Advisory Committee at their August 19, 2021 meeting.

At this virtual meeting, staff will present multiple design options. Following the presentation, attendees will be invited to comment on and ask questions about the proposed designs, which will inform further design development.
