RECOMMENDATION

Staff recommends that the Civil Service Commission approve the revised Classification Specification and Recruitment Bulletin for Facilities Maintenance Worker.

BACKGROUND/DISCUSSION

In accordance with Civil Service Rule 3.1 the purpose of classification is to establish and maintain a system of written job analyses by job titles and duties which accurately represents the assignment of duties and describes the qualifications necessary to perform such duties satisfactorily.

The Transportation Department is in the process of completing a facility condition assessment and establishing a City facility work order management system to ensure Transportation facilities are maintained by staff in the Transportation Department. An initial review of the Facilities Maintenance Worker classification specification revealed that updates were necessary to include the duties to be performed by the incumbents in the Transportation Department. The proposed changes throughout the classification specification capture the actual job duties being performed by the incumbents and reflect the current needs of the department. The current incumbents meet these requirements.

The proposed revisions will assist the City with providing clarity to applicants regarding essential duties of the position based upon assignment, and the knowledge, skill and ability expected to perform these duties. Revisions were made to the following section of the specification: Supervision Received and Exercised, Essential Job Duties, Minimum Knowledge, Skills and Ability, and Physical

Requirements and Working Conditions as follows:

- Supervision Received and Exercised
Minor revisions to this section were made to reflect the incumbent may receive supervision from higher level positions within the departments.
- Essential Job Duties
In this section, duties were added that capture the work performed by the incumbent based on the assigned department.
- Minimum Knowledge, Skills and Ability
Minor revisions were made in this section to include bus stops and bus stop shelters.
- Physical Requirements and Working Conditions
Minor revisions were made in this section to include training will be received when working with harsh and toxic substances and within enclosed spaces.
