Department Approval: Charles D. Herbertson, Public Works Director / City Engineer

BACKGROUND

The Stormwater Quality Master Plan is a customized tool to guide the City's stormwater quality compliance strategy, prioritize best management practices, prioritize spending, identify potential project partners, and maximize grant funding opportunities.

Based on the physical characteristics of Culver City and current stormwater quality goals and requirements, the Stormwater Quality Master Plan has identified and analyzed over 400 potential project opportunities for capturing and managing stormwater in the Ballona Creek Watershed.

MEETING DETAILS

The Environmental Programs & Operations Division (EPO) of the Public Works Department will host two virtual workshop meetings:

- Tuesday June 8, 2021 at 6:00 PM
- Thursday June 24, 2021 at 6:00 PM

Members of the public are invited to these workshops to learn more about the Stormwater Quality Master Plan and the potential project opportunities and provide community input.
